evresources ASX:EVR

ASX ANNOUNCEMENT

18 September 2026

Change of Company Name to Antimony Resources Limited
New ASX Code ANT

Highlights

- EV Resources Limited has been renamed **Antimony Resources Limited**
- Effective Monday, 21 September 2026, ASX code to change from **EVR** to **ANT**; listed options (EVRO and EVROA) to trade as **ANTO and ANTOA**
- New name and brand reflect the Company's strategic focus on antimony – a critical mineral – across its Mexican and Nevada projects
- New corporate website to be launched at **antimonyresources.com.au**

EV Resources Limited (ASX: EVR) ("**EVR**" or the "**Company**") is pleased to advise that, following the approval of shareholders at the General Meeting held on 2 September 2026, the Company has changed its name to **Antimony Resources Limited** ("**Antimony Resources**").

From Monday 21 September 2026, the Company's securities will trade on ASX under the new ASX code **ANT** (fully paid ordinary shares), **ANTO** (listed options exercisable at $0.075 and expiring 31 August 2030) and **ANTOA** (listed options exercisable at $0.20 and expiring 30 November 2026), replacing the current codes EVR, EVRO and EVROA respectively.

The change of name does not affect the rights of shareholders or the Company's operations. Existing holding statements remain valid, and ASIC has registered the change of name. The Company's ACN and Australian Business Number are unchanged. Shareholders are not required to take any action.

The new name and brand reflect the Company's strategic transition to a focused antimony company. Antimony is a critical mineral essential to defence, energy storage, flame retardants and semiconductor applications, and the Company is advancing production-capable proof-of-concept processing at its Tecomatlán plant, ore supply from the Chinantla antimony project, and exploration at the Los Lirios Antimony Project in Mexico, together with its antimony ground in Nevada, USA.

The new Antimony Resources Limited brand

Commenting on the change, Executive Chairman **Shane Menere** said:

"The change of name to Antimony Resources marks an important milestone for the Company. Our identity now clearly reflects what we do – advancing antimony, a critical mineral of growing strategic importance, from proof-of-concept processing at Tecomatlán towards commercial production. Together with the share consolidation, the new brand positions the Company for its next phase of growth and for engagement with a broader base of Australian and international investors."

New website and investor communications

A new corporate website will be launched at **antimonyresources.com.au** to coincide with the change of name. The existing evresources.com.au domain and email addresses will redirect to the new site for a transitional period. Shareholders and investors are encouraged to register on the new website to receive Company announcements and updates directly.

This ASX announcement was authorised for release by the Board of EV Resources Limited (EVR).

Forward Looking Statement

Forward Looking Statements regarding EVR´s plans with respect to its mineral properties and programs are forward-looking statements. There can be no assurance that EVR's plans for development of its mineral properties will proceed as currently expected. There can also be no assurance that EVR will be able to confirm the presence of additional mineral resources, that any mineralisation will prove to be economic or that a mine will successfully be developed on any of EVR's mineral properties. The performance of EVR may be influenced by a number of factors which are outside the control of the Company and its Directors, staff, and contractors. These statements include, but are not limited to statements regarding future production, resources or reserves and exploration results. All of such statements are subject to certain risks and uncertainties, many of which are difficult to predict and generally beyond the control of the company, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements.

These risks and uncertainties include, but are not limited to: (i) those relating to the interpretation of drill results, the geology, grade and continuity of mineral deposits and conclusions of economic evaluations, (ii) risks relating to possible variations in reserves, grade, planned mining dilution and ore loss, or recovery rates and changes in project parameters as plans continue to be refined, (iii) the potential for delays in exploration or development activities or the completion of feasibility studies, (iv) risks related to commodity price and foreign exchange rate fluctuations, (v) risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals or in the completion of development or construction activities, and (vi) other risks and uncertainties related to the company's prospects, properties and business strategy. Our audience is cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof, and we do not undertake any obligation to revise and disseminate forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of or non-occurrence of any events.
