

Minerals 260

ASX: MI6

4.5Moz Bullabulling Gold Project

One of the leading
gold projects in
Australia

Luke McFadyen, CEO and Managing Director

December 2025

Minerals 260 is aiming to become a significant gold producer through the development of the 4.5Moz Bullabulling Gold Project

Corporate

- Acquired the Bullabulling Gold Project in April 2025 for AUD\$166.5M.
- Five substantial (>5%) shareholders.

Development

- Leveraging significant historical work.
- Targeting first production in 2028.

Leadership

- Chaired by Tim Goyder, ~50-year mining industry career, and substantial shareholder.
- Directors and Executives have a successful track record of value creation for shareholders.

Exploration

- Drilling to continue to target mineralisation at depth and along strike
- MRE update planned in CY2026.

Mineral Resource

- 130Mt @ 1.0g/t for 4.5Moz. Open pitable.
- Located on granted Mining Leases.

Catalysts

- Ongoing exploration results.
- PFS outcomes and Maiden Ore Reserve in mid-2026.

Minerals 260 (ASX: MI6) Corporate Overview

Corporate Structure¹

Shares on Issue	2,150M
Unlisted Options & Performance Rights	~53M
Share Price	34c
Market Capitalisation	~\$730M
Cash (end Sep 2025)	A\$43M
Debt	Nil

Substantial Shareholders²

Samuel Terry	7.4%
Tim Goyder, Chairman	7.3%
Franklin Templeton	5.8%
BlackRock	5.4%
REST Superannuation	5.0%
Top 20	~65%

Shareholder Profile

■ Institutions ■ Retail ■ Board & Management

Broker Research

¹ Share Price and Market Capitalisation as of 27 Nov 2025. ² Substantial shareholder information is based on the most recent substantial shareholder notice provided to the Company.

Drilling and an accelerated study phase will continue to de-risk and unlock value at Bullabulling

Indicative Development Plan¹

Historical Work

Accelerated drilling, study and permitting phases enabled by significant work already done, including:

- 1 ~530,000m from ~12,000 drill holes
- 2 Significant metallurgical testing
- 3 Previous feasibility studies
- 4 Native Title Land Use Agreement
- 5 Mineral Resources contained within granted mining leases

¹ Timing shown in the table is indicative only and may vary depending on drilling results, exploration and study outcomes, and financing.

Minerals 260 is led by an experienced and proven team

Board of Directors

Tim Goyder

Non-Executive Chairman

Chairman and major shareholder of Liontown Resources and DevEx Resources. Former Chairman and still major shareholder of Chalice Mining.

Luke McFadyen

CEO & Managing Director

Former Head of Strategy at OZ Minerals and previous Finance, Commercial and Strategy roles at South32, BHP, Syrah Resources.

David Richards

Non-Executive Director

Former MD of Minerals 260 and Liontown Resources. Discovered the Kathleen Valley and Buldania lithium deposits, and the Vera-Nancy gold deposit.

Emma Scotney

Non-Executive Director

Non-Executive Director of Santana Minerals and a Director of a private commercial cropping enterprise. Former NED of DeGrey Mining.

Stacey Apostolou

Non-Executive Director

Extensive experience in finance and commercial roles in the resources sector. Currently GM Corporate at DevEx Resources and NED at Lachlan Star.

Executives & Technical Advisors

Russell Brooks

Chief Development Officer

Experience in mining operations, project development and commercial management. Previous roles at BHP, OZ Minerals and IGO.

Jack Dermody

Chief Operating Officer

20+ years in operations and projects at Newcrest, OZ Minerals and BHP. Previously General Manager at Carrapateena (OZL/BHP) and Mining Operations Manager at Cadia (Newmont).

Matthew Blake

Exploration Manager

Experience across Australia and Africa in gold, iron ore and lithium. Roles at Liontown, Liatam, Alita Resources, Cape Lambert and Sinosteel.

Bruce Kendall

Advisor – Geology

30 years' experience and played key roles in the discovery of Tropicana Gold Mine, Julimar PGE-Ni and Coyote Gold deposits.

Jamie Armes

CFO and Company Secretary

Finance and governance executive, has served as Company Secretary, CFO and Financial Controller for several ASX-listed companies.

Located in the heart of the Eastern Goldfields, Western Australia

Bullabulling Gold Project Location

65km from Kalgoorlie, the Gold Capital of Australia

Proximate to power, roads, water and skilled labor

One of the best jurisdictions globally for mining investment¹

WA has 134 operating mines, 49 are gold mines that produce ~70% of Australia's gold production

¹ Fraser Institute Annual Survey of Mining Companies 2023;

4.5 Moz Bullabulling Gold Project is one of Australia's leading gold projects

Bullabulling Gold Project

Project Summary

Tier 1 jurisdiction	<ul style="list-style-type: none"> 65km from Kalgoorlie, the gold capital of Australia. 587sq km tenement package. Mineral Resources situated within granted mining leases. Native Title Land Use Agreement.
Mineral Resource & Exploration	<ul style="list-style-type: none"> Mineral Resource estimate of 130Mt @ 1.0g/t for 4.5Moz. Numerous highly prospective targets at depth and along entire 8.5km strike. Free milling and conventional carbon-in-leach processing. 92% assumption in MRE. Regional exploration potential.
Infrastructure advantage	<ul style="list-style-type: none"> Great Eastern Highway to the Project gate. Roads on tenure are in excellent condition. 45-minute drive from Kalgoorlie airport.
De-risked brownfields asset	<ul style="list-style-type: none"> Previously operational (1994 – 1998) Historical drilling: ~530,000m from ~12,300 drill holes. 110,000m by MI6 in 2025. 2013 / 2014 – Feasibility Study completed and DFS commenced. 2024 – Snowden-Optiro technical review.
Clear pathway to production	<ul style="list-style-type: none"> PFS and Maiden Ore Reserve in mid-2026. Targeting Final Investment Decision in early 2027. Targeting first production in late 2028.

Bullabulling is one of the largest gold projects in Australia

Bullabulling Gold Project Mineral Resource

¹ Bullabulling Mineral Resource Estimate (Snowden Optiro, 1 December 2025). Mineral Resources reported above a cut-off grade of 0.4 g/t Au inside a A\$4,500 pit shell. Numerical differences occur due to rounding to two significant figures to reflect the relative uncertainty of a mineral resource estimate.

Drilling at Bullabulling Gold Project

Intersected some of the highest gram x metres in the history of the project.

Validated the robustness of the MRE.

Extended mineralisation at depth across all deposits.

Delivered a Maiden Resource for Gibraltar; 5.4Mt at 1.0g/t Au for 180koz.

Continuing to intersect mineralisation beneath Phoenix & Bacchus.

Confirmed the continuity of mineralisation between the Bacchus and Kraken deposits.

Regional targets to be drilled in 2026.

Project development benefits from a significant amount of historical work, targeting first production in 2028

People

- CDO and COO appointed.
- Focused on building internal technical expertise for delivery.

Resource

- 4.5Moz MRE, 3.0Moz Indicated Classification.
- ~620,000m of total drilling supporting the MRE.

Water

- Historical bores to be rehabilitated.
- Tenure over major sources.
- Multiple potential sources.

Metallurgy

- Free milling and conventional CIL processing.
- 92% recovery assumption for MRE.

Processing

- Scale to be assessed on the recently updated MRE.

Infrastructure

- Several power options under assessment, including grid, diesel, gas, solar and wind.

Permitting

- Baseline environmental surveys completed.
- Granted mining leases.
- Heritage surveys underway.

Community

- Native Title Land Use Agreement in place.
- Building cooperative and collaborative relationships.

Minerals 260

Minerals 260's (ASX: MI6) value proposition is the significant leverage to the AUD gold price, ongoing exploration results and a near-term production target

- **4.5 Moz Bullabulling Gold Project, one of Australia's leading development gold projects**
- **Ongoing exploration results**
- **Study outcomes and Maiden Ore Reserve in 2026**
- **Final Investment Decision in 2027**
- **Targeting first production in 2028**

Important Notes and Disclaimer

Overview

This presentation contains summary information about Minerals 260 Limited (ACN 650 766 911) (**Company**) and is current as of the cover date. The information in this presentation is of a general background and does not purport to be complete. This presentation is not investment or financial product advice (nor tax, accounting or legal advice) and is not intended to be used for the basis of making an investment decision.

The information contained in this presentation has been prepared without taking into account the objectives, financial situation or needs of individuals. Investors should obtain their own advice before making any investment decision. The Company has prepared this document based on information available to it at the time of preparation. No representation or warranty, express or implied, is made as to the fairness, accuracy or completeness of the information, opinions and conclusions contained in this Presentation.

Forward Looking Statements

This presentation may contain forward-looking statements, guidance, forecasts, estimates, prospects, projections or statements in relation to future matters that may involve risks or uncertainties and may involve significant items of subjective judgement and assumptions of future events that may or may not eventuate (**Forward Statements**). Forward Statements can generally be identified by the use of forward-looking words such as "aiming", "anticipates", "estimates", "will", "should", "could", "currently", "may", "expects", "plans", "forecast", "target" or similar expressions. Forward Statements including references to updating or upgrading mineral resource estimates, future or near-term production and the general prospectivity of the deposits at the Bullabulling Gold Project (**Project**), likelihood of permitting the Project and taking a financial investment decision, among other indications, guidance or outlook on future revenues, distributions or financial position and performance or return or growth in underlying investments are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. In addition, these Forward Statements are based upon certain assumptions and other important factors that, if untrue, could materially affect the future results, performance or achievements expressed or implied by such information or statements. There can be no assurance that such information or statements will prove to be accurate. Key assumptions upon which the Company's forward-looking information is based include, without limitation, assumptions regarding the exploration and development activities, receipt of timely approvals and permits, ability to obtain timely finance on reasonable terms when required in the future and contracting for development, construction and commissioning of any future mining operation on terms favourable to the Company, the current and future social, economic and political conditions and any other assumption generally associated with the mining industry. To the extent that certain statements contained in this presentation may constitute 'Forward Statements' or statements about forward looking matters, then the information reflects the Company's (and no other party's) intent, belief or expectations as at the date of this presentation. No independent third party has reviewed the reasonableness of any such statements or assumptions. None of the Company, its related bodies corporate and their respective officers, directors, employees, advisers, partners, affiliates and agents (together, the **MI6 Parties**) represent or warrant that such Forward Statements will be achieved or will prove to be correct or gives any warranty, express or implied, as to the accuracy, completeness, likelihood of achievement or reasonableness of any Forward Statement contained in this presentation. Forward Statements are not guarantees of future performance and involve known and unknown risk, uncertainties and other factors, many of which are beyond the control of the Company, and their respective officers, employees, agents and advisors, that may cause actual results to differ materially from those expressed or implied in such statements. Except as required by law or regulation, the Company assumes no obligation to release updates or revisions to Forward Statements to reflect any changes. Recipients should form their own views as to these matters and any assumptions on which any of the Forward Statements are based and not place reliance on such statements.

Disclaimer

No party other than the Company has authorised, permitted or caused the issue, submission, dispatch or provision of this presentation, or takes any responsibility for, or makes or purports to make any statement, representation or undertaking in this presentation and there is no statement in this presentation that is based on any statement by any other party. No person, either as a director, partner of or in the employment of the Company has any authority to make, imply, or give any representation or warranty whatsoever in relation to the information contained in this presentation. None of the MI6 Parties take any responsibility for any information in this presentation or any action taken by you on the basis of such information.

To the maximum extent permitted by law, the MI6 Parties, exclude and disclaim all liability, including (without limitation) any liability for fraud or negligence, for any expenses, losses, damages or costs incurred either as a result of the information in this presentation being inaccurate or incomplete in any way for any reason, or otherwise arising in connection with this presentation; and make no representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of information in this presentation.

Competent Person Statement

The information in this presentation that relates to the Mineral Resource Estimate for the Bullabulling Gold Project is extracted from the Minerals 260 Limited ASX announcement titled "**Bullabulling Gold Project Mineral Resource Doubles to 4.5Moz**" dated **1 December 2025**.

The information in this presentation that relates to the Exploration Results and Historical Exploration Results for the Bullabulling Gold Project is extracted from the Minerals 260 Limited ASX announcements titled:

"Bullabulling Gold Project Exploration Strategy" dated 12 May 2025

"Bullabulling Gold Project Drilling Results" dated 4 June 2025

"Bullabulling Gold Project – Drilling Update" dated 7 July 2025

"Bullabulling Gold Project Study Update" dated 17 July 2025

"Gold Identified Along Strike and at Depth at Bullabulling" dated 4 August 2025

"High grade intercepts expand Bullabulling Drill Program" dated 9 September 2025

"High Grade Results to Support Bullabulling Resource Upgrade" dated 7 October 2025

"Bullabulling Test Work Achieves over 95% Gold Recovery" dated 13 October 2025

"Drilling Extends Mineralisation at Depth & Along Strike" dated 5 November 2025

These announcements are available on www.minerals260.com.au.

The Company confirms that it is not aware of any new information or data that materially affects the information included in the previous announcement and that in the case of the Mineral Resource Estimate for the Bullabulling Gold Project, all material assumptions and technical parameters underpinning the estimates in the previous announcement continue to apply and have not materially changed.

Investment and Other Risks

There are a number of risks specific to the Company and of a general nature which may affect the future operating and financial performance of the Company and the value of an investment in the Company, including and not limited to the Company's capital requirements, the potential for shareholders to be diluted, risks associated with the reporting of resources and reserves estimates, budget risks, underwriting risk, development risk and operational risk. An investment in shares is subject to known and unknown risks discussed previously which impact the accuracy of Forward Statements. The Company does not guarantee any particular rate of return or the performance of the Company. Investors should have regard to these risk factors when making their investment decisions.

Currency

All dollar values are in Australian dollars (\$) or A\$) unless otherwise stated.

Authorisation

This presentation has been authorised for release by the Board.

JORC Code differs from reporting requirements in other countries

It is a requirement of the ASX Listing Rules that the reporting of ore reserves and mineral resources in Australia comply with the JORC Code. Investors outside Australia should note that while ore reserve and mineral resource estimates of the Company in this document comply with the JORC Code, they may not comply with the relevant guidelines in other countries and, in particular, do not comply with (i) National Instrument 43 101 (Standards of Disclosure for Mineral Projects) of the Canadian Securities Administrators or (ii) Item 1300 of Regulation S-K, which governs disclosure of mineral reserves in registration statements filed with the US Securities and Exchange Commission. Information contained in this presentation describing mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of other countries. You should not assume that quantities reported as "resources" in this presentation will be converted to reserves under the JORC Code or any other reporting regime or that the Company will be able to legally and economically extract them.
