

ASX: MZZ | OTCQB: MZZMF

Strategically placed on a
**multi-million-ounce
emerging gold district**
in Newfoundland, Canada

RIU SYDNEY – JUSTIN OSBORNE (CHAIR) | 8 MAY 2024

Disclaimer and Forward-Looking Statements

This presentation is not a prospectus nor an offer of securities for subscription or sale in any jurisdiction nor a securities recommendation. The information in this presentation is an overview and does not contain all information necessary for investment decisions. In making investment decisions, investors should rely on their own examination of Matador Mining Limited (Matador or the Company) and consult with their own legal, tax, business and/or financial advisers in connection with any acquisition of securities or interest in the Company. The information contained in this presentation has been prepared in good faith by the Company. However, no representation or warranty, express or implied, is made as to the completeness or adequacy of any statements, estimates, opinions or other information contained in this presentation. To the maximum extent permitted by law, the Company, its directors, officers, employees and agents disclaim liability for any loss or damage which may be suffered by any person through the use of, or reliance on, anything contained in or omitted from this presentation. Certain information in this presentation refers to the intentions of the Company, but these are not intended to be forecasts, forward looking statements, or statements about future matters for the purposes of the Corporations Act 2001 (Cth) or any other applicable law. The occurrence of events in the future are subject to risks, uncertainties and other factors that may alter the Company's actual results, performance or achievements to differ from those referred to in this presentation to occur as contemplated. The presentation contains only a synopsis of more detailed information available in relation to the matters described in this document and accordingly no reliance may be placed for any purpose whatsoever on the sufficiency or completeness of such information and to do so could potentially expose you to a significant risk of losing any of the property invested by you or incurring by you of additional liability. Recipients of this presentation should conduct their own investigation, evaluation and analysis of the business, data and property described in this presentation. In particular, any estimates or projections or opinions contained herein necessarily involve significant elements of subjective judgment, analysis and assumptions and you should satisfy yourself in relation to such matters.

Mineral Resources

The information in this Presentation that relates to the Mineral Resource estimate for the Cape Ray Gold Project was announced on 30 May 2023. Matador confirms that it is not aware of any new information or data that materially affects the information included in the announcement of 30 May 2023 and that all material assumptions and technical parameters underpinning the Mineral Resource estimate in that announcement continue to apply and have not materially changed.

Mineral Resources are reported using a cut-off grade of 0.30 g/t gold for open pit and 2.00 g/t gold for underground. Assumptions for the open pit and underground grade cut-offs consider the following: a gold price of USD 1750 per troy ounce gold, selling costs of USD 5 per troy ounce gold, exchange rate of 1.3 USD:CAD, open pit mining costs of CAD 3 per tonne, underground mining costs of CAD 92.47 per tonne, processing costs of CAD 20 per tonne, G&A costs of CAD 5 per tonne processed, gold recovery of 96%, and royalty of 3% for Zone 4, 41 and Isle aux Morts and royalty of 1% for Window Glass Hill, Angus, PW Zone and Zone 51. The open pit Mineral Resources are constrained using optimized pit shells that have been generated using Lerchs Grossman algorithm with parameters outlined above, using a maximum of 50 degree pit slopes. The underground Mineral Resources are constrained using a 2.00 g/t gold grade shell below the optimized pit based on the assumptions summarised above.

The Mineral Resource Estimate for the Cape Ray Gold Project has been prepared by Trevor Rabb, P.Geo. (EGBC #39599 and PEGNL #11155) who is a Competent Person as defined by JORC 2012. EGBC (formerly APEGBC) and PEGNL (APEGNL) are Recognised Professional Organisations accepted for the purpose of reporting in accordance with appendix 5A of the Australian Securities Exchange Listing Rules. Mineral Resources for the Cape Ray Gold Project have an effective date of 22 February 2023.

Exploration Results

The information in this Presentation that relates to exploration results reported through Company ASX announcements that can be found on the Company's website: www.matadormining.com.au.

Matador confirms that it is not aware of any new information or data that materially affects the information included in those announcements.

MATADOR VALUE PROPOSITION

Fully funded and strategically placed
for major discoveries in one of the
remaining top-tier jurisdictions

**DISTRICT SCALE LAND
PACKAGE**

On a proven multi-million-ounce
gold structure

**“BLUE-CHIP” SHAREHOLDER
REGISTER**

Led by B2Gold as a strategic
investor

**WORLD-CLASS
EXPLORATION**

To maximise return on
investment, create long-term
value

**TOP-NOTCH BOARD &
MANAGEMENT**

With a proven track record of
making major discoveries,
creating value

**HIGH-GRADE, SHALLOW
MINERAL RESOURCE**

One of only a few explorers in
Newfoundland with a defined
mineral resource

GLOBAL INSTITUTIONAL OWNERS

Highly supportive and long-term focused

1. As at 29 April 2024
 2. Based on Mineral Resources reported 29 May 2023
 3. As at 31 March 2024
 4. As at 15 January 2024

CURRENTLY PLANNED TO INCLUDE 7,000 TO 10,000 METRES OF DRILLING

SCALABLE PROGRAM BASED ON RESULTS

COMPLETED FIRST EVER BOH RC DRILL PROGRAM

157 holes drilled with assays received on
first 47 holes

DIAMOND DRILLING TO COMMENCE EARLY JUNE

5,000 to 7,000 metres of drilling

GEPHYSICS & GEOCHEMISTRY

High-resolution airborne magnetics,
Electro-magnetics

Till/soil sampling

GEOLOGICAL MAPPING, MODELLING & PROSPECTING

Low-cost, high value target/project
generation

CAPE RAY SHEAR ZONE KINEMATIC FRAMEWORK

New regional kinematic framework presents significant change to previous theories which identify significant new opportunities

COMPREHENSIVE STRUCTURAL REVIEW

Review of drill core, geochemistry, geophysics

VARIABLE CONTRIBUTIONS TO GOLD FLUID TRANSPORT

Metal inventory hypothesised as sourced from intrusion-related fluids

MAJOR CHANGE TO KINETIC FRAMEWORK

Age of mineralisation later than previously thought

MALACHITE

MALACHITE – 2024 EXPLORATION

Assays received on 47 out of 157 holes drilled

FIRST-EVER RC BOH/BASAL TILL SAMPLING PROGRAM

Has the potential to unlock considerable opportunities for the Company

TESTING HIGHLY PROSPECTIVE GEOLOGICAL FEATURE

Major breakout structure off significant bend in main gold structure

POTENTIAL FOR DIAMOND DRILLING IN SUMMER 2024

Based on the results of the RC program

MALACHITE – RC DRILL PROGRAM INITIAL RESULTS

(A) RC ROCK CHIP SHOWING BROWN EUHEDRAL ANKERITE AND QUARTZ FROM CRC0012; (B) RC ROCK CHIPS SHOWING QUARTZ VEINS WITH VISIBLE CHALCOPYRITE FROM CRC0037, and (C) EACH SAMPLE REPRESENTS 1M OF RC CHIPS FROM 2M –9M DEPTH FROM CRC0037. NOTE THE HIGHLY OXIDIZED AND SULPHIDE RICH MATERIAL AS WELL AS ABUNDANT QUARTZ.

INITIAL BATCH RESULTS RECEIVED

First batch of 47 holes received, 110 holes are pending assays

TWO SIGNIFICANT MINERALISED ZONES

Evidence of hydrothermal alternation with quartz veining and sulphides

MAL RC-01 DEMONSTRATES POTENTIAL

Significant gold and copper shallow mineralisation on structure splaying off high-priority O-2 Target structure

ADDITIONAL ANALYSIS UNDERWAY

Comprehensive analysis of data to define specific drill targets

RESOURCE CORRIDOR

RESOURCE CORRIDOR – 2024 EXPLORATION PROGRAM

INDICATED MINERAL RESOURCES⁽¹⁾

6.2 Mt @ 2.25 g/t Au → 450 koz Au

INFERRED MINERAL RESOURCES⁽¹⁾

3.5 Mt @ 1.4 g/t Au → 160 koz Au

1. Reported 29 May 2023

SEVERAL NEW ADVANCED DRILL-TARGETS IDENTIFIED

To be drilled in the spring/summer of 2024 diamond drill program

POTENTIAL TO FURTHER ADD TO THE MINERAL INVENTORY

Seeking to make multi-million-ounce discoveries

ADDITIONAL EARLY-STAGE WORKS ON NEW TARGETS

Magnetic survey, geological mapping and modelling

HERMITAGE

Largest and highest tenor arsenic & antimony anomaly in Newfoundland – with confirmed association with gold

SIGNIFICANT GOLD BELT

Structure hosts other major gold discoveries including New Found Gold’s project

GEOLOGICALLY AKIN TO MAJOR GLOBAL DEPOSITS

Age of mineralisation, geology, pathfinder elements similar to Bendigo, Fosterville

LARGE LAND POSITION

Over 270 square kilometres on vastly underexplored, remote area

UNIQUE GEOLOGIC SETTING

Orientation completely different to all other major geological structures in Newfoundland

Limited exploration to-date has yielded significant results that support Hermitage’s potential for hosting major mineral deposits

ASX Announcements: 12 Nov 2023, 13 Sep 2023, 17 May 2023

MULTI-GRAM GOLD
ALREADY DISCOVERED

7.31 g/t, 2.15 g/t, 2.10 g/t (all outcrops) with significant pathfinders in Prospecting

SCALE OF OPPORTUNITY IS
CONSIDERABLE

Over 17 samples > 100 ppb Au over seven kilometres from 2022 discoveries

PATHFINDERS AKIN TO
BENDIGO/FOSTERVILLE

Results indicate arsenic-gold and antimony-gold associations

SIGNIFICANT HYDROTHERMAL
ACTIVITY

Discovered series of large outcropping quartz veins and vein arrays in multiple locations

Copper exposed
On cliff faces

2m

5m

BLUE COVE COPPER PROJECT

Low-cost exposure to early-stage copper ± lead, zinc and silver exploration project

SIGNIFICANT STRIKE LENGTH

Approximately 48 km² of claims covering 25 kilometres of continuous strike

FIVE PRIMARY TARGET AREAS IDENTIFIED

With several high-grade copper samples and multi-element soil geochemical anomalies

HIGH-GRADE COPPER & SILVER

Dozens of high-grade copper samples grading up to 10.6% copper and 91.6 g/t silver

FUTURE SUMMER WORK PLANNED

Low-cost, early-stage exploration program planned for 2024

At the Company's AGM on 30 May, shareholders are being asked to vote on a resolution to change the Company name to 'AuMega Metals Limited'

The new name moves beyond the original Matador origins, signifying a MEGA future in the gold sector.

AuMega Metals is a metals exploration company focused on Newfoundland

We are focused on the discovery of MEGA deposits that deliver value for shareholders

AuMEGA Metals ASX:AAM
Coming soon¹

1. Pending vote on Resolution 16, Matador Mining Ltd AGM, 30 May 2024

THE MATADOR DIFFERENCE – WHY INVEST?

ASX: MZZ | OTCQB: MZZMF

We have a District Scale Land Package

On proven multi-million-ounce gold structures

Gold is our priority, Copper is a new opportunity

We are and continue to be a gold focussed company

We are Advancing Exploration to Make Discoveries

We are exploring to make discoveries, not just drill holes

We believe in Value Driven Targeting

We generate design exploration programs based on Return on Investment

Use the Best Exploration Methods

We are doing things in Canada that no one else is doing eg RC drilling

A World Class Jurisdiction

The best of Australian and Canadian exploration

Highly prospective geology that has hardly been explored

Well-funded and well resourced
