

## Kal East - Processing Commenced at Lakewood

Black Cat Syndicate Limited (“**Black Cat**” or “**the Company**”) is pleased to announce Completion of the 1.2Mtpa Lakewood processing facility (“**Lakewood**”) acquisition, now part of the 100% owned Kal East Gold Operation (“**Kal East**”), in line with the Company’s “more gold, sooner” strategy.

### HIGHLIGHTS (All figures in A\$ unless otherwise stated)

- Completion of the Lakewood acquisition occurred at 12.00pm on 31 March 2025 with \$24.0M paid and 19,739,439 Black Cat fully paid ordinary shares issued (escrowed until 31 March 2026). Two deferred payments, totalling \$45M, will be made in June 2025 and November 2025<sup>1</sup> out of operating cashflow.
- The experienced Lakewood workforce has moved over to Black Cat and continue to operate the processing plant.
- Myhree Ore was delivered to Lakewood immediately after Completion and processing has commenced.
- Mining at the Myhree and Boundary open pits continues ahead of schedule with >100,000t of Ore stockpiled at the mine. This Ore will continue to be processed at Lakewood until the open pits are completed in October 2025.
- Optimisation of the various deposits at Kal East is ongoing to ensure a smooth transition of Ore sources to the processing plant.

**Figure 1:** 110t haulage trucks unloading high-grade Myhree Ore at Lakewood on 31 March 2025, ready for processing.

Black Cat’s Managing Director, Gareth Solly, said: “*Black Cat has taken a transformational step forward now that Lakewood is under the Company’s ownership. With processing starting immediately, the more gold sooner strategy is underway.*”

## Kal East - Processing Commenced at Lakewood

---

### PLANNED ACTIVITIES

As at the date of this announcement, the proposed activities and timing for the Company over the coming months includes:

Ongoing	Underground drilling at Paulsens
Apr 2025	Commencement of mining activities at Kal East (optimisations, approvals etc)
Apr 2025	Commencement of drilling activities at Kal East (Majestic, Fingals etc)
Apr - Oct 2025	Ongoing mining at Myhree/Boundary open pits
Apr 2025 - Ongoing	Processing of Ore at Lakewood processing facility
10 Apr 2025	General Meeting

For further information, please contact:

This announcement has been approved for release by the Board of Black Cat Syndicate Limited.

# Kal East - Processing Commenced at Lakewood

## ABOUT BLACK CAT SYNDICATE (ASX: BC8)

Black Cat is a gold producer with operating mines and processing facilities at two of its three 100% owned operations. Gold production occurs at:

**Paulsens:** comprises ~3,200km<sup>2</sup> of tenure located ~180km west of Paraburdoo in WA. Paulsens consists of an operational underground mine, 450ktpa processing facility, 128-person camp and other related infrastructure. Gold production restarted in December 2024 and will move to full production during 2025. Paulsens has a regional Resource of 4.3Mt @ 4.0g/t Au for 548koz and significant exploration and growth potential.

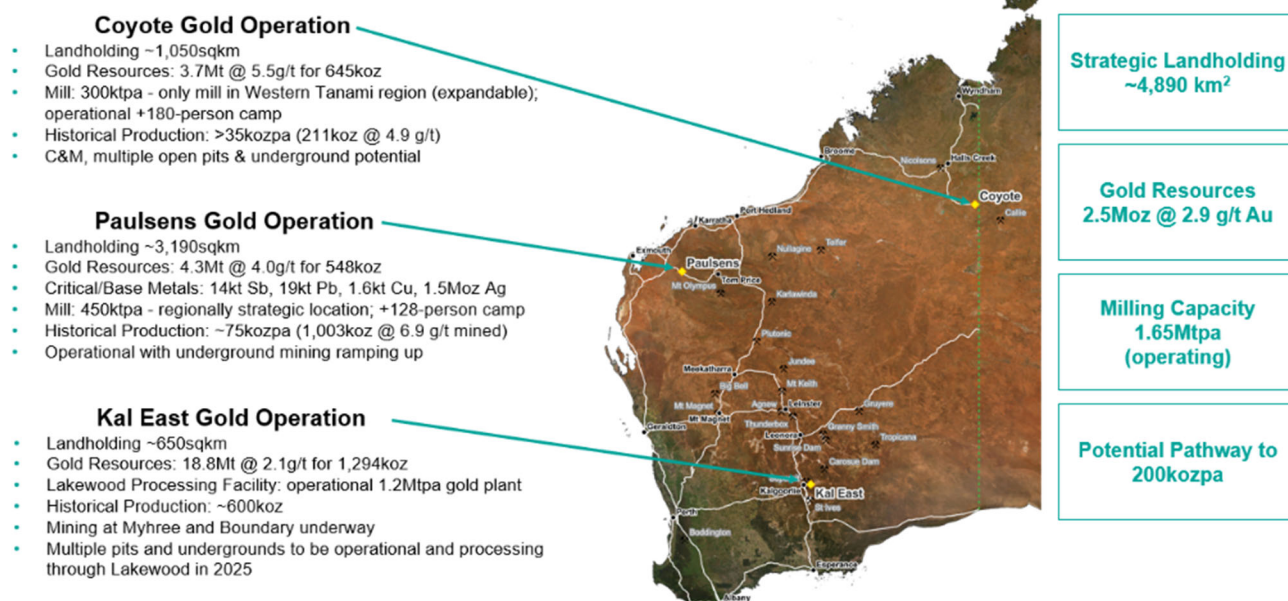

**Kal East:** comprises ~650km<sup>2</sup> of highly prospective ground to the east of the world class mining centre of Kalgoorlie, WA. Kal East contains a Resource of 18.8Mt @ 2.1g/t Au for 1,294koz, including a preliminary JORC 2012 Reserve of 3.7Mt @ 2.0 g/t Au for 243koz. A turn-key funding, development & processing arrangement to mine and mill the Myhree and Boundary open pit deposits is underway<sup>2</sup>.

Black Cat entered into a binding agreement in February 2025 to purchase the Lakewood Processing Facility, ~6km east of Kalgoorlie. The processing facility, a conventional CIL gold circuit with current throughput of 1.2Mtpa, will commence processing Black Cat's open pit and underground Ores during 2025.

In addition to the significant regional exploration potential at Paulsens and Kal East, the Company also has two major organic growth projects at:

**Coyote:** located in Northern Australia, ~20km on the WA side of the WA/NT border, on the Tanami Highway. Coyote has substantial built infrastructure including an airstrip, underground mine, 300ktpa processing facility, +180-person camp and other related infrastructure. The operation is currently on care and maintenance and has a Resource of 3.7Mt @ 5.5g/t Au for 645koz with numerous high-grade targets in the surrounding area.

**Mt Clement:** is part of the Paulsens Gold Operation and is located 30km to the south of the operating gold processing plant. Mt Clement is a polymetallic deposit and currently the 4<sup>th</sup> largest deposit in Australia of the critical mineral antimony. Significant upside potential for Resource growth and discovery of antimony, gold, silver and base metals exists at the project which will be aggressively explored in the coming years.

## COMPETENT PERSON'S STATEMENT

Where the Company refers to the exploration results, Mineral Resources, and Reserves in this report (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource and Reserve estimates with that announcement continue to apply and have not materially changed.

The Company confirms that all material assumptions underpinning the production targets, or the forecast information derived from the production targets, included in the original ASX announcements dated, 8 May 2024, 9 May 2024 and 15 May 2024 continue to apply and have not materially changed.

### Notes on Resources:

- The preceding statements of Mineral Resources conforms to the 'Australasian Code for Reporting of Exploration Results Mineral Resources and Ore Reserves (JORC Code) 2012 Edition'.
- All tonnages reported are dry metric tonnes.
- Data is rounded to thousands of tonnes and thousands of ounces gold. Discrepancies in totals may occur due to rounding.
- Resources have been reported as both open pit and underground with varying cut-offs based off several factors discussed in the corresponding Table 1 which can be found with the original ASX announcements for each Resource.
- Resources are reported inclusive of any Reserves.
- Paulsens Inferred Resource includes Mt Clement Eastern Zone Au of 7koz @ 0.3g/t Au accounting for lower grades reported.

The announcements containing the Table 1 Checklists of Assessment and Reporting Criteria relating for the 2012 JORC compliant Resources are:

### Kal East Gold Project

- Boundary, Trump, Myhree – Black Cat ASX announcement on 9 October 2020 "Strong Resource Growth Continues including 53% Increase at Fingals Fortune"
