CHAIRMAN'S LETTER TO SHAREHOLDERS

For the year ended 30 June 2024

Dear Fellow Shareholders,

I am pleased to report to our shareholders on a standout year at Maronan Metals Limited.

As the macro economics continue to improve for our silver-lead and copper-gold project near Cloncurry in North-West Queensland, the team have progressed our goal of turning this world class deposit into a mine.

Maronan is one of the largest undeveloped base and precious metal deposits in Australia starting just 100 metres below surface and I remain confident that our continued strong results will soon be realised by the market.

With completion of over of 17,000 metres diamond drilling, your company reported multiple thick intercepts of high-grade silver with lead mineralisation and declared a maiden Indicated Resource further demonstrating the quality of this large deposit.

This program also helped define early mining potential at the Shallow Starter Zone which when combined with encouraging metallurgical test work on the silver-lead and copper-gold provides further confidence on the economic potential of this project.

In June 2024 we raised \$9M in equity, our first capital raise since listing in 2022, which received strong support by existing shareholders through a Share Purchase Plan and saw new shareholders join the register.

Following this successful capital raise a 7000 to 10000 metre drilling campaign is now well underway to better define the Starter Zone. The team is pulling together a mine development plan and has initiated baseline environmental monitoring and related predevelopment studies to fast track towards the grant of a mining lease. We have a busy year ahead and look forward to providing regular updates as we progress this exciting project towards development.

Furthermore, your company maintains good working relations with the pastoral station landowner, local Mitakooda people and the wider Cloncurry community.

I would like to thank Richard Carlton for his leadership and commitment together with Andrew Barker and Dean Fredericksen for their efforts in progressing this exciting project. Also to thank fellow Board member Rob Rutherford for his invaluable input and knowledge of the deposit

Simon Bird
Chairman

11th day of September 2024

Review of Operations

Maronan Metals Limited (MMA) has had a very successful year with many highlights and several significant steps forward towards turning the Maronan discovery into a Mine.

Key amongst them was our drill success on the Shallow Starter Zone where infill drilling has shown strong continuity of geology, grade and ore thickness between drill holes allowing our experienced technical team to define a maiden Indicated Resource on the silver-lead mineralisation. The closer spaced drilling is beginning to highlight the dimension and steep plunge control on the thickened high-grade silver-lead shoots which should greatly assist future drill positioning.

Importantly, the silver-rich maiden Indicated Resource includes a thickened sulphide zone 20-30 wide within only 100 metres of surface which we expect will significantly enhance the project's economic potential.

More recently drilling has also outlined the strong continuity of high-grade silver at the footwall of the Eastern Horizons including a "Bonanza" 1520g/t silver intercept- the highest-grade silver assay recorded on the Maronan project to date.

Since listing our team has completed over 20,000 metres of diamond drilling within budget and without significant safety or environmental incidents. Early drill holes tested some deep targets which confirmed that both the silver-lead and the copper-gold mineralisation remain open at depth beyond 1,000 metres. With the depth potential validated attention turned to the nearer surface targets which could form the basis for any initial mining operation. A 500 metre long and 600 metre deep 'Shallow Starter Zone' was delineated for step-out exploration and infill resource definition drilling which has been the focus of activities this year.

It is worth noting that drilling surpassed all three of Red Metal Limited's (RDM) performance targets established at the time of the IPO.

From the new drilling our team updated its geological model and undertook a resource review successfully defining a maiden Indicated Resource on the silver-lead mineralisation. This important milestone shows the large Maronan silver-lead resource has the geological continuity needed to successfully transition from an Inferred Resource to a lower-risk Indicated Resource category with further infill drilling – a key first step towards developing this large deposit. Resource modelling also outlined an enlarged Inferred Resource of copper-gold mineralisation and a new gold-only opportunity

The Maronan deposits total resource base is estimated to contain about 118 million ounces of silver, 2 million tonnes of lead, 272,000 tonnes of copper and 0.76 million ounces of gold and is one of the largest undeveloped base and precious metal deposits in Australia.

Additional metallurgical test work has reinforced the high-value proposition of the Maronan ores and provides key data for future optimisation test work. Test work on both the lead-silver ore-types have produced lead concentrates with exceptionally high silver grades ranging from 932 to 1485 g/t underlining their strong revenue potential. Comminution work has shown the silver-lead ore types are easy to grind and can be classified as "Soft to Medium" providing significant processing cost advantages.

Copper metallurgical test work also returned strong recoveries (85-90%) and demonstrated that a saleable product (grading 25-27% copper) can be concentrated from the shallower, mixed mineral ore types potentially making these nearer to surface copper resources available for early development.

Key critical path items required for the grant of a mining lease over Maronan have been initiated this year including baseline environmental monitoring, groundwater monitoring, infrastructure studies and stakeholder engagement. Work continues on a revised mining study using the updated Starter Zone resource and a modified mining schedule.

Across the year several initiatives were undertaken to promote awareness of Maronan and its potential as an investment opportunity. From this our shareholder base was extended from 370 at IPO to 1170 and the market capitalisation rose from \$30M to \$50M. In June this year we completed a successful \$9M fundraising which included an overwhelming \$3.5M from existing shareholders which has enabled a restart of drilling on the Shallow Starter Zone.

The Company is fully funded for the current phase of drilling and project related studies. A summary of key results and activities are outlined below.

Maronan Deposit

Maronan, located just 65 kilometres south of Cloncurry and 90 kilometres north of the giant Cannington silver-lead mine, is one of the larger undeveloped base and precious metal deposits in Australia. This emerging lead-silver and copper-gold deposit is set in the world class Northwest Minerals Province in Queensland which hosts multiple Tier 1 lead-zinc-silver mines including Mount Isa, George Fisher, Century, Cannington, Dugald River, McArthur River and significant copper deposits including Mount Isa, Ernest Henry, Osborne and Eloise (Figure 1).

This year's drill programs successfully intersected many potentially mineable widths of higher-grade silver with lead and copper with gold intercepts that have helped to confirm the resource potential at Maronan and highlight the strong continuity and plunge control of both mineralisation styles. Shallow drill success during this period led to the definition and focused activity on the Shallow Starter Zone which continues to offer the best opportunity for any early potential development.

MANAGING DIRECTOR'S REVIEW OF OPERATIONS

For the year ended 30 June 2024

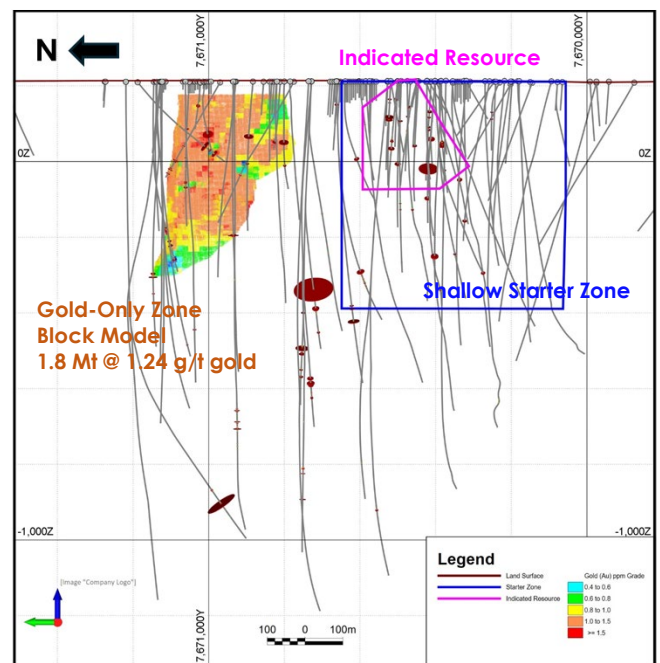

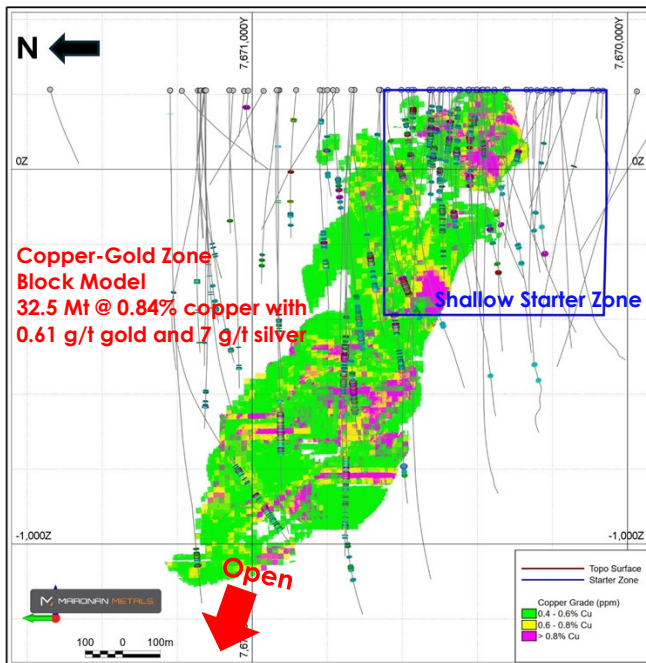

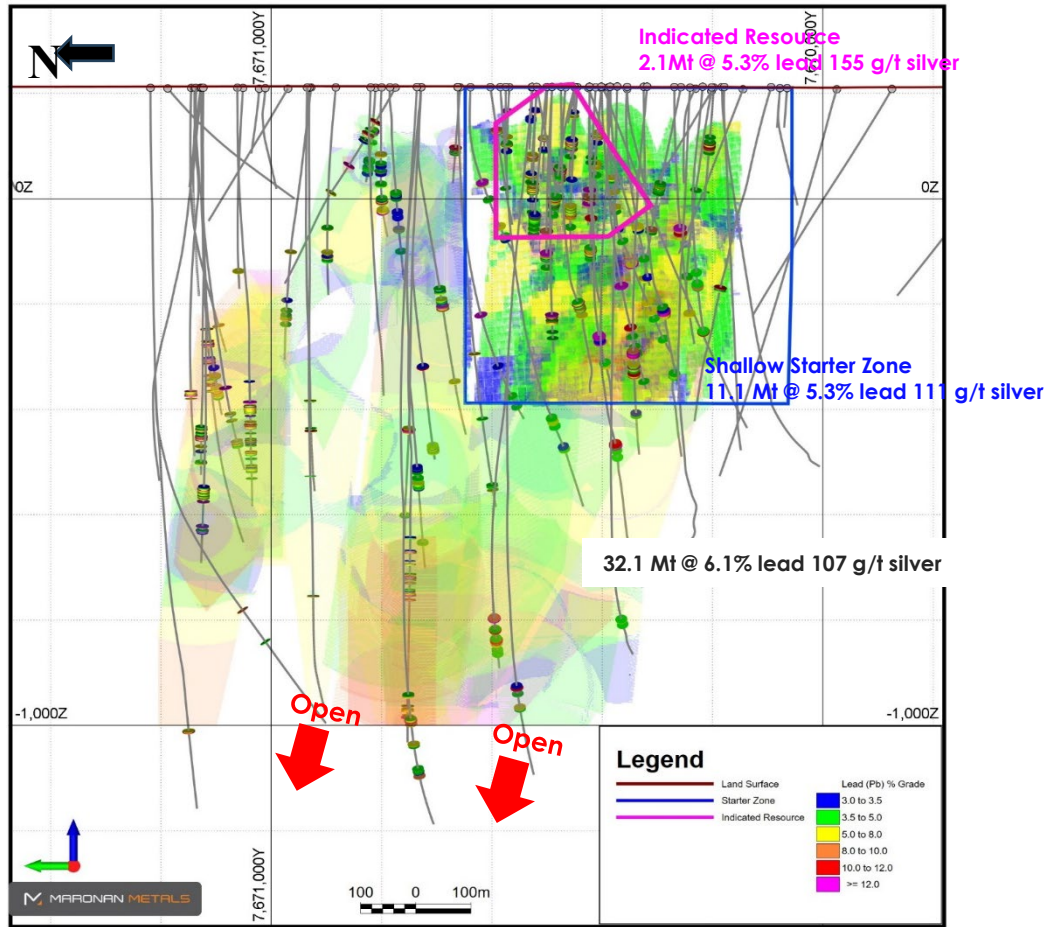

With the continued successful drilling, a resource review and upgrade was undertaken that enabled our first Indicated Resource to be classified within the Shallow Starter Zone. This important milestone shows the large Maronan silver-lead resource has the geological continuity needed to successfully transition from an Inferred Resource to a lower-risk Indicated Resource category with further infill drilling – a key first step towards development of this large deposit. Resource modelling also outlined an enlarged Inferred Resource of copper-gold mineralisation and a new gold-only opportunity (Figure 2).

The Maronan deposits total resource base is estimated to contain about 118 million ounces of silver, 2 million tonnes of lead, 272,000 tonnes of copper and 0.76 million ounces of gold with the large silver-lead and copper-gold resources remaining open at depth. This significant metal endowment is contained within two separate, greater than 30 million tonne, ore bodies defined by JORC 2012 compliant resources of:

- 32.1 Mt @ 6.1% lead with 107 g/t silver (as an Inferred Resource using >3% lead cut-off grade) including
 - 2.1 Mt @ 5.3% lead with 155 g/t silver (as an Indicated Resource using >3% lead cut-off grade),
- 32.5 Mt @ 0.84% copper with 0.61 g/t gold and 7 g/t silver (as an Inferred Resource using >0.4% copper cut-off grade), and
- 1.8 Mt @ 1.24 g/t gold (as an Inferred Resource using >1.0 g/t gold cut-off grade).

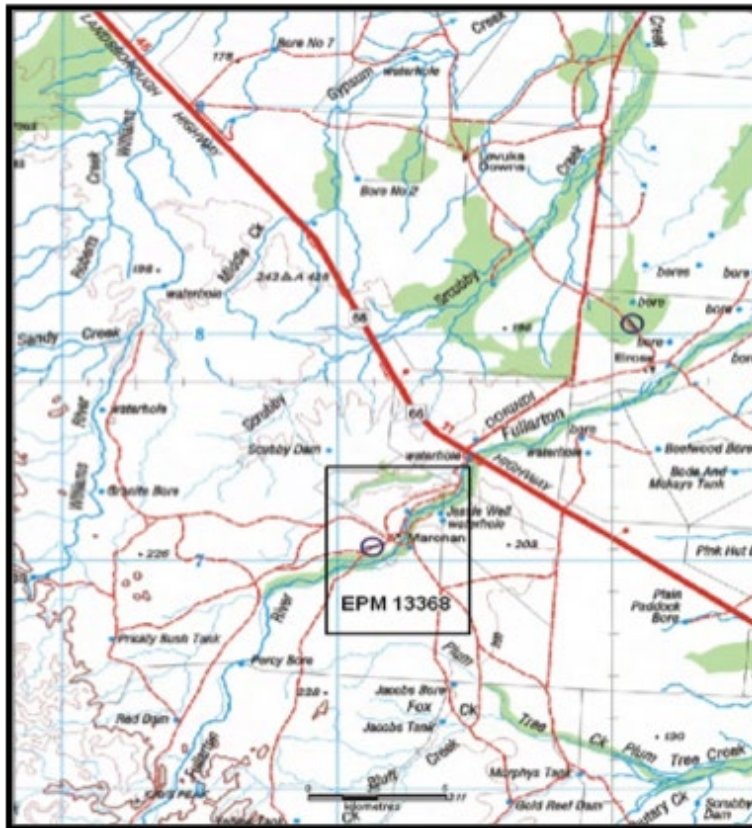

[Figure 1] Northwest Minerals Province – Maronan Location

[Figure 2] Long section view (looking east) showing Lead-Silver Zones (top) coloured by lead grade (%), Copper-Gold Zone (lower left), coloured by the estimated copper grade (%), Gold-Only Zone (lower left), coloured by the estimated gold grade (in ppm). Shallow Starter Zone area (blue rectangle) and Indicated Resource area (magenta polygon). Note the potential for shallow copper-gold resources in the Starter Zone and the steep plunge to copper-gold and folded lead-silver mineralisation that remains open at depth.

List of Tenements

The Company is the 100% owner of Exploration Licence EPM 13368 located in northwest Queensland, approximately 60 kilometres southeast of Cloncurry at Latitude -21°02'S to -21°06'S and Longitude 140°54'N to 140°57'N and is shown in Figure 3.

[Figure 3] Maronan tenement location

Shallow Starter Zone

Assays from several successful step-out and infill holes within the Shallow Starter Zone have firmed up the continuity, grade and thickness of the promising Eastern and Western silver with lead horizons and intervening shallow copper-gold lenses (Figures 5 to 7). The closer spaced drilling is beginning to highlight the dimension and steep plunge control on the thickened high-grade shoots which should greatly assist future drill positioning (Figure 5 and Figure 6).

Importantly, the silver-rich maiden Indicated Resource defined within the Eastern Horizons comes to within only 100 metres of surface which should enhance the project's economic potential. Recent drilling has also outlined the strong continuity of high-grade silver at the footwall to the Eastern Horizons including a "Bonanza" 1520g/t silver intercept - the highest-grade silver assay recorded on the Maronan project to date (Figure 7).

A 7,000 to 10,000 metre diamond drilling program (Figure 4) was initiated in June 2024 following a successful capital raising. This drill program is focused on the near surface Starter Zone with the aim of growing the Indicated silver-lead resource base.

Standout silver with lead assays from the past year's drilling on the Shallow Starter Zone include:

MRN23010

4.20 metres @ 6.6% lead, 327g/t silver, 0.15g/t Au (499g/t Silver Equivalent).

MRN23011

5.10 metres @ 6.9% lead, 121g/t silver (316g/t Silver Equivalent), including
3.0 metres @ 5.6% lead, 147g/t silver (302g/t Silver Equivalent).

MRN23012

4.07 metres @ 7.7% lead, 170g/t silver (386g/t Silver Equivalent) including
1.74 metres @ 14.8% lead, 320g/t silver (735g/t Silver Equivalent)

10.0 metres @ 4.5% lead, 112g/t silver (237g/t Silver Equivalent) including 4.0 metres @ 5.0% lead, 200g/t silver (334g/t Silver Equivalent).

MRN23013

21.15 metres @ 5.0% lead, 195g/t silver (329g/t Silver Equivalent), including 6.15 metres @ 6.9% lead, 517g/t silver (685g/t Silver Equivalent), and 2.0 metres @ 10.4% lead, 851g/t silver (1,099g/t Silver Equivalent).

MRN23014A

20.9 metres @ 4.4% lead, 150g/t silver (270g/t Silver Equivalent), including 6.3 metres @ 5.2% lead, 384g/t silver (511g/t Silver Equivalent).

MRN23015

2.0 metres @ 13.4% lead, 540g/t silver (898g/t Silver Equivalent).

MRN23016

22.8 metres @ 5.8% lead, 138g/t silver (300g/t Silver Equivalent) including 2.08 metres @ 11.7% lead, 563g/t silver (869g/t Silver Equivalent).

MRN23020

18.5 metres @ 5.0% lead, 106g/t silver (246g/t silver equivalent) including 6.7 metres @ 7.5% lead, 147g/t silver (358g/t silver equivalent), and 8.0 metres @ 5.3% lead, 122g/t silver (270g/t silver equivalent).

MRN23021

4.55 metres @ 6.2% lead, 200g/t silver (369g/t Silver Equivalent).

MRN23022 (Western Horizons)

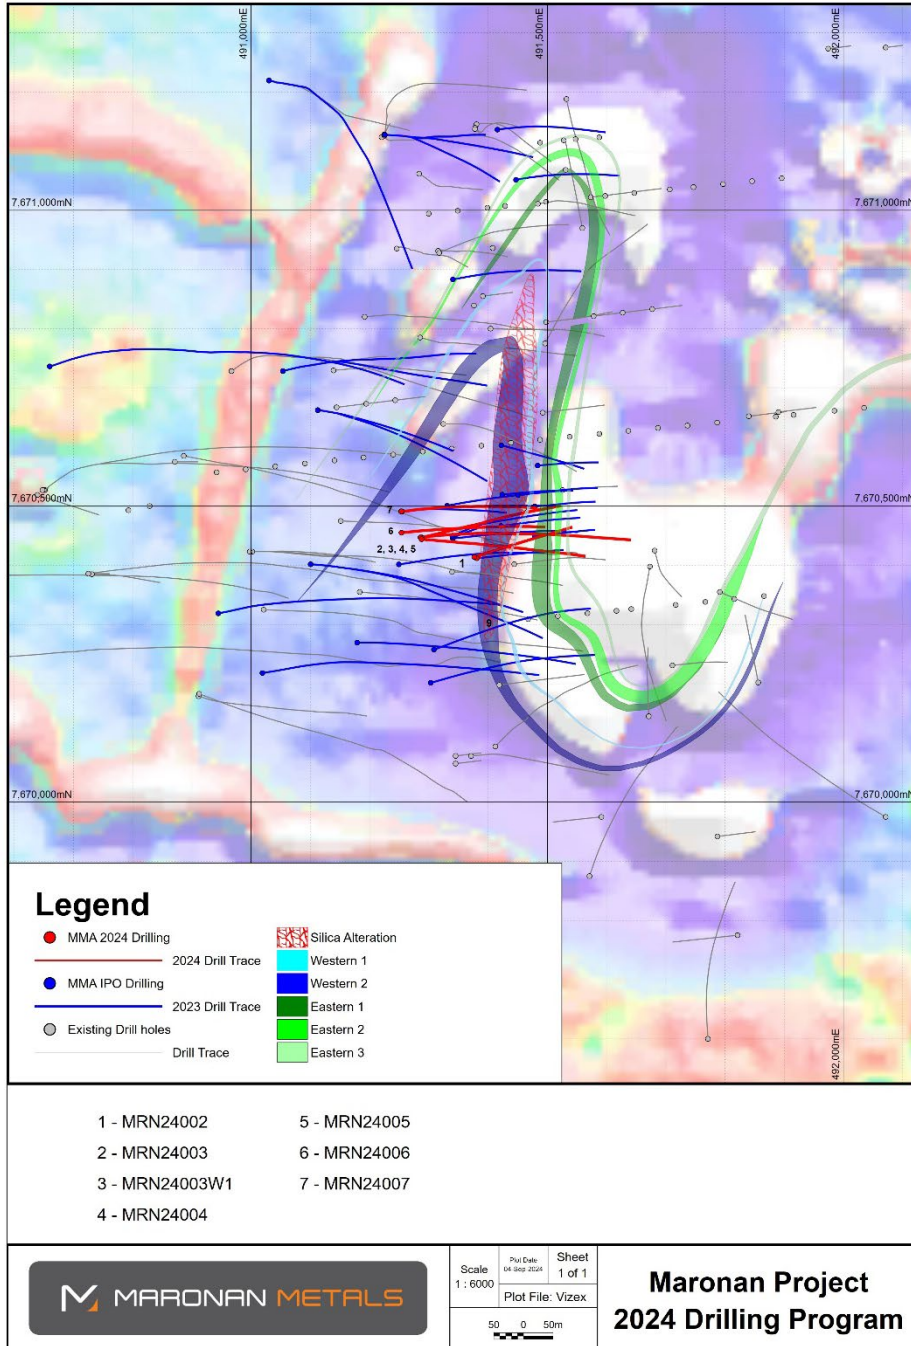

8.4 metres @ 17.1% lead, 112g/t silver (605g/t Silver Equivalent) in MRN23022, including 4.4 metres @ 22.2% lead, 148g/t silver (793g/t Silver Equivalent), and 27.6 metres @ 4.3% lead, 65g/t silver (188g/t Silver Equivalent) in MRN23022, including 5.0 metres @ 7.5% lead, 173g/t silver (383g/t Silver Equivalent).

MRN24002

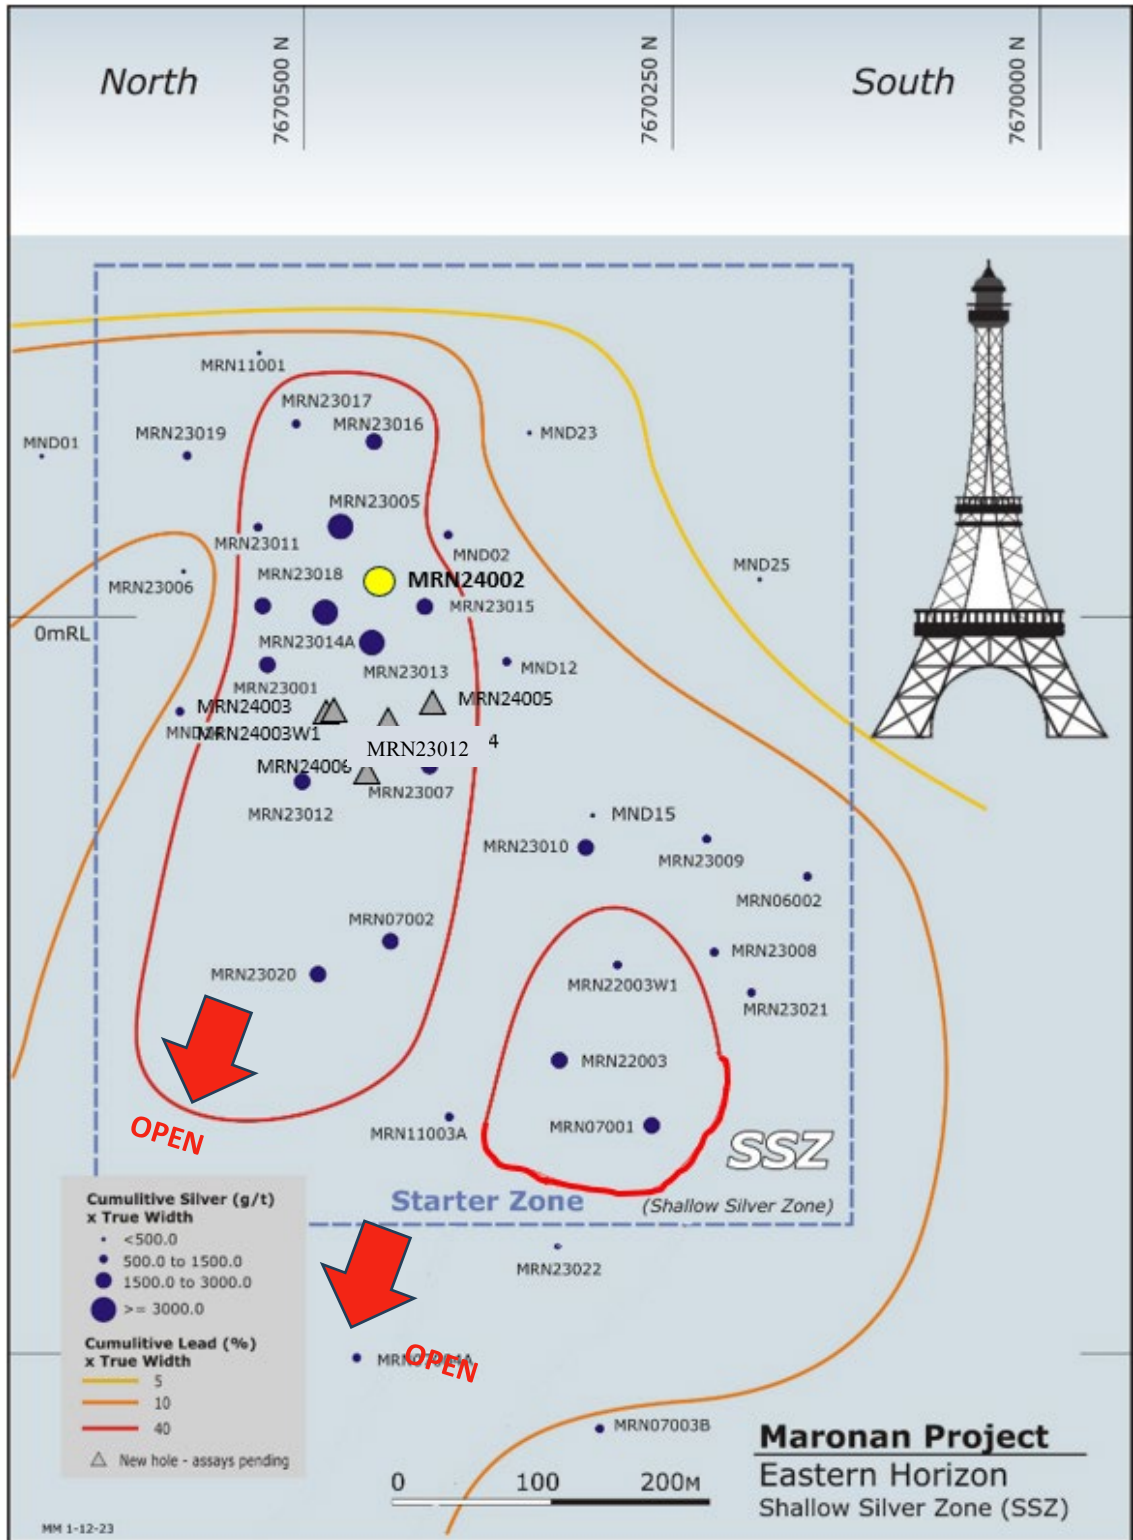

23.32 metres @ 5.0% lead, 175g/t silver (310 g/t Silver Equivalent), including 12.57 metres @ 5.5% lead, 277g/t silver (412g/t Silver Equivalent) including 2.57 metres @ 11.1% lead, 702g/t silver (960g/t Silver equivalent), including 0.71 metres @ 22.1% lead, 1520g/t silver (2021g/t Silver Equivalent).

MANAGING DIRECTOR'S REVIEW OF OPERATIONS

For the year ended 30 June 2024

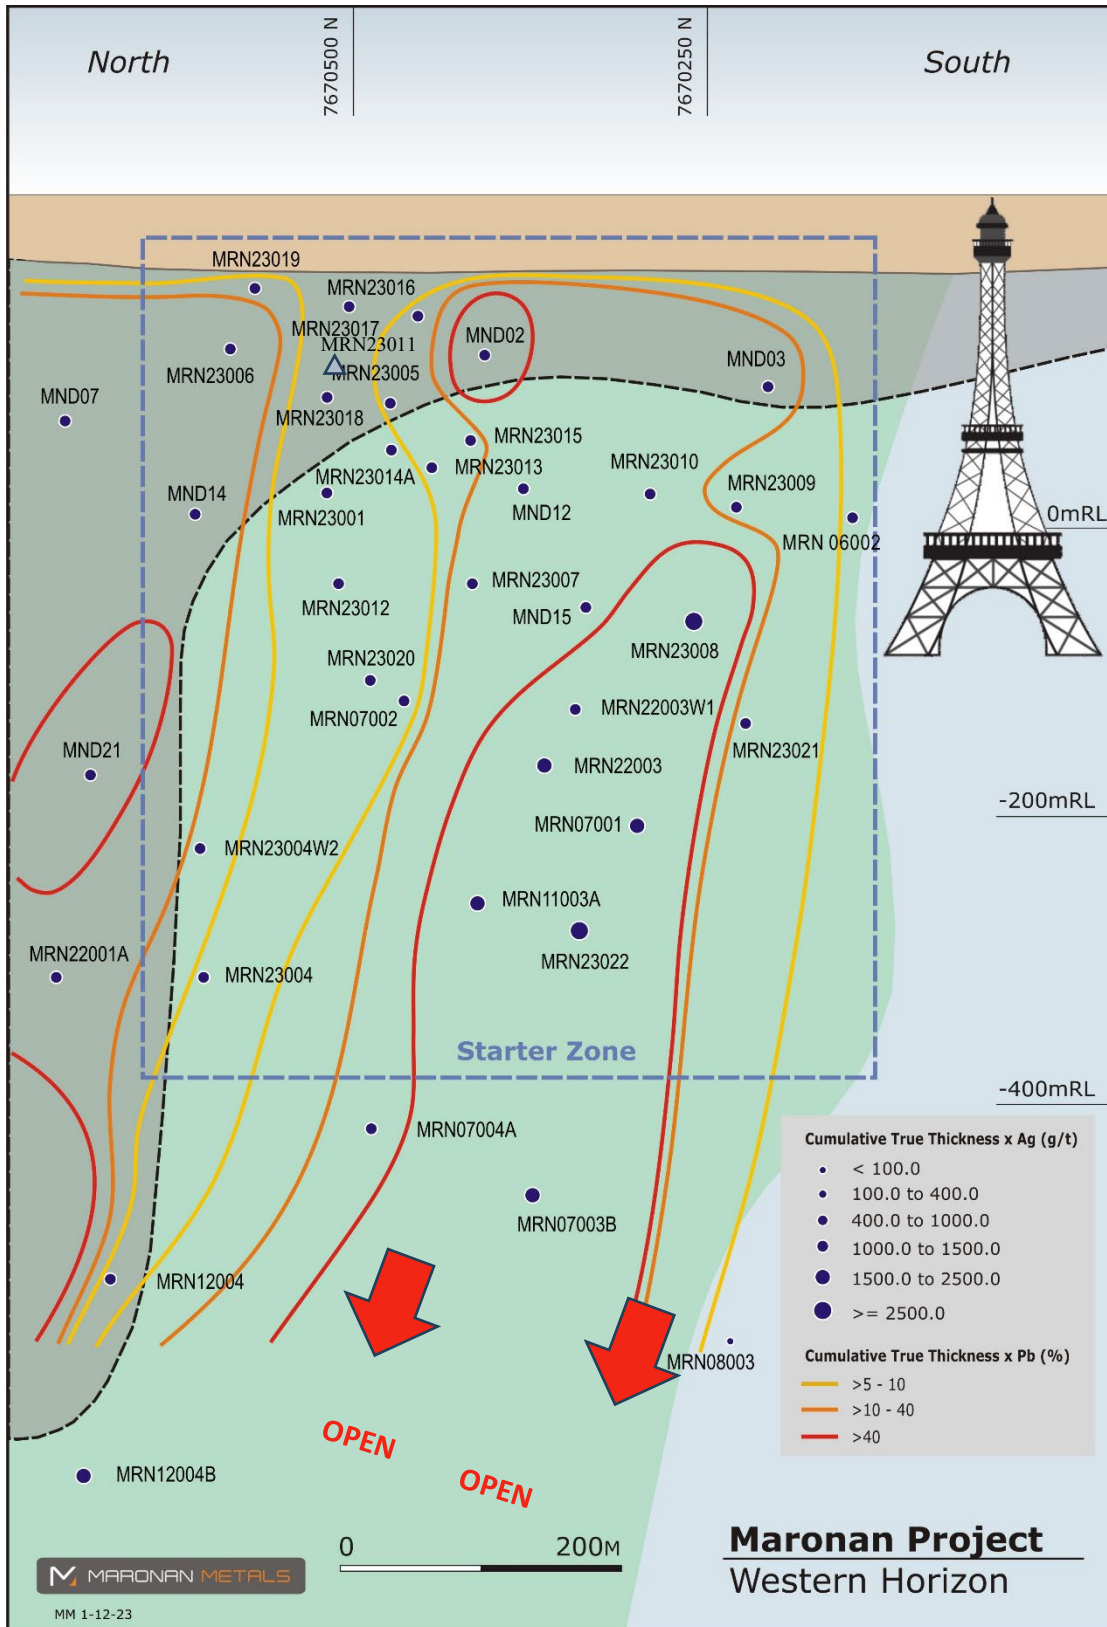

[Figure 4] Plan view of showing 2023 (blue) and 2024 (red) drilling completed and in progress at the Maronan Project with respect to key target horizons at the 0mRL (200m below surface).

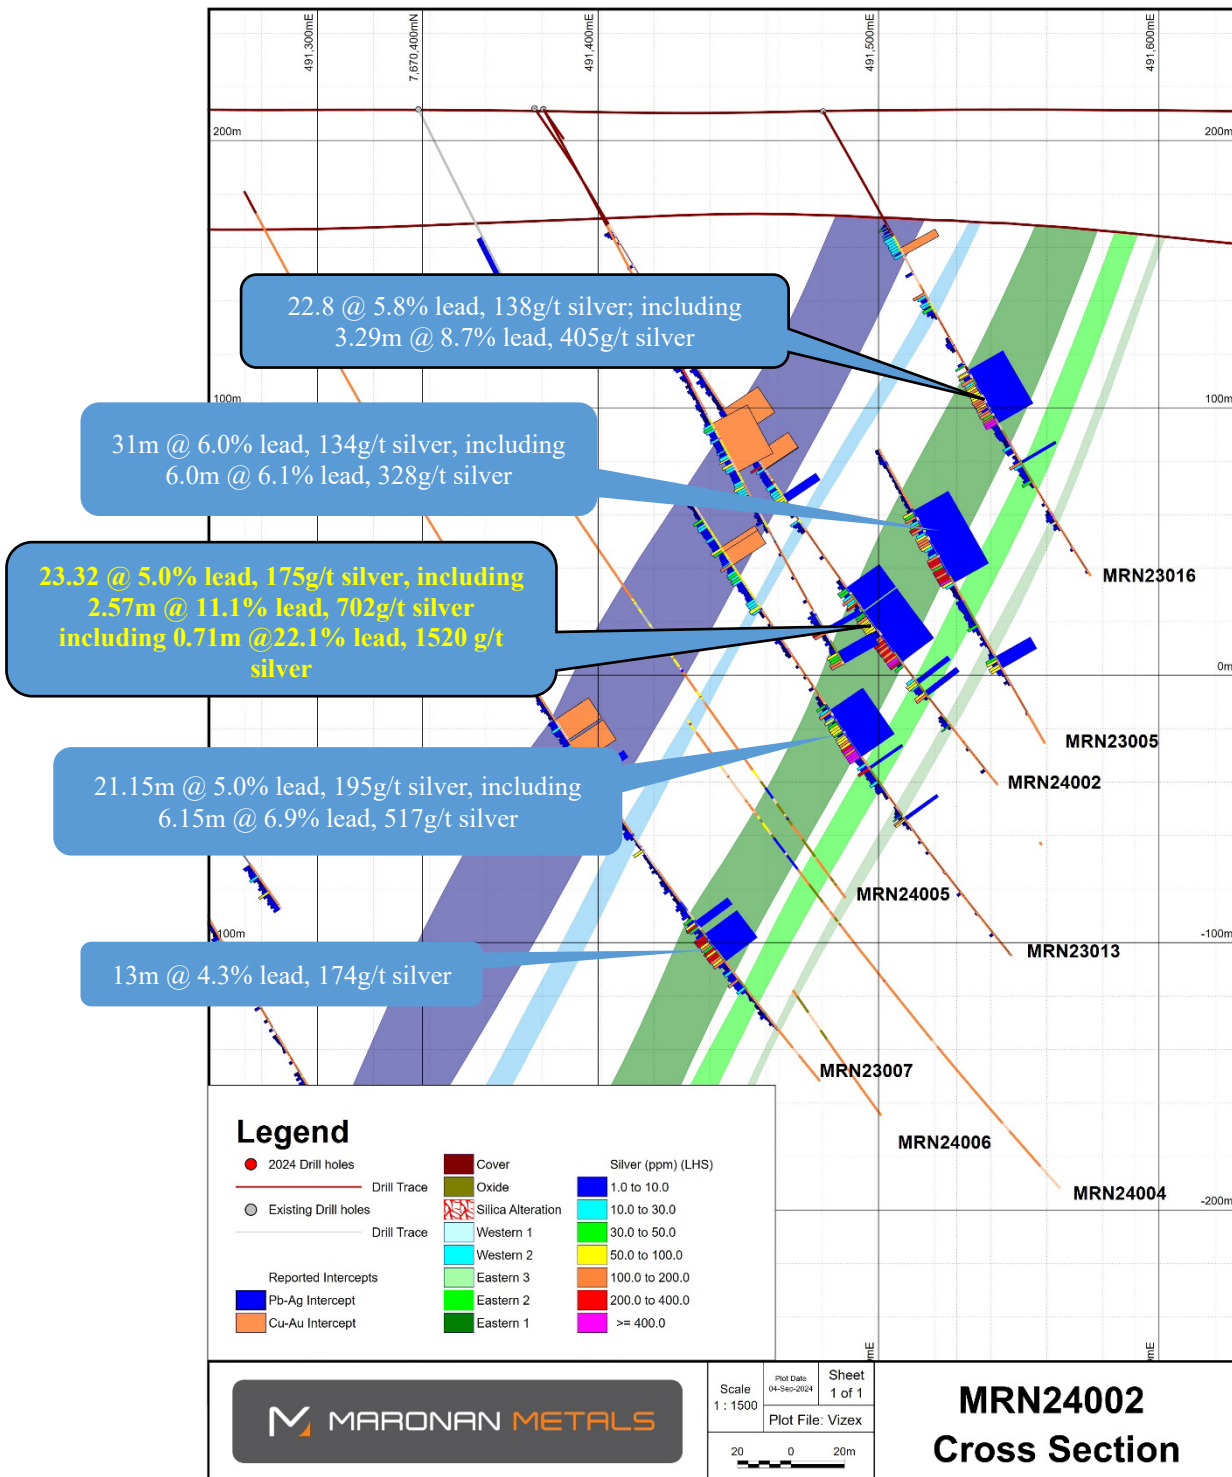

[Figure 5] Starter Zone – Eastern Horizon long section with posted new and historic drill intercepts and pending drill hole locations.

MANAGING DIRECTOR'S REVIEW OF OPERATIONS

For the year ended 30 June 2024

[Figure 6] Western Horizon Long section.

[Figure 7] Working Cross section MRN24002 viewed facing north highlighting continuity of the Eastern Horizons (referred to as the Shallow Silver Zone).

Copper-Gold Zone

A resource up-grade taking into account the wide intercepts of copper-gold mineralisation intersected during last year’s drill campaign expanded the inferred resource highlighting its potential as a bulk mining proposition (Figure 8).

This year’s drilling, centred on the Shallow Starter Zone, identified a number of intervening copper-gold lenses which have the potential to be integrated into any future mining scenario. Shallow mixed mineral copper-gold intercepts included:

MANAGING DIRECTOR'S REVIEW OF OPERATIONS

For the year ended 30 June 2024

MRN23020

4.1 metres at 1.02% copper, 0.91g/t gold.

MRN23018

18.8 metres at 0.74% copper, 1.43g/t gold, including
4.0 metres at 2.76% copper, 0.33g/t gold.

VWP-01 (water monitoring bore)

11.0 metres at 0.73% copper, 2.14g/t gold

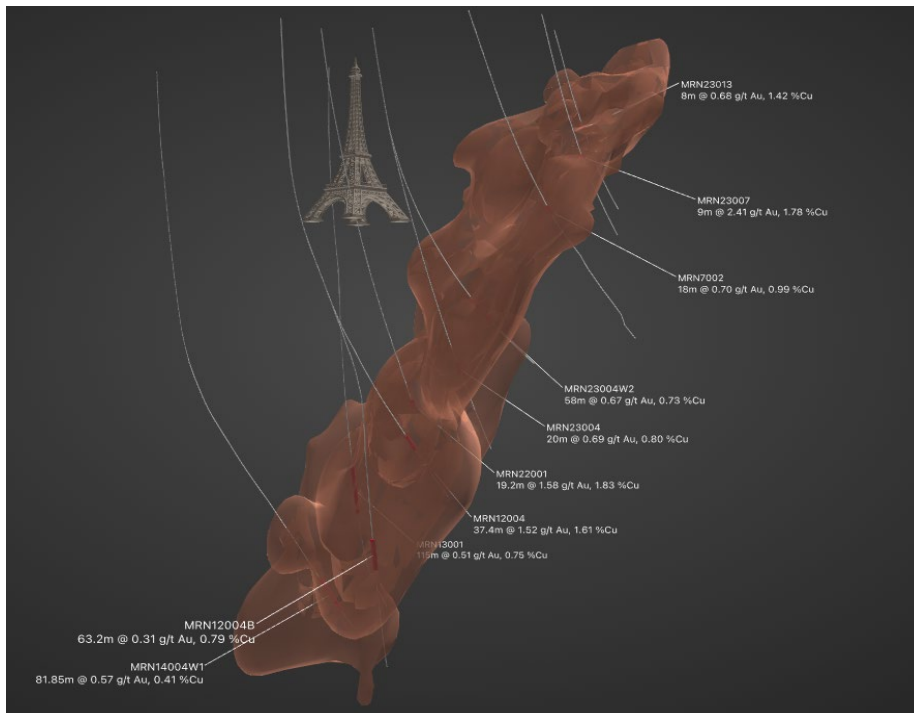

Importantly, copper metallurgical test work on the shallower, mixed mineral ore types returned strong recoveries (85-90%) and demonstrated that a saleable product (grading 25-27% copper) can be concentrated – potentially making the nearer to surface copper resources available for early development.

Geological modelling shows a large copper-gold system has been active at Maronan centred around a substantial silica alteration pipe which extends at least 1300 metres down plunge and remains open at depth (Figure 2 and Figure 8). Scope for wide intervals of the higher grade, copper sulphide dominant mineralisation is speculated at depth and intercepts such as 8 metre at 1.55% copper, 4.4g/t gold in the MRN14004W1, one of the deepest copper holes drilled to date, supports this concept.

Once the potential development status of the Starter Zone is confirmed exploration attention will shift to expansion of the copper and gold resource down-plunge of the known mineralisation.

Gold-Only Zone

Mineralisation in the Gold-Only Zone appears stratabound and localised within magnetite-carbonate facies banded iron formation units at the Northern Fold structure (Figure 2). The mineralised domain has been constrained geologically and at grades above 0.25 g/t gold allowing the estimation of an Inferred Resource. Although not considered a standalone mining opportunity it may have potential for development in parallel with any future base metal mining.

[Figure 8] 3D view of copper mineralisation showing key drillhole intercepts.

Summary Of Mineral Resource Estimates

Reported According to JORC Category for the Maronan Deposit

Category	Cut-off Grade	30 June 2024		Cut-off Grade	30 June 2023	
		Tonnes (Mt)	Grade		Tonnes (Mt)	Grade
Indicated	3% lead	2.1	5.3% Lead, 155 g/t Silver		-	-
Inferred	3% Lead	30.0	6.2% Lead, 104 g/t Silver	3% Lead	30.8	6.5% Lead, 106 g/t Silver
Inferred	0.4% Copper	32.5	0.84% Copper, 0.61 g/t Gold, 7 g/t Silver	1% Copper	11.0	1.6% Copper, 0.8 g/t Gold
Inferred	1 g/t Gold	1.8	1.24 g/t Gold		-	-

Resource drilling is conducted by NQ and HQ diamond drilling. Drill hole positions are surveyed to high accuracy. Drilling is logged in detail for lithology, alteration, structure and mineralisation. Sampling is typically at 1 metre intervals (down to 0.4 metre or up to 1.5m based on geological controls) and samples are analysed at external recognised laboratories. QA/QC procedures are industry standard with certified standards, blanks and duplicate samples inserted into the sample stream. Mineral Resource estimates are prepared and reported by suitably qualified personnel or external consultants (Competent Person) in accordance with the JORC code and other industry standards.

The increase in the Mineral Resources during the reporting period is a result of additional drilling conducted over the 2022-2023 drill campaign. This additional information comprises 16,784 metres of drilling since the program commenced in August 2022.

The above annual mineral resources statement is based on and fairly represents information and supporting documentation prepared by competent persons. The above annual mineral resources statement as a whole has been approved by Mr Robert Rutherford, who is a member of the Australian Institute of Geoscientists (AIG). Mr Rutherford is a Director of the Company. Mr Rutherford has consented to the form and context in which the statement is presented in this report.

Metallurgical Test Work

Metallurgical test work to date reinforces the high-value proposition of the Maronan ores and provides key data for future optimisation test work. It is expected that the processing and mining advantages defined by these positive preliminary metallurgical tests will translate into very industry competitive capital and operating costs.

This year, preliminary test work was undertaken for the first time on a sample of pyroxene-hosted silver-lead mineralisation and three separate samples of lower-grade copper-gold mineralisation including transitional and fresh ore types with mixed sulphide species.

Flotation tests on the pyroxene-hosted silver-lead ore type returned strong lead and silver recoveries and produced lead concentrates with very high silver grades. This result is similar to that achieved for the carbonate-hosted ore type. Importantly, both silver-lead ore-types have produced lead concentrates with exceptionally high silver grades ranging from 932 to 1485 g/t underlining their strong revenue potential.

Comminution work has also shown the silver-lead ore types are easy to grind and can be classified as "Soft to Medium" providing significant processing cost advantages.

The flotation work on the lower-grade, mixed mineral, copper sulphide ore types returned strong recoveries for copper (85-90%) and produced an excellent copper concentrate grading 25-27% copper with variable gold and silver contents. These preliminary results demonstrate a saleable product can be concentrated from the shallower, mixed mineral ore types opening up near to surface copper-gold mineralisation to potential early development.

MANAGING DIRECTOR'S REVIEW OF OPERATIONS

For the year ended 30 June 2024

Mine Model

Work continues on a revised mining study using the updated Starter Zone resource and a modified mining schedule. Up to date capital costs for associated infrastructure and mine development are being sought from reputable underground mining contractors to assist this study.

Advanced Mine Development Studies

Key critical path items required for the grant of a mining lease over Maronan have been initiated including baseline environmental monitoring, infrastructure studies and stakeholder engagement.

Preliminary groundwater and surface water assessments were initiated this year with monitoring commencing late in 2023. Ecological assessments involving reconnaissance and more targeted field surveys were also completed.

Other advanced mine development studies underway include:

- Geotechnical characterisation for underground mine planning and location of key infrastructure,
- Additional metallurgical tests building on the Sighter Test research and development undertaken in 2022/23,
- Preliminary site layout of an underground mine access, a processing facility and associated infrastructure,
- Options for utilities, primarily power and water,
- Product marketing options,
- Permitting related planning including stakeholder engagement.

Drilling Results Announced

The following list of ASX announcements include the assay results referred to in this Report:

20 July 2023	Copper Zone Drilling Update
31 July 2023	Strong Silver with Lead Assays in Shallow Starter Zone
9 August 2023	More High Tenor Silver with Lead in Starter Zone
20 September 2023	Highest Ever Silver Grades at Maronan
8 November 2023	Wide Shallow High-Grade Intercepts at Maronan
8 December 2022	Drilling Intersects Significant Lead-Silver Mineralisation
12 December 2023	Strong Results From The Eastern Horizon Continue
7 August 2024	Strong Assay Results 1520g/t Silver Best at Maronan

Governance and quality control

The Company ensures all resource calculations are undertaken and reviewed by recognised industry consultants.

All drillhole data is stored in house within a commercially available purpose designed database management system and subjected to industry standard validation procedures. Quality control on resource drill programs have been undertaken to industry standards with implementation of appropriate drilling type, survey data collection, assay standards, sample duplicates and repeat analyses.

Competent Persons Statement

The information in this report that relates to 2024 Starter Zone - Silver-Lead Resource Estimate, the 2024 Copper-Gold Resource Estimate and the 2024 Gold-Only Resource Estimate is based on and fairly represents information and supporting documentation compiled by Mr Andrew Barker, who is a member of the Australian Institute of Geoscientists (AIG Membership ID: 6299). Mr Barker is the Exploration Manager for Maronan Metals Limited. Mr Barker has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (the JORC Code). Mr Barker consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this report that relates to 2015 Outside the Starter Zone – Silver-Lead is based on and fairly represents information and supporting documentation compiled by Mr Robert Rutherford, who is a member of the Australian Institute of Geoscientists (AIG). Mr Rutherford is the Non-Executive Technical Director of the Company. Mr Rutherford has sufficient experience which is relevant to

the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves" (the JORC Code). Mr Rutherford consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Richard Carlton
Managing Director

11th day of September 2024

DIRECTORS' REPORT

For the year ended 30 June 2024

Your Directors present their report together with the financial statements of Maronan Metals Limited for the financial year ended 30 June 2024.

Review of Operations

Maronan Metals Limited ("Maronan" or the "Company") holds a 100% interest in the Maronan lead-silver copper-gold project ("Maronan Project"), an emerging large base metal deposit in the world class Carpentaria Province in Northwest Queensland.

In the year ended 30 June 2024, the Company raised additional funds through a strongly supported Share placement. In May, the company issued 23,545,168 fully paid shares at an issue price of \$0.24 per share to sophisticated, institutional and professional investors, raising \$5.65m.

Further shares were successfully issued to eligible shareholders in June. The company received applications for \$3.368 million from eligible shareholders, which was well in excess of the original \$1.5m target raising. 14,033,260 fully paid shares at a price of \$0.24 per share, were subsequently issued. The additional funds will be allocated towards Starter Zone Drilling and accelerating pre-development studies.

The Company's drill program continues to target high-grade copper-gold and silver-lead intervals. More details on the progress of the drilling programme are included in the Managing Director's Review of Operations, on page 3 of this Annual Report.

The loss after income tax for the full year ended 30 June 2024 was \$4,543,321 (2023: \$9,234,158).

The Company's activities are subject to numerous risks, mostly outside the Board's and management's control. These risks can be specific to the Company, generic to the mining industry and generic to the stock market as a whole. The key risks, expressed in summary form, affecting the Company and its future performance include but are not limited to:

- geological, technical and operating risks posed to exploration, development and commercial exploitation success;
- regulatory risks and ability to obtain and comply with all regulatory requirements on an ongoing and timely basis, including obtaining necessary future approvals for mine development;
- security of tenure including licence renewal, ability to obtain landowner consents or approvals and native title issues;
- change in commodity prices and market conditions;
- environmental and occupational health and safety risks;
- social licence to operate, including ability to secure ongoing acceptance and approval of any mining development by local community members and other stakeholders
- government policy changes;
- retention of key staff;
- governance risks including financial reporting and continuous disclosure obligations;
- capital requirement and lack of future funding;
- climate change
- COVID-19 (or similar pandemic)

This is not an exhaustive list of risks faced by the Company or an investment in it. There are other risks generic to the stock market and the world economy as whole and other risks generic to the mining industry, all of which can impact on the Company.

Principal Activity

The principal activity of the Company during the financial year ended 30 June 2024 was the exploration, evaluation and development of silver-lead, copper-gold and other mineral deposits with a view to becoming a miner in the short to medium term. No change in the principal activity occurred during this period.

Likely Developments

It is likely that the Company will continue its drilling program at the Maronan Project in accordance with the program included in its Prospectus lodged with ASX on 27 April 2022.

Environmental Regulations

The Company is subject to significant environmental regulations under legislation of the Commonwealth of Australia and the State of Queensland. The Company aims to ensure that it complies with the identified regulatory requirements in each jurisdiction in which it operates. There have been no known material breaches of the environmental obligations of the Company's contracts or licences.

Dividends

No dividends have been declared in respect of the financial year ended 30 June 2024 (2023: Nil).

Events Subsequent to Reporting Date

On 13 August 2024 the directors resolved to issue 6,200,000 options under the Employee share incentive scheme. The options vested immediately upon issue, have an exercise price of \$0.30 and have a three-year term expiring on 12 August 2027.

The Directors are not aware of any other matter or circumstance not otherwise dealt with in this Annual Report or in the financial statements that has significantly or may significantly affect the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years.

Significant Changes in State of Affairs

Since listing on ASX the Company is undertaking a drilling programme at the Maronan Project in accordance with the programme included in its Prospectus lodged with ASX on 27 April 2022.

Proceedings on Behalf of the Company

No person has applied to the Court for leave to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any of those proceedings. The Company was not a party to any such proceedings during the year.

Options Over Ordinary Shares

Details of options issued over ordinary shares, and performance rights to ordinary shares granted during the year are shown at Note 17 to these financial statements.

A total of 500,000 options were issued on 21 December 2023 to the Company's Exploration Manager in accordance with the terms of the Company's Employee Securities Incentive Plan (ESIP). The 500,000 options vested immediately on issue. These options are exercisable at \$0.28 per option and have an expiry date of 21 December 2026.

On 13 August 2024, a further 6,200,000 options were issued under the Employee share incentive scheme. The options vested immediately upon issue, have an exercise price of \$0.30 and have a three year term expiring on 12 August 2027.

No option holder has any right under the terms of the options to participate in any other share issue of the Company.

DIRECTORS' REPORT

For the year ended 30 June 2024

Directors

The names of the Directors, who held office from 1 July 2023 to date of this report, unless otherwise stated, are:

Simon Bird - Non-Executive Chairman

BAcc Science (Hons), CA, FCPA, FAICD

Simon Bird has over 30 years of international corporate experience, including holding the positions of General Manager Finance at Stockland Limited, Chief Financial Officer of GrainCorp Limited, and Chief Financial Officer of Wizard Mortgage Corporation. He was also Chief Executive Officer of ASX-listed King Island Scheelite Limited which was developing a large tungsten deposit, a former Managing Director of ASX listed gold explorer Sovereign Gold Limited, a former Chairman of ASX-listed oil and gas company Rawson Resources Limited, former Director of Advance Metals Limited and CPA Australia Limited.

- Appointed. 23 March 2021
- Other listed Board memberships. Mount Gibson Iron Limited
- Previous listed Board memberships. Advance Metals Limited

Remuneration Policy

The Board's remuneration policy determines the nature and amount of remuneration for Board members of the Company. The policy, setting the terms and conditions for the Executive Director, was developed by Board.

A part of this policy, all executive's remuneration will be based on factors such as length of service and experience. The Board will review executive packages annually by reference to the Company's performance, executive performance and comparable information from industry sectors and other listed companies in similar industries. The objective of this policy is to secure and retain the services of suitable individuals capable of contributing to the Company's strategic objectives.

The Board policy is to remunerate Non-Executive Directors at market rates for comparable companies for time, commitment and responsibilities. The Board will review Non-Executive Director remuneration annually, based on market practice, duties and accountability.

DIRECTORS' REPORT

For the year ended 30 June 2024

REMUNERATION REPORT (AUDITED) (Cont.)

The current base fees were last reviewed at the most recent remuneration committee meeting. Non executive director fees are determined with an aggregate Directors' fee pool limit, which is annually recommended for approval by the shareholders. In accordance with the constitution, a shareholders resolution has been passed providing that a maximum total remuneration of \$350,000 per annum may be paid to the Non-executive Directors.

The board reviews and approves the remuneration policy to ensure the Company attracts and retains executives and Directors who will create value for shareholders. Given the size of the Company and its level of activity it has not used external remuneration consultants in this process.

The Company currently has only three employees. When the Company reaches an appropriate size, it will endeavour to employ suitably qualified women to fill at least one third of its employment positions.

Below is a table summarising key performance and shareholder wealth indicators for the Company for the year ended 30 June 2024 and the previous 3 financial years.

Period	Loss after Tax	EPS	Share Price
Year ending 30 June 2024	(\$4,543,321)	Cents (2.93)	\$0.24
Year ending 30 June 2023	(\$9,234,157)	Cents (6.16)	\$0.33
Year ending 30 June 2022	(\$1,560,315)	Cents (5.84)	\$0.33

Directors and Key Management Remuneration

Details of the remuneration of the Directors, other Key Management Personnel (defined as those who have the authority and responsibility for planning, directing and controlling the major activities of the Company) are set out in the following table.

	Short Term		Post-Employment	Total	Performance Based
	Base fee / salary \$	Options \$	Superannuation \$	\$	%
2024					
Executive Directors					
Richard Carlton – Managing Director	271,399	-	27,500	298,899	0.0%
Non-Executive Directors					
Simon Bird - Chairman	80,714	-	8,879	89,593	0.0%
Robert Rutherford	44,841	-	4,933	49,774	0.0%
Total Non-Executive	125,556	-	13,811	139,367	0.0%
Total Remuneration	396,955	-	41,311	438,266	0.0%
2023					
Executive Directors					
Richard Carlton – Managing Director	272,500	193,476	28,612	494,588	39.1%
Non-Executive Directors					
Simon Bird	81,448	96,738	8,552	186,738	51.8%
Robert Rutherford	45,249	193,476	4,751	243,476	79.5%
Total Non-Executive	126,697	290,214	13,303	430,214	67.5%
Total Remuneration	399,197	483,690	41,916	924,803	52.3%

The Company issued 10,000,000 Director Options to Directors of the Company listing on the ASX ("Listing"). 5,000,000 of these options vested on Listing and a further 5,000,000 vested on 27 April 2023, one year after Listing. The fair value of options is determined using a Black-Scholes model

REMUNERATION REPORT (AUDITED) (Cont.)**Agreements with Directors**

Name: Richard Carlton
Title: Managing Director
Commencement Date: 23 March 2021
Term of Agreement: Ongoing
Details: Mr Carlton was paid an annual salary of \$300,000 for the year ended 30 June 2024 inclusive of superannuation. This has been increased to \$325,000 from 1 July 2024. The Board may offer Mr Carlton performance-based remuneration including cash bonuses or equity-based incentives that do not exceed 50% of his base salary. On 30 July 2024, the remuneration committee resolved to immediately pay a one off bonus of \$30,000 to Mr Carlton. The remuneration committee also resolved to provide an issue of options under the Company's Employee Securities Incentive Plan subject to shareholder approval. The final details, quantum and timing of issue to be agreed prior to the 2024 Annual General Meeting Notice of Meeting being issued. The committee also resolve to amend the Employment agreement with Mr Carlton so that the agreement may be terminated by either party on 6 months' notice (previously 3 months). No termination benefits are payable under the Agreement.

Name: Simon Bird
Title: Chairman
Commencement Date: 23 March 2021
Term of Agreement: Ongoing
Details: Mr Bird is paid an annual fee of \$90,000 inclusive of superannuation entitlements, from commencement of trading on the ASX and subject to annual review by the Board. On 19 April 2022 Mr Bird was awarded 2 million options over fully paid ordinary shares exercisable at 25.0 cents and expiring 19 April 2025. One half of these options vested immediately and one half on 19 April 2023.

Name: Robert Rutherford
Title: Non-Executive Director
Commencement Date: 14 March 2012
Term of Agreement: Ongoing
Details: Mr Rutherford is paid an annual fee of \$50,000 inclusive of superannuation entitlements, from commencement of trading on the ASX and subject to annual review by the Board. On 19 April 2022 Mr Rutherford was awarded 4 million options over fully paid ordinary shares exercisable at 25.0 cents and expiring 19 April 2025. One half of these options vested immediately and one half on 19 April 2023.

Share-Based Compensation

The Company has established the Maronan Metals Employee Share Incentive Plan ("Plan") to assist in the attraction, retention and motivation of employees of the Company. The Plan is administered by the Board in accordance with the rules of the Plan, and the rules are subject to the Listing Rules. A summary of the Rules of the Plan follows.

All employees and certain contracted staff will be eligible to participate in the Plan. The allocation of options to each employee is at the discretion of the Board. The options will be issued for nil consideration and are non-transferable, except with the consent of Directors. However, at the time of accepting the offer to participants of the Plan, the eligible employee may nominate another person in whose favour the options should be granted. If permitted by the Board, options may be issued to an employee's nominee (for example, a spouse or family company).

Each option is to subscribe for one fully paid ordinary share in the Company. The exercise price, term of the option and any vesting conditions are determined by the Board at the time that the option is offered. An option is exercisable at any time from its date of vesting until it expires. The Plan may be terminated or suspended at any time. Except with the consent of the Directors, options may not be transferred. The Company will not apply for official quotation of any options. Shares issued as a result of the exercise of options will rank equally with the Company's previously issued shares.

REMUNERATION REPORT (AUDITED) (Cont.)

If there is a bonus share issue to the holders of shares, the number of shares over which an option is exercisable will be increased by the number of shares which the option holder would have received if the option had been exercised before the record date for the bonus issue. The options or exercise price of the options will be adjusted if there is a pro-rata issue, bonus issue or any reconstruction in accordance with the Listing Rules. If there is a pro-rata issue (other than a bonus share issue) to the holders of shares, the exercise price of an option will be reduced to take account of the effect of the pro-rata issue. If there is a reorganisation of the issued capital of the Company, unexercised options will be reorganised in accordance with the Listing Rules. The Board may amend the Plan Rules subject to the requirements of the Listing Rules.

Compensation Options granted and vested as at 30 June 2024 are shown in the following table:

Director	Grant Date	Term (years)	Exercise Price	Grant Number	Fair value per option	Vested and Exercisable
Simon Bird	19-Apr-22	3	\$0.25	2,000,000	\$0.1173	2,000,000
Richard Carlton	19-Apr-22	3	\$0.25	4,000,000	\$0.1173	4,000,000
Robert Rutherford	19-Apr-22	3	\$0.25	4,000,000	\$0.1173	4,000,000
Weighted average exercise price:			\$0.25	10,000,000	\$0.1173	10,000,000

The options were granted to align the Board with shareholder's interests and with market practices of peer companies and to provide a competitive total remuneration package. As an exploration company, the Board does not consider any specific performance conditions in determining the share-based compensation

The value of options granted during a period is recognised as compensation over the vesting period of the grant, in accordance with Australian Accounting Standards.

There were no alterations to the terms and conditions of options granted as remuneration since their grant date. There were no Director's options granted or exercised during the year. There were no forfeitures during the period. There were no other transactions with Directors or director-related entities.

Voting and comments made at the Company Annual General Meeting

The Company received more than 90% of "yes" votes on its remuneration report for the 2023 financial year. The Company did not receive any specific feedback at the AGM or throughout the year on its remuneration practices.

This concludes the Remuneration Report, which has been audited.

Indemnifying Officers and Auditor

During the financial year the Company paid premiums to insure all Directors and officers of the Company against claims brought against the individual while performing services for the Company and against expenses relating thereto, other than conduct involving a wilful breach of duty in relation to the Company. The Company is prohibited under its contract for insurance from disclosing the amount of the premiums paid.

The Company has indemnified Directors and staff to the extent possible under the Corporations Law against any liabilities incurred by the person as an officer of the Company. The Company has also provided an indemnity to its contracted accounting staff for liabilities incurred in acting in this capacity. The Company has not indemnified the auditor.

Non-Audit Services

There were no non-audit services during the year ended 30 June 2024.

Officers of the Company who are former Audit Partners of BDO Audit Pty Ltd.

There are no officers of the Company who are former Partners of BDO Audit Pty Ltd.

Auditor Independence Declaration

The Auditor's independence declaration for the year ended 30 June 2024 has been received and a copy is reproduced on page 24. BDO Audit Pty Ltd continues in office in accordance with section 327 of the Corporations Act 2001.

Environmental Legislation

The Group's operations are not significantly impacted by any environmental legislation under a law of the Commonwealth or of a state or Territory of Australia.

Corporate Governance

Cash at beginning of the year		5,930,226	13,037,399
Cash at the end of the year	6	10,146,100	5,930,226

The above statement of cash flows should be read in conjunction with the accompanying notes.

1. Reporting Entity

The financial report is for the entity Maronan Metals Limited (referred herein also as the “Company” or “Maronan”) as an individual entity. Maronan Metals Limited is a company limited by shares incorporated and domiciled in Australia with its registered address at Level 15, 323 Castlereagh Street Sydney Australia. Maronan Metals Limited is listed on the ASX.

The principal activity of the Company during the year was the exploration for and evaluation of its silver-lead and copper-gold mineral deposits.

2. Basis of Preparation**Statement of compliance**

The financial statements are general purpose financial statements that have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (‘AASB’) and the Corporations Act 2001, as appropriate for-profit oriented entities.

The financial statements of the Company comply with International Financial Reporting Standards (‘IFRS’) as issued by the International Accounting Standards Board (‘IASB’).

The financial statements were authorised for issue by a resolution of the Board dated 11 September 2024.

Basis of measurement

These financial statements have been prepared under the historical cost convention.

Functional and presentation currency

The financial report has been presented in Australian Dollars (\$) which is the functional currency of the Company.

Use of estimates and judgements

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company’s accounting policies. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

The Directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Company.

Information about critical judgements in applying the accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- Note 8 – Tenement Acquisition Costs.
- Note 18 – Share Based Payments.

Going concern

The Company has incurred a net loss after tax of \$4,543,321 (2023: \$9,234,158) for the full year and net cash outflows from operating activities of \$4,491,046 (2023: \$7,049,357).

The Directors have prepared the Financial Statements on the Going Concern basis having prepared a cash flow forecast indicating that the Company’s current cash balance of \$10,146,100 is sufficient for it to remain cash positive at least until September 2025.

Adoption of new and revised standards

In the period ended 30 June 2024, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Company and effective for the current annual reporting period. It has been determined by the Directors that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Company and, therefore, no change is necessary to Company accounting policies. The Directors have also reviewed all new Standards and Interpretations that have been issued but are not yet effective for the period ended 30 June 2024. As a result of this review the Directors have determined that there is no impact, material or otherwise, of the new and revised Standards and Interpretations on the Company. The following is a summary of the material accounting policies adopted by the Company in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

3. Material Accounting Policies**Tenement Acquisition Costs**

Acquisition costs of mining tenements are capitalised in respect of each identifiable area of interest. These costs are only carried forward to the extent that the Company’s rights of tenure to that area of interest are current and that the costs are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Costs in relation to an abandoned area are written off in full against profit or loss in the year in which the decision to abandon the area is made. Each area of interest is also reviewed annually and acquisition costs are written off to the extent that they will not be recoverable in the future. Exploration, evaluation and development costs of mining tenements are expensed as incurred.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2024

Property plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any accumulated impairment losses.

Depreciation

Items of equipment have limited lives and are depreciated on a straight-line basis over their estimated useful lives.

Depreciation rates and methods are reviewed annually for appropriateness. When changes are made, adjustments are reflected prospectively in current and future periods only. Depreciation is expensed to the statement of profit or loss and other comprehensive income. Plant and equipment is depreciated at 20% per annum.

De-recognition and disposal

An item of equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Any gain or loss on de-recognition of the asset (calculated as the difference between net disposal proceeds and the carrying amount of the asset) is included in statement of profit or loss and other comprehensive income in the year the asset is de-recognised.

Income tax

The charge for current income tax expense is based on the profit for the year adjusted for any non-assessable or disallowed items. It is calculated using tax rates that have been enacted or are substantively enacted at the reporting date.

Deferred tax is accounted for using the statement of financial position method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the statement of profit or loss and other comprehensive income except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The number of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the Company will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

Financial instruments

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks and other short term highly liquid investments with original maturities of three months or less.

Payables

Payables represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are generally settled between 7 days and 30 days terms.

Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of the item of the expense. Receivables and payables in the statement of financial position are shown inclusive of GST. Cash flows are presented in the statement of cash flows inclusive of GST.

Interest income

Interest revenue is recognised using the effective interest rate method taking into account rates applicable to the financial assets.

Contributed equity

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in the equity as a deduction net of tax, from the proceeds.

Other receivables

Other receivables are recognised at amortised cost, less any provision for impairment.

Share based payment expense

The Company provides benefits to individuals acting as and providing services similar to employees (including Directors) of the Company in the form of share-based payment transactions, whereby individuals render services in exchange for shares or rights over shares ("Equity Settled Transactions").

There is currently an Employee Share Incentive Plan ("ESIP") in place, which provides benefits to Directors and individuals providing services similar to those provided by an employee.

3. Material Accounting Policies (cont.)

The cost of these equity settled transactions with employees is measured by reference to the fair value at the date at which they are granted. The fair value is determined by using the Black Scholes formula, taking into account the terms and conditions upon which the instruments were granted. In valuing equity settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Maronan Metals Limited ("Market Conditions").

The cost of the equity settled transactions is recognised, together with a corresponding increase in equity, over the period in which the equity instruments vest, ending on the date on which the relevant employees become fully entitled to the award ("Vesting date"). The cumulative expense recognised for equity settled transactions at each reporting date until Vesting Date reflects (i) the extent to which the vesting period has expired and (ii) the number of awards that, in the opinion of the Directors of the Company, will ultimately vest. This opinion is formed based on the best available information at balance date. No adjustment is made for the likelihood of the market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The statement of comprehensive income charge or credit for a period represents the movement in cumulative expense recognised at the beginning and end of the period. No expense is recognised for awards that do not vest, except for awards where vesting is conditional upon a market condition.

Where the terms of an equity settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any increase in the value of the transaction as a result of the modification, as measured at the date of the modification.

Where an equity settled award is cancelled, it is treated as if it had vested on the date of the cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award, and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The cost of equity-settled transactions with non-employees is measured by reference to the fair value of goods and services received unless this cannot be measured reliably, in which case the cost is measured by reference to the fair value of the equity instruments granted.

Employee benefits

Wages, salaries and annual leave Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled wholly within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date. They are measured at the (undiscounted) amounts expected to be paid when the liabilities are settled. Contributions are made by the Company to superannuation funds as stipulated by statutory requirements and are charged as expenses when incurred.

Earnings per share

Basic earnings per share are determined by dividing the net result attributable to members, adjusted to exclude costs of servicing equity (other than dividends), by the weighted average number of ordinary shares, adjusted for any bonus element. Diluted earnings per share are determined by dividing the net result attributable to members, adjusted to exclude costs of servicing equity (other than dividends) and any expenses associated with dividends and interest of dilutive potential ordinary shares, by the weighted average number of ordinary shares (both issued and potentially dilutive) adjusted for any bonus element.

Research and development tax incentive income

Research and Development Tax incentives are accounted for in line with AASB 120 Government Grants. The company estimates the rebate for the year ending 30 June 2024 will be received in the third quarter of the 2025 Financial year. The R&D rebate will be recognised upon receipt and reflected as other income.

5. Income Tax Expense		
The prima facie tax benefit on loss before income tax is reconciled to the income tax expense as follows:		
Prima facie income tax benefit on loss before income tax at 25%	1,135,830	2,308,539
<u>Add tax effect of:</u>		
Non-allowable expenses	(16,251)	(329,712)
<u>Add/(deduct) temporary differences not brought to account:</u>		
Deferred tax assets / liabilities and other differences / tax losses recognised	(1,119,579)	(1,978,827)
Income tax expense	-	-

	Opening	Movement	Closing
	\$	\$	\$
Deferred income tax – 2024			
Deferred tax assets have not been recognised in respect of the following items:			
Capital raising expenses	199,059	-	199,059
Provisions	20,782	4,646	25,428
Tax losses	2,027,329	1,164,223	3,191,552
Total deferred tax assets	2,247,170	1,168,869	3,416,039
Deferred tax liabilities have not been recognised in respect of the following items:			
Prepaid expenses	(8,422)	476	(7,946)
Total deferred tax liabilities	(8,422)	476	(7,946)
Net deferred tax assets	2,238,748	1,169,344	3,408,092

The tax losses and deductible temporary differences do not expire under current tax legislation. Deferred tax liabilities have been offset against deferred tax assets and net deferred tax assets have not been recognised because it is not yet probable that future taxable profit will be available against which the Company can utilise these benefits.

8. Tenement Acquisition Cost		
Total tenement acquisition - EPM 13368	5,691,713	5,691,713

The ultimate recoupment of costs carried forward for tenement acquisition cost is dependent on the successful development and commercial exploitation or sale of respective areas. The Company reviews annually the carrying value of the tenement acquisition cost, and will carry this as an asset if it considers the area of interest to be prospective. Should the particular area of interest no longer be considered prospective, then the Company will make a provision in the accounts for the carrying value of the project. The list of tenements the Company has an interest in is disclosed on page 49.

13,500,000 performance rights issued to Red Metal Limited were converted to equity in the year ending 30 June 2024. The performance rights were issued to Red Metal on 19 April 2022 in settlement of the loan payable by Maronan Metals Limited to Red Metal. Accordingly, as the performance rights were issued in consideration for the settlement of the loan in the year ended 30 June 2022, no additional changes to issued capital value have been made in the year ended 30 June 2024.

The performance rights converted into fully paid ordinary shares on satisfaction of the following performance conditions:

Condition	Performance Rights Converting into Fully Paid Ordinary Shares
Upon the Company announcing a downhole intercept of at least 30m of 1.5% Cu equivalent by 27 April 2025.	6,750,000
Upon the Company announcing a downhole intercept of at least 15m of 10.0% Cu equivalent by 27 April 2025.	6,750,000

1. On exercise of these options the holder is entitled to receive one Secondary Option for each two fully paid shares issued with an exercise price of \$0.60 expiring on 30 June 2025.

g) Other Options

On 21 December 2023 the Company issued 500,000 Options to Options to the Exploration Manager. All 500,000 of these options vested immediately on issue. All of these options are convertible into fully paid ordinary shares that are escrowed for 24 months from the date of quotation.

The Company has valued these options using the Black-Scholes option pricing model and an amount of \$65,004 has been recognised as an expense in the Statement of Profit or Loss and Other Comprehensive Income.

Key inputs used in the calculation of this amount are as follows

Variable	
Grant date	21 December 2023
Exercise price	\$0.28
Calculation date	21 December 2023
Underlying share price	\$0.25
Risk Free Rate	4.14%
Volatility	100.0%
Option Life	3 years
Expected dividends	Nil
Fair value per option	13.00 cents

19. Commitments and Contingencies

The Company holds an exploration tenement (EPM 13368) ("Tenement") in Queensland, Australia. In order to retain its current rights of tenure to the Tenement, the Company is required to comply with tenement obligations specified by the State Government, including the completion of activities-based works programmes which are assessed over the life of the Tenement. There are no set annual expenditure amounts. If Tenement obligations are not met it may result in the loss of the Tenement or a reduction in the Tenement area. The Company is presently on track to meet all of its Tenement obligations.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 30 June 2024

21. Financial Risk Management

The Company's financial instruments consist mainly of deposits with banks, accounts receivable and payable.

Exposure to currency risk, interest rate risk, commodity price risk, and liquidity risk arises in the normal course of the business.

The Company's overall financial risk management strategy is to seek to ensure that the Company is able to fund its business plans.

The Company uses various measures dependent on the types of risk to which it is exposed. These methods include cash flow at risk analysis, in the case of interest rates. Financial risk management is carried out by the Managing Director under policies approved by the Directors. The Directors provide written principles for overall risk management.

	Note	Current Interest rate	Floating Interest rate	Non-Interest Bearing	Total
			\$	\$	\$
Financial assets					
Cash held in general account	6	0.00%	10,990	-	10,990
Cash held in cash management account	6	1.35%	10,135,110	-	10,135,110
Trade and other receivables	6	0.00%		141,914	141,914
Financial liabilities					
Lease liability	9	0.00%		99,364	99,364
Trade payables	12	0.00%	-	801,806	801,806

Credit risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company's credit risk exposure is limited to cash and cash equivalents. Management have reduced this risk by depositing cash with financial institutions with a credit rating of AAA or higher.

Interest rate risk

The Company's main interest rate risk arises from interest earnings on its surplus cash. The Company is exposed to interest rate risk to the extent its interest earnings may fluctuate. The impact of a 1% movement in the interest rate on the funds invested when all other variables are held constant is immaterial.

Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding to meet ongoing operational requirements, exploration expenditure, and small to medium sized opportunistic projects and investments, by keeping surplus cash available.

The Company's objective is to safeguard its ability to continue as a going concern and to maintain a conservative capital structure so that management can focus on running its core business together with being an attractive company for shareholders and potential investors. The Company will consider the most appropriate use of debt and equity to maximise its returns while maintaining a low-risk capital structure.

	Note	Total	Less than one year	Greater than one year	Maturity Details
		\$	\$	\$	
Financial liabilities					
Trade creditors	12	801,806	801,806	-	Usually, payable between 7 and 30 days.

Fair values

The Company has a number of financial instruments which are not measured at fair value in the Statement of Financial Position. The fair values are not materially different to their carrying amounts, since the interest receivable/payable is either close to current market rates or the instruments are short-term in nature.

	2024	2023

Total auditor's remuneration	48,600	48,600

23. Operating Segments

The company is organised into one operating segment, being the exploration of minerals in Australia. This operating segment is based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers) in assessing performance and in determining the allocation of resources.

24. Subsequent Events

On 13 August 2024, the directors resolved to issue 6,200,000 options under the Employee share incentive scheme. The options vested immediately upon issue, have an exercise price of \$0.30 and have a three-year term expiring on 12 August 2027.

The Directors are not aware of any other matter or circumstance not otherwise dealt with in this Annual Report or in the financial statements that has significantly or may significantly affect the operations of the Company, the results of those operations or the state of affairs of the Company in subsequent financial years.

DIRECTORS' DECLARATION

For the year ended 30 June 2024

In the Directors' opinion;

- the attached financial statements and notes thereto comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes thereto comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 2 to the financial statements;
- the attached financial statements and notes thereto give a true and fair view of the Company's financial position as at 30 June 2024 and of its performance for the financial year ended on that date; and
- There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
- The information disclosed in the attached consolidated entity disclosure statement is true and correct.

The Directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5) (a) of the Corporations Act 2001.

On behalf of the directors;

Simon Bird
Chairman

Sydney, 11th September 2024

CONSOLIDATED ENTITY DISCLOSURE STATEMENT

For the year ended 30 June 2024

Entity Name	Entity Type	Trustee, partner or participant in joint venture	% of Share Capital Held	Place of incorporation	Tax Residency	Foreign tax Jurisdiction of foreign residents
Maronan Metals Limited	Body Corporate	N/A	N/A	Australia	Australian	N/A

The entity is not a trustee

Maronan Metals Limited has no controlled entities and, therefore, is not required by the Australian Accounting Standards to prepare consolidated financial statements. As a result, section 295(3A)(a) of the Corporations Act 2001 does not apply to the entity.

Basis of Preparation

This Consolidated Entity Disclosure Statement (CEDS) has been prepared in accordance with the Corporations Act 2001. It includes certain information for each entity that was part of the consolidated entity at the end of the financial year.

Determination of Tax Residency

Section 295 (3A) of the Corporation Acts 2001 defines tax residency as having the meaning in the Income Tax Assessment Act 1997. The determination of tax residency involves judgment as there are currently several different interpretations that could be adopted, and which could give rise to a different conclusion on residency.

In determining tax residency, the consolidated entity has applied the following interpretations:

Australian tax residency

The consolidated entity has applied current legislation and judicial precedent, including having regard to the Tax Commissioner's public guidance in Tax Ruling TR 2018/5.

INDEPENDENT AUDITOR'S REPORT

To the members of Maronan Metals Limited

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Maronan Metals Limited (the Company), which comprises the statement of financial position as at 30 June 2024, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the financial report, including material accounting policy information, the consolidated entity disclosure statement and the directors' declaration.

In our opinion the accompanying financial report of the Company, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Company's financial position as at 30 June 2024 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report. We are independent of the Group in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Carrying Value of Tenement Acquisition Costs

Key audit matter	How the matter was addressed in our audit
<p>At 30 June 2024, the carrying value of the Tenement Acquisition costs represents a significant asset of the Company, as disclosed in note 8.</p> <p>As a result, we considered it necessary to assess whether any facts or circumstances exist to suggest that the carrying amount of this asset may exceed its recoverable amount.</p> <p>In accordance with AASB 6 Exploration for and Evaluation of Mineral Resources (“AASB 6”), the recoverability of exploration and evaluation expenditure requires significant judgment by management in determining whether there are any facts or circumstances that exist to suggest that the carrying amount of this asset may exceed its recoverable amount. As a result, this is considered a key audit matter.</p>	<p>Our procedures included, but were not limited to the following:</p> <ul style="list-style-type: none"> • Obtaining a schedule of capitalised Tenement Acquisition costs for the area of interest and assessing whether the rights to tenure remained current at the reporting date, which included obtaining and assessing supporting documentation such as license status records; • Considering the Company’s intention to carry out significant ongoing exploration programmes for the area of interest by holding discussions with management, and reviewing the Company’s exploration budgets, ASX announcements and directors’ minutes; • Considering whether the area of interest had reached a stage where a reasonable assessment of economically recoverable reserves existed; • Considering whether any facts or circumstances existed to suggest impairment testing was required; and • Assessing the adequacy of the related disclosures in Note 8 of the Financial Report.

Other information

The directors are responsible for the other information. The other information comprises the information in the Company’s annual report for the year ended 30 June 2024, but does not include the financial report and our auditor’s report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the Financial Report

The directors of the Company are responsible for the preparation of:

- a) the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and
- b) the consolidated entity disclosure statement that is true and correct in accordance with the Corporations Act 2001, and

for such internal control as the directors determine is necessary to enable the preparation of:

- i) the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ii) the consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website (<http://www.auasb.gov.au/Home.aspx>) at:

https://www.auasb.gov.au/admin/file/content102/c3/ar2_2020.pdf

This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 19 to 22 of the directors' report for the year ended 30 June 2024.

In our opinion, the Remuneration Report of Maronan Metals Limited, for the year ended 30 June 2024, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
