ASX ANNOUNCEMENT

28th February 2024

A$1.9M Placement a strong endorsement of EVR's copper exploration strategy

Highlights:

- **Firm commitments received to raise A$1.9m from the issue of 147.7m new ordinary shares at $0.013 per share (New Share) with 1 attaching new option for every 1 New Share.**
- **The placement provides a strong endorsement of the Company's copper focused strategy in Peru, where assays for the first of 6 completed holes are due in March.**
- **Funds raised will be used to continue the drill programme at the high grade Parag copper-molybdenum project in Peru (EVR 70%).**

EV Resources Limited (ASX: EVR) ("**EVR**", or "**the Company**") is pleased to announce that it has received firm commitments from sophisticated investors to subscribe for a placement of 147.7 million Ordinary Shares (ASX:EVR) at an issue price of $0.013 per share ("**New Share**") to raise A$1.9 million ("**Placement**").

One free option (ASX:EVROA), with an exercise price of $0.02 per share, and expiry date of 30 November 2026, will be issued for every 1 New Share ("**New Option**").

Sandton Capital Advisory Pty Ltd and Cadmon Advisory acted as the Joint Lead Managers to the Placement. Fees payable total 6% of gross funds raised and 19.2 million New Options, to be issued subject to shareholder approval.

The Placement provides additional funding to continue the drill programme at the high grade Parag copper-molybdenum project in Peru, as well as to provide working capital and cover the costs associated with the Offer.

The New Shares and New Options will be issued in two tranches, given the Company's placement capacity.

1) Tranche 1 – All New Shares; and

2) Tranche 2 – All New Options.

311-313 Hay St Subiaco, Western Australia 6008

info@evresources.com.au

The Tranche 1 New Shares will be issued as follows:

- 32.2m New Shares using the Company's existing placement capacity in accordance with Listing Rule 7.1; and
- 115.5m New Shares using the Company's existing placement capacity in accordance with Listing Rule 7.1A.

Approval for Tranche 2 New Options is subject to shareholder approval at an EGM expected to occur in early April 2024.

EV Resources Managing Director, Hugh Callaghan commented:

"The successful fundraise represents a strong endorsement of the Company's copper focused strategy in the Americas. With the first assay results of 6 completed holes due in March, the funds raised will allow for continued drilling at the high grade Parag copper-molybdenum project in Peru. We are looking forward to building on previous exceptional results."

Forward Looking Statement

Forward Looking Statements regarding EVR´s plans with respect to its mineral properties and programs are statements that are not historical facts. Words such as "expect(s)", "feel(s)", "believe(s)", "will", "may", "anticipate(s)", "potential(s)"and similar expressions are intended to identify forward-looking statements. These statements include, but are not limited to statements regarding future production, resources or reserves and exploration results. All of such statements are subject to certain risks and uncertainties, many of which are difficult to predict and generally beyond the control of the company, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. There can be no assurance that EVR's plans for development of its mineral properties will proceed as currently expected. There can also be no assurance that EVR will be able to confirm the presence of additional mineral resources, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of EVR's mineral properties. The performance of EVR may be influenced by a number of factors which are outside the control of the Company and its Directors, staff, and contractors.

These risks and uncertainties include, but are not limited to: (i) those relating to the interpretation of drill results, the geology, grade and continuity of mineral deposits and conclusions of economic evaluations,

(ii) risks relating to possible variations in reserves, grade, planned mining dilution and ore loss, or recovery rates and changes in project parameters as plans continue to be refined, (iii) the potential for delays in exploration or development activities or the completion of feasibility studies, (iv) risks related to commodity price and foreign exchange rate fluctuations, (v) risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals or in the completion of development or construction activities, and (vi) other risks and uncertainties related to the company's prospects, properties and business strategy. Our audience is cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof, and we do not undertake any obligation to revise and disseminate forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of or non-occurrence of any events.
