

TRANSFORMATIONAL A\$75M BOUGHT DEAL

HIGHLIGHTS

- **Firm commitments received to raise A\$75 million via bought deal**
- **Placement driven by demand from leading, high-quality offshore institutional investors**
- **The Placement will enable Benz to significantly increase activities at the Glenburgh and Mt Egerton Gold Projects, including resource growth, infill drilling and extension of known mineralisation at the Icon, Tuxedo and broader Glenburgh system**
- **Benz is well-funded with a pro-forma cash position of ~A\$94 million following completion of the Placement¹**

Benz Mining Corp. (TSXV: BZ, ASX: BNZ) (**Benz or the Company**) is pleased to announce that it has received firm commitments for a placement of 32,327,587 new fully paid CHESS Depositary Interests (**CDIs**) in the Company via a bought deal at an issue price of A\$2.32 per CDI ("**Issue Price**") to raise A\$75 million (before costs) (**Placement**).

The Placement was driven by strong demand from two leading, high-quality offshore institutional investors, including a leading global fund manager who cornerstoned the Placement, and was also supported by its existing substantial institutional shareholders. Benz's share register remains well-positioned with a broad range of long-only institutional shareholders who have demonstrated their support for the Company's strategy of aggressive exploration.

Benz Chair, Mr Evan Cranston, commented:

"This bought capital raising is a transformational step for Benz, positioning the company to significantly increase activities at the Glenburgh project, following recent drilling success.

"The strong cornerstone support from global institutional funds, together with our existing large institutional shareholders, is a strong endorsement of our recent discoveries and the exploration potential that remains within our belt-scale tenure. Glenburgh is rapidly shaping up as one of the most compelling emerging gold stories on the ASX.

"With a strengthened pro-forma balance sheet of ~A\$94m¹ in cash, Benz is well funded to drive a step change in the rate of exploration activities at Glenburgh. As we move into the next exciting chapter for the company, I'd like to take this opportunity to thank our existing shareholders and welcome our new shareholders to the register."

Use of Funds

Proceeds from the placement will enable Benz to significantly increase activities across its gold portfolio, with a focus on its 100%-owned Glenburgh Gold Project in Western Australia – a new frontier gold district with multi-million-ounce potential.

Funding will be applied towards continuation of RC and diamond drilling programs targeting resource growth, infill drilling and extension of known mineralisation at the Icon, Tuxedo and broader Glenburgh system, as well as follow-up drilling at the Egerton Project, geological and technical studies, including assay analysis, geological modelling, interpretation and targeting to support resource definition and growth, drill access preparation, heritage clearances, environmental approvals and associated field costs across the Company's project portfolio and general corporate and administrative costs to support ongoing operations and exploration activities.

¹ Based on Benz's current closing cash of ~A\$19m and adjusted for gross Placement proceeds (excludes transaction costs).

Placement Details

The Issue Price is identical to the 5 day VWAP as of Wednesday, 28 January 2026.

The Company will issue 32,327,587 CDIs under its existing placement capacity under ASX Listing Rule 7.1. It is anticipated that settlement of the Placement will occur on Thursday, 5 February 2026 and the CDIs will be allotted and commence trading on Friday, 6 February 2026. About Benz Mining Corp.

Benz Mining Corp. (TSXV:BZ, ASX: BNZ) is a pure-play gold exploration company dual-listed on the TSX Venture Exchange and Australian Securities Exchange. The Company owns the Eastmain Gold Project in Quebec, and the recently acquired Glenburgh and Mt Egerton Gold Projects in Western Australia.

Benz's key point of difference lies in its team's deep geological expertise and the use of advanced geological techniques, particularly in high-metamorphic terrane exploration. The Company aims to rapidly grow its global resource base and solidify its position as a leading gold explorer across two of the world's most prolific gold regions.

The Glenburgh Gold Project features a Mineral Resource Estimate of 16.3Mt at 1.0 g/t Au (510,100 ounces of contained gold)¹.

The Eastmain Gold Project in Quebec hosts a Mineral Resource Estimate of 1,005,000 ounces at 6.1g/t Au² showcasing Benz's focus on high-grade, high-margin assets in premier mining jurisdictions.
