## 3 DETAILS OF THE OFFER

---

### 3.1 The Entitlement Offer

The Entitlement Offer is a non-renounceable pro-rata offer of one New Share for every twenty two (22) Shares held by Eligible Shareholders on the Record Date at an offer price of \$0.025 per New Share, together with one free attaching New Option for every two New Shares subscribed for and issued, to raise approximately \$247,668 (before costs) (**Entitlement Offer**).

The Entitlement Offer is non-renounceable, meaning the Entitlements cannot be traded.

All New Shares issued under the Entitlement Offer will rank equally with the Shares on issue as at the date of this Prospectus. For further information regarding the rights and liabilities attaching to the New Shares, refer to section 5.

The New Options will not be quoted on the ASX. The New Options issued under the Entitlement Offer will have the terms and conditions detailed in section 5. If the New Options are exercised, the Shares to be issued upon such exercise will rank equally in all respects with the existing Shares on issue.

The purpose of the Entitlement Offer and the proposed use of funds is detailed in section 4.

### **3.2 Removal of Secondary Trading Restrictions**

Generally, section 707(3) of the Corporations Act requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to on-sell those securities within 12 months after the date of their issue.

A secondary purpose of this Prospectus is to facilitate any potential secondary trading of any Shares which may be issued upon exercise of the New Options. Issuing the New Options under this Prospectus will enable persons who are issued the New Options to on-sell the Shares issued on exercise of the New Options pursuant to *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80*.

### **3.3 Purpose of this Prospectus**

The purpose of this Prospectus is to:

- (a) make the Entitlement Offer; and
- (b) ensure that the on-sale of the underlying Shares to be issued upon the exercise of the New Options is in accordance with *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80*.

### **3.4 Minimum subscription**

There is no minimum subscription for the Entitlement Offer.

### **3.5 Opening and closing dates**

The Company will accept Entitlement and Shortfall Application Forms in respect of the Entitlement Offer from Eligible Shareholders from the Opening Date until 5:00 pm (AEDT) on the Closing Date or such other date as the Directors in their absolute discretion shall determine, subject to the Listing Rules.

Please note that payments made by BPAY® and EFT must be received no later than 5:00 pm (AEDT) on the Closing Date. It is the responsibility of all Eligible Shareholders to ensure that their BPAY® and EFT payments are received by the Company on or before the Closing Date.

The Company reserves the right, subject to the Corporations Act and the Listing Rules, to vary the closing dates of the Entitlement Offer without prior notice. If the Closing Date is varied, subsequent dates may also be varied accordingly.

### **3.6 Eligible Shareholders and Ineligible Shareholders**

Eligible Shareholders are those persons who:

- (a) are registered as a holder of Shares as at 5:00 pm (AEDT) on the Record Date; and
- (b) have a registered address in Australia or New Zealand or are, in the opinion of the Company, otherwise eligible under all applicable securities laws to receive an offer of New Securities under the Entitlement Offer,

(an **Eligible Shareholder**).

If you are a Shareholder who does not satisfy each of the criteria listed above or are anyone who the Company determines (under Listing Rule 7.7.1(a)) should not receive an offer under the Entitlement Offer, you are an "Ineligible Shareholder". Where this Prospectus has been dispatched to Ineligible Shareholders, this Prospectus is provided for information purposes only.

The Company reserves the right to determine whether a Shareholder is an Eligible Shareholder or an Ineligible Shareholder.

By making a payment by BPAY® or EFT, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be an Eligible Shareholder. Nominees, trustees, or custodians are therefore advised to seek independent professional advice on how to proceed.

By receiving this Prospectus, you will be taken to have acknowledged and agreed that determination of eligibility of investors for the purposes of the Entitlement Offer is determined by reference to a number of matters, including legal and regulatory requirements, logistical and registry constraints and the discretion of the Company and their respective affiliates disclaim any duty or liability (including for negligence) in respect of that determination and the exercise or otherwise of that discretion, to the maximum extent permitted by law.

The Company has decided that it is unreasonable to make offers under the Entitlement Offer to Shareholders who have registered addresses outside Australia or New Zealand, having regard to the number of such holders in those places and the number and value of the New Securities that they would be offered, and the cost of complying with the relevant legal and regulatory requirements in those places. The Company may (in its absolute discretion) extend the Entitlement Offer to Shareholders who have registered addresses outside Australia or New Zealand in accordance with applicable law.

### **3.7 Shortfall Offer and Allocation Policy**

Any New Securities that are not taken up under the Entitlement Offer (**Shortfall Securities**) will be offered under this Prospectus (**Shortfall Offer**). Under this Prospectus, the Company offers to issue the Shortfall Securities to investors at the same Offer Price per New Share as that offered under the Entitlement Offer (together with one free attaching New Option for every two New Shares issued) with the rights of the New Shares as detailed in section 5.1 and the terms and conditions of the New Options as detailed in section 5.2.

Eligible Shareholders may apply for Shortfall Securities by completing the relevant section of their Entitlement and Shortfall Application Form (refer to section 3.11 for further details).

The Company intends to allocate Shortfall Securities according to the following priority (subject to the Board's discretion detailed below):

- (a) firstly, to each Eligible Shareholder who applied for Shortfall Securities through the Shortfall Offer; and
- (b) then, to any other sophisticated or professional investors (at the Board's discretion), provided that no investor will increase their voting power in the Company above 20% through the allocation of those Shortfall Securities.

It is an express term of the Shortfall Offer that Applicants are bound to accept a lesser number of Shortfall Securities allocated to them than applied for.

Applications for Shortfall Securities may be scaled back at the discretion of the Board. An Application for Shortfall Securities, accompanied by payment of Application Monies, does not guarantee the allotment of Shortfall Securities. The Company reserves the right, subject to the terms of this Prospectus, to issue to an Applicant a lesser number of Shortfall Securities than the number applied for, reject an Application, or not proceed with the issue of the Shortfall Securities. If the number of Shortfall Securities issued is less than the number applied for, surplus

Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded.

- (c) The Directors reserve, subject to compliance with the Corporations Act and the Listing Rules, the right to place Shortfall Securities within three months of the Closing Date at a price not less than the Offer Price.

The Directors will seek to ensure that no person will be issued Shortfall Securities if such issue will result in that person's voting power in the Company exceeding 20% or increasing at all, if they already hold voting power in the Company above 20%.

### **3.8 Fractional Entitlements**

Fractional Entitlements will be rounded up or down to the nearest whole number, with Entitlements to less than half of a New Security rounded down. For this purpose, holdings in the same name are aggregated for the calculation of Entitlements, to the extent permitted by the Listing Rules. If the Company considers that holdings have been split to take advantage of rounding, the Company reserves the right to aggregate holdings held by associated Shareholders for the purpose of calculating Entitlements, to the extent permitted by the Listing Rules.

### **3.9 Risks of the Entitlement Offer**

As with any securities investment, there are risks associated with investing in the Company. However, having regard to the risks applicable to the Company and its business detailed in section 6, Eligible Shareholders should be aware that an investment in the New Securities should be considered highly speculative and there exists a risk that you may, in the future, lose some or all of the value of your investment. Before deciding to invest in the Company, investors should read this Prospectus in its entirety, in particular the specific risks associated with an investment in the Company (detailed in sections 6.2 and 6.3) and should consider all factors in light of their personal circumstances and seek appropriate professional advice.

### **3.10 No underwriting**

The Offer is not underwritten.

### **3.11 How to accept the Offer**

#### Entitlement Offer

Applications for the New Shares may only be made by Eligible Shareholders.

A personalised Entitlement and Shortfall Application Form will be issued to the Eligible Shareholders together with a copy of this Prospectus. The Entitlement and Shortfall Application Form will enable Eligible Shareholders who take up their Entitlement in full to apply for Shortfall Securities available only to Eligible Shareholders

If you have more than one registered holding of Shares, you will be sent more than one personalised Entitlement and Shortfall Application Form and you will have separate Entitlements for each separate holding.

If you are an Eligible Shareholder, you may do any one of the following:

- (a) take up all of your Entitlement;
- (b) take up all of your Entitlement and apply for Shortfall Securities in excess of your Entitlement;

- (c) take up part of your Entitlement, and allow all of the remaining balance to lapse;
- (d) do nothing, in which case all of your Entitlement will lapse and you will receive no value for those lapsed Entitlements.

Please note all funds must be received and cleared no later than the Closing Date.

### **BPAY®**

In order to participate, the only action required is to BPAY® the funds for the amount you would like to invest in this Shareholder offer, using your unique Reference number. The action of BPAY® means the funds will constitute your acceptance of the Shareholder offer, and there is no need for you to return the paper Application Form enclosed. Your unique BPAY® details can be found in the bottom left corner of your personalised Entitlement and Shortfall Application Form.

### Shortfall Offer

Applications for Shortfall Securities may only be made by Eligible Shareholders using their personalised Entitlement and Shortfall Application Form. Acceptance of a valid BPAY® payment or completed Entitlement and Shortfall Application Form by the Company creates a legally binding contract between the Applicant and the Company for the number of Shortfall Securities accepted by the Company.

If the Entitlement and Shortfall Application Form is not completed correctly it may still be treated as valid. The Directors' decision whether to treat a completed Entitlement and Shortfall Application Form as valid and how to construe, amend or complete the form is final.

## **3.12 Issue of Securities**

Securities issued under the Offers will be issued in accordance with the ASX Listing Rules and the timetable set out at the commencement of this Prospectus. Application monies will be held in a separate subscription account until the Securities are issued. This account will be established and kept by the Company in trust for each applicant. Any interest earned on the application money will be for the benefit of the Company and will be retained by the Company irrespective of whether any securities are issued. Each applicant waives the right to claim any interest.

The Directors will determine the recipients of all the Securities and/or the number of Securities issued under the Entitlement Offer in accordance with this Prospectus. The Directors reserve the right to reject any application or to allocate fewer Securities to any applicant than the number applied for.

Where the number of Securities issued is less than the number applied for, the surplus money will be returned by direct credit to your nominated bank account or cheque as soon as practicable after the Closing Date. Where no issue of Securities is made, the amount tendered on application will be returned in full by direct credit to your nominated bank account or cheque as soon as practicable after the Closing Date. Interest will not be paid on refunded money.

## **3.13 ASX Listing**

Application for Official Quotation of the New Shares offered pursuant to this Prospectus will be made in accordance with the timetable set out in section 1.1.

If ASX does not grant Official Quotation of the New Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any New Shares and will repay all application

money for the Shares offered under this Prospectus within the time prescribed by the Corporations Act, without interest.

### **3.14 Withdrawal and Cooling-Off Rights**

Cooling off rights do not apply to an investment in New Securities under the Entitlement Offer. You cannot withdraw your payment once it has been accepted unless permitted to do so in accordance with the Corporations Act.

The Directors may at any time decide to withdraw this Prospectus and the Entitlement Offer, in which case, the Company will return all Application Monies (without interest) in accordance with the Corporations Act.

### **3.15 Restrictions on the distribution of the Prospectus**

The Offer does not and is not intended to constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

The Offer is not being extended, and Securities will not be issued to investors with a registered address that is outside Australia or New Zealand.

Residents outside of Australia and New Zealand should consult their professional advisers as to whether any government or other consents are required, or whether any formalities need to be observed, should they wish to make an application to take up Shares based on this Prospectus. The return of a duly completed Application Form will be taken to constitute a representation and warranty that there has been no breach of such laws and that all approvals and consents have been obtained.

#### ***New Zealand***

The Entitlement Offer to New Zealand investors is a regulated offer made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

The Entitlement Offer and the content of the Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and the regulations made under that Act set out how the Entitlement Offer must be made.

There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes differs under the Australian regime.

The rights, remedies and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to the Entitlement Offer. If you need to make a complaint about the Entitlement Offer, please contact the Financial Markets Authority, New Zealand (<http://www.fma.govt.nz>). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The Entitlement Offer may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amount in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in those markets, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

### **3.16 Taxation Implications**

The Directors do not consider it appropriate to give investors advice regarding the taxation consequences of subscribing for New Securities under this Prospectus (nor of exercising any New Options into Shares).

The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to investors. Investors should consult their own professional tax adviser to obtain advice on the taxation laws, regulations, and implications applicable to their personal circumstances.

### **3.17 Privacy**

The Company collects information about each Applicant provided on an Application Form for the purposes of processing the Application and, if the Application is successful, to administer the Applicant's security holding in the Company.

By submitting an Application Form, each Applicant agrees that the Company may use the information provided by an Applicant on the Application Form for the purposes detailed in this privacy disclosure statement and may disclose it for those purposes to the Share Registry, the Company's related bodies corporate, agents and third party service providers, including mailing houses and professional advisers, and to ASX and regulatory authorities.

If you do not provide the information required on Application Form, the Company may not accept or process your Application.

## **4 PURPOSE AND EFFECT OF THE ENTITLEMENT OFFER**

---

### **4.1 Purpose of the Entitlement Offer**

The purpose of the Entitlement Offer is to provide Eligible Shareholders with an opportunity to increase their investment in the Company on the same terms as those offered to investors under the Placement, which is being undertaken to raise \$750,000. The Board considers it important that existing shareholders are given the ability to participate on an equitable basis and to avoid any potential dilution that may result from the issue of Shares under the Placement.

## 4.2 Use of funds

The aggregate funds raised from the Entitlement Offer are intended to be applied towards general working capital requirements and to meet the costs associated with conducting the Entitlement Offer.

The statement above reflects the Board's current intentions as at the date of this Prospectus. However, Shareholders should note that, as with any budget, the allocation of funds may change depending on a number of factors, including the outcome of operational and development activities, regulatory developments, market and general economic conditions and environmental factors. In light of this, the Board reserves the right to alter the way the funds are applied.

No funds will be raised from the issue of the New Options or the Broker Options pursuant to this Prospectus, as they are issued as either free attaching or for nil consideration (as the case may be).

The Company will receive \$0.042 for each New Option or Broker Option exercised. If all New Options and Broker Options are issued and exercised, the Company will receive approximately \$1,090,041 (before costs). There is no certainty that any of the Options will be exercised.

## 4.3 Effect of the Offer

The principal effect of the Entitlement Offer, assuming the Company issues the maximum number of Securities, will be to:

- (a) increase the cash reserves by \$247,668 (before deducting the estimated expenses of the Entitlement Offer) immediately after completion of the Entitlement Offer;
- (b) increase the number of Shares on issue from 217,948,138 to 257,854,872 following completion of the Placement, Entitlement Offer and Shortfall Offer; and
- (c) increase the number of Options and Performance Rights on issue from 53,274,071 to 79,227,438 following completion of the Placement, Entitlement Offer, Shortfall Offer and Broker Offer.

If an amount less than \$247,668 is raised from the Entitlement Offer, the Board is satisfied that the Company will have sufficient working capital to fund the objectives of the Company.

## 5 RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

The following is a summary of the more significant rights and liabilities attaching to the New Options and New Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Securityholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

## **5.1 Rights and liabilities attaching to Shares**

### **(a) General Meetings**

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

### **(b) Voting Rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or be proxy, attorney or representative;
- (ii) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (iii) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

### **(c) Dividend rights**

Subject to the Corporations Act and the Company's Constitution, the Directors may pay interim, special or final dividends as, in their judgment, the financial position of the Company justifies.

The Directors may capitalise any profits of the Company and distribute that capital to the Shareholders, in the same proportions as the Shareholders are entitled to a distribution by dividend.

### **(d) Winding-up**

If the Company is wound up, the liquidator may with the sanction of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company and may for that purpose set such value as the liquidator considers fair on any property to be so divided and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

### **(e) Shareholder liability**

As the New Shares issued will be fully paid shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

### **(f) Transfer of shares**

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or a failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Variation of rights**

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders, vary or abrogate the rights attaching to shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of 75% of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

(h) **Alteration of constitution**

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least 75% of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

## 5.2 Terms and conditions of the Options

The following are the terms of the New Options being offered pursuant to this Prospectus. For the purposes of sections 5.2 and 5.3, references to “Options” means New Options, Shortfall Options and Broker Options, as the case may be, unless the context requires otherwise.

(a) **Entitlement**

Each Option entitles the holder to subscribe for one Share upon exercise of the Option.

(b) **Subscription price**

The Options will be issued for nil consideration.

(c) **Exercise Price**

The amount payable upon exercise of each Option will be \$0.042 (**Exercise Price**).

(d) **Expiry Date**

Each Option will expire at 5:00 pm (AEDT) on 22 December 2027 (**Expiry Date**), being two years from the date of issue. An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(e) **Exercise Period**

The Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(f) **Notice of Exercise**

The Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified by the Company (**Notice of Exercise**) and payment of

the Exercise Price for each Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(g) **Exercise Restrictions**

The number of Options that may be exercised at one time must be not less than 10,000, unless the holder of the Options (**Option Holder**) holds less than 10,000 Options in which case all Options must be exercised at one time.

(h) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each Option being exercised in cleared funds (**Exercise Date**).

(i) **Timing of issue of Shares on exercise**

Within 5 Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if admitted to the official list of ASX at the time, apply for Official Quotation on ASX of Shares issued pursuant to the exercise of the Options.

(j) **Shares issued on exercise**

Shares issued on exercise of the Options rank equally with the then issued Shares of the Company.

(k) **Reconstruction of capital**

In the event of any reorganisation (including consolidation, subdivision, reduction or return) of the issued capital of the Company:

- (i) the number of Options, the Exercise Price of the Options, or both will be reorganised (as appropriate) in a manner consistent with the Listing Rules as applicable at the time of reorganisation, but with the intention that such reorganisation will not result in any benefits being conferred on the Option holders are not conferred on Shareholders; and
- (ii) subject to the provisions with respect to rounding of entitlements as sanctioned by a meeting of Shareholders approving a reorganisation of capital, in all other respects the terms for the exercise of the Options will remain unchanged.

(l) **Pro Rata Issue**

If there is a pro rata issue (except a bonus issue), the Exercise Price of an Option may be reduced according to the following formula:

$$O_n = \frac{O - E [P - (S + D)]}{N + 1}$$

Where:

O<sub>n</sub> = the new exercise price of the Option;

O = the old exercise price of the Option;

E = the number of underlying securities into which one Option is exercisable;

P = the volume weighted average market price per security of the underlying securities during the 5 trading days ending on the day before the ex-right date or the ex-entitlements date;

S = the subscription price for a security under the pro rata issue;

D = dividend due but not yet paid on the existing underlying securities (except those to be issued under the pro rata issue);

N = the number of securities with rights or entitlements that must be held to receive a right to one new security.

(m) **Participation in new issues**

There are no participation rights or entitlements inherent in the Options, and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options without exercising the Options.

(n) **Dividends**

Option Holders do not participate in any dividends unless the Options are exercised and the resultant Shares of the Company are issued before the record date to determine entitlements to the dividend.

(o) **Bonus Issue**

If there is a bonus issue to the Shareholders of the Company, the number of Shares over which the Option is exercisable may be increased by the number of Shares which the Option Holder would have received if the Option had been exercised before the record date for the bonus issue.

(p) **Change of Option Terms**

The terms of the Options shall only be changed if the Shareholders (whose votes are not to be disregarded) of the Company approve of such a change. However, unless all necessary waivers of the Listing Rules are obtained, the terms of the Options shall not be changed to reduce the Exercise Price, increase the number of Options or change any period for the exercise of the Options.

(q) **Transferability**

The Options are transferable.

### 5.3 General

The Entitlement Offer and any application concerning the issue of Options under this Prospectus shall be governed and construed in accordance with the laws of the State of Victoria.

## **6 RISK FACTORS**

---

### **6.1 Introduction**

The Securities offered under this Prospectus should be considered speculative. There are risks and uncertainties, both specific to the Company and of a general nature, which may affect the future operating, financial performance, financial position or prospects of the Company and the value of the Securities. Many of the circumstances giving rise to these risks are beyond the control of the Company, its Directors and management and cannot be mitigated.

This Section describes certain specific areas that the Company believes to be the key risks associated with an investment in the Company. Investors should specifically consider the factors contained in this Section in light of their own investment objectives and financial circumstances, and should consider seeking professional advice from their accountant, stockbroker, lawyer or other professional advisors before deciding whether to invest in the Company. None of the Securities carries any guarantee with respect to the payment of dividends, the return of capital or the market value of those Securities.

Prospective investors should note that this Section is not an exhaustive list of the risks associated with an investment in the Company, and it should be considered in conjunction with other information disclosed in this Prospectus. Additional risks and uncertainties that the Company is unaware of, or that it currently does not consider to be material, may also become important factors that may have an adverse effect on the Company's future financial performance, financial position and prospects.

There can be no guarantee that the Company will achieve its stated objectives or that forward-looking statements will be realised.

### **6.2 Specific risks relating to the Company and its operations**

#### **(a) Future capital requirements**

At the date of this Prospectus, the Company has no income-producing assets and will generate losses in the foreseeable future.

There is no guarantee that the Company will be able to raise the additional funds either at all or on commercial terms and conditions or on conditions that do not result in material dilution of the interests of the then existing Shareholders. If the Company is unable to raise adequate funds, it may need to suspend or terminate its operations and may not be able to continue as a going concern.

### **6.3 Specific risks related to the industry**

#### **(a) Reliance on key personnel**

The Company's future depends, in part, on its ability to attract and retain key personnel. The Company's future also depends on the continued contributions of its executive management team and other key management and technical personnel, the loss of whose services would be difficult to replace. In addition, any inability of the Company to attract appropriately qualified personnel could have a material adverse effect on the Company's business.

#### **(b) Clinical Trials may not succeed**

The Company's ability to generate revenue and income will depend on the success of its clinical trials, and there is no guarantee that any future clinical trials will demonstrate that the Company's products are successful or appropriate for commercialisation.

The development of pharmaceuticals involves significant uncertainty, and failure may occur at any stage during development and after marketing approvals have been received, due to safety or clinical efficacy issues. Drug development at the clinical stage involves moving drug candidates through distinct trial phases (generally, I, II and III) with the aim to elucidate the safety and efficacy of a drug candidate before an application for marketing authorisation can be filed with the health authorities. Each individual development step is associated with the risk of failure, hence an early-stage drug candidate carries a considerably higher risk of failure than a later stage candidate.

(c) **Regulatory approvals**

The Company will need approvals from the FDA to market products in the US and from the EMA to market in Europe as well as equivalent regulatory authorities in other foreign jurisdictions to commercialise in those regions. There is no assurance that the Company will receive the regulatory approvals necessary to commercialise any products that are successfully trialled by the Company.

(d) **Acceptable pricing**

In most markets, drug prices and reimbursement levels are regulated or influenced by government authorities and other healthcare providers. Further, overall healthcare costs to society have increased considerably, leading to greater government regulation. If the Company's products receive product approval, there can be no guarantee that the Company's drugs will achieve the selling prices or reimbursement levels targeted by the Company.

(e) **The Company may need to raise additional capital**

It is unlikely that the proceeds from the Entitlement Offer will be sufficient for the Company to achieve its first revenue for a product. Accordingly, the Company may need to raise future capital through equity or debt financings or from other sources, such as co-development arrangements, strategic alliances or development grants. If the Company is unable to generate adequate funds from its operations or from additional sources, and requires additional capital that it is unable to raise on commercially acceptable terms, then its business and financial condition may be materially and adversely affected.

(f) **Dependence on commercial partnering**

The Company will need to enter into one or more commercial partnering agreements to launch the marketing and sales of any successful products. These agreements may require the Company or its partners to undertake or fund certain R&D activities, make payments on achievement of certain milestones and pay royalties or make profit-sharing payments if a product is sold. As such, these agreements will be important to the Company's ability to derive revenue and the timing of those revenues in respect of any product that may receive marketing authorisation.

(g) **Changes to regulatory landscape**

Pharmaceutical drug development is subject to laws, regulatory restrictions and certain government directives, recommendations and guidelines relating to, amongst other things, occupational health and safety, laboratory practice, use and handling of

hazardous materials, prevention of illness and injury and environmental protection. Any changes to such laws, policies and regulations may increase the cost of compliance in the future.

(h) **Product Liability**

The targeted future development and sale of the Company's products will involve a risk of product liability claims being brought against the Company. This is inherent in the research and development, manufacturing, commercialisation and use of the Company's intended future products. Adverse events could expose the Company to product liability claims or litigation, leading to the withdrawal of regulatory approval for the relevant products and/or monetary damages being awarded against the Company.

(i) **Insurance Risk**

The Company intends to obtain insurance where it is considered appropriate for its needs. However, the Company would not expect to be insured against all risks, either if appropriate cover is not available or because the Directors consider the required premiums to be excessive having regard to the benefits that would accrue. Accordingly, the Company may not be fully insured against all losses and liabilities that could unintentionally arise from its operations. If the Company incurs losses or liabilities for which it is uninsured, the value of the Company's assets may be at risk.

#### 6.4 **General risks**

(a) **Stock market fluctuations and economic conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook in both Australia and internationally;
- (ii) introduction of tax reform or other new legislation, regulation, or policy;
- (iii) changes in exchange rates, interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sections;
- (v) the demand for, and supply of, capital; and
- (vi) the global security situation and the possibility of terrorist disturbances or other hostilities.

Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(b) **Legal proceedings**

Legal proceedings may arise from time to time in the course of the business of the Company. Legal proceedings brought by third parties including but not limited to customers, business partners or employees could negatively impact the business in the case where the impact of such litigation is greater than or outside the scope of the Company's insurance.

(c) **Tax**

The acquisition and disposal of Securities will have tax consequences, which will differ depending on each investor's individual financial affairs. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Securities from a taxation viewpoint.

(d) **Wars, terrorism, political and environmental events**

Events may occur within or outside Australia that could impact upon the world economy, commodity prices, the operations of the Company and the price of the Securities. These events include war, acts of terrorism, civil disturbance, political intervention and natural events such as earthquakes, cyclones, floods, landslides, fires and poor weather affecting roadways, mining and processing of minerals. The Company has only a limited ability to insure against some of these risks.

(e) **Speculative investment**

Potential investors should consider an investment in the Company as speculative and should consult their professional advisers before deciding whether to apply for the Securities under this Prospectus.

The risks set out in this Section 6 are not to be taken as an exhaustive list of the risks faced by the Company. There may be other risks of which the Directors are unaware at the time of issuing this Prospectus which may impact on the Company and its operations, and on the valuation and performance of the Company's Securities.

### **Remuneration**

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director.

A Director may be paid fees or other amounts (i.e. non-cash performance incentives such as Options, subject to any necessary Shareholder approval) as the other Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director.
