Osmond Resources Limited
Directors' report
31 December 2025

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'consolidated entity') consisting of Osmond Resources Limited (referred to hereafter as the 'company' or 'parent entity') and the entities it controlled at the end of, or during, the six month period ended 31 December 2025.

Directors

The following persons were directors of Osmond Resources Limited during the whole of the financial period and up to the date of this report, unless otherwise stated:

Anthony Hall - Managing Director
Lachlan Rutherford – Executive Director
Daniel Eddington – Non-Executive Director

Principal activities

During the financial period the principal continuing activities of the consolidated entity consisted of exploration and development focused on gold and base metals discoveries.

Review of operations

The loss for the consolidated entity for the period ended 31 December 2025 after providing for income tax amounted to \$6,752,747 (2024: \$7,857,918). Refer also to the activities report set out on the page following this report.

Significant changes in the state of affairs

On 25 July 2025 the Company issued 1,000,000 Options to third party consultants. The Options are able to be exercised at a share price of \$1.50 with an expiry date of 30 June 2028.

On 25 July 2025 the Company issued 691,914 Shares following the exercise of Options raising \$128,374.

On 29 July 2025 the Company confirmed the award of the Orion Investigation Permit (registration number 16271) in Spain.

On 5 August 2025 the Company issued 25,000,000 Shares as consideration for the acquisition of an 80% interest in Iberian Critical Minerals Pty Ltd. This entity holds a 100% interest in the capital of Omnis Minería SL (Omnis). Omnis owns 75.5% of the Orion EU Critical Minerals Project with the right to move to 95% on completion of a scoping study. The final 5% requires pro-rata capital contributions post the scoping study or may be traded for a project royalty which can be purchased at any time for US\$750,000.

Under the terms of the acquisition, there are an additional two tranches of shares totalling 85m shares (42.5m each) that can be issued by the Company when the following Milestones are triggered if it wishes to continue to progress the Project. Importantly the Company has full discretion with respect to the issue of the two tranches. The Milestones are as follows:

Milestone 1 – 30 days from the earlier of OSM announcing a Mineral Resource Estimate to the ASX with a component of Indicated Resource or 24 months from the date of completion of the initial acquisition; and

Milestone 2 – 30 days from the earlier of OSM announcing a Scoping Study to the ASX or 48 months from the date of completion of the initial acquisition.

On 5 August 2025 the Company issued 2,250,000 Options to third party consultants. The Options are able to be exercised at a share price of \$1.50 with an expiry date of 30 June 2028.

On 7 October 2025 the Company issued 1,042,000 shares following the exercise of Options raising \$160,500.

On 30 October 2025 the Company issued 2,147,482 shares following the exercise of Options raising \$194,230.

On 26 November 2025 the Company issued 7,000,000 Options to directors. The Options are able to be exercised at a share price of \$0.90 with an expiry date of 6 June 2029.

On 28 November 2025 the Company issued 1,750,000 Options to third party consultants. The Options are able to be exercised at a share price of \$1.75 with an expiry date of 28 October 2028.

REVIEW OF ACTIVITIES

December 2025

During the half year, Osmond advanced its corporate strategy focused on developing critical minerals projects primarily in Spain, with a focus on the Company's flagship Orion EU Critical Minerals Project. Ultimately, Osmond's aspiration is to become a meaningful producer of critical and future facing minerals in the EU to help the EU reduce import reliance, especially for minerals it currently does not extract.

Highlights

Spain - Orion EU Critical Minerals Project

- Maiden drilling program commenced, with initial results confirming world-class Spanish / EU discovery and grade / scale potential for titanium (rutile), zircon and rare earths (monazite)
- Nine holes completed for 2,806m, with exceptional results received from first two drill holes:
 - 1.5m at 15.92% TiO₂ (15.7% rutile, 6.0% ilmenite), 5.67% ZrO₂ (9.8% zircon), 1,225ppm HfO₂, 1.15% TREO, 0.3% MREO (1.7% monazite) from 108.75m (**hole AV-0**)¹
 - 1.8m at 19.07% TiO₂ (18.8% rutile, 7.2% ilmenite), 6.84% ZrO₂ (11.9% zircon), 1,517ppm HfO₂, 1.29% TREO, 0.35% MREO (2.0% monazite) from 105.75m (**hole AV-01bis**)²

OSM Initial Drill Hole Results Summary - In-Situ Grades				
	Primary Seam		High-Grade Sub Seam	
	AV-01	AV-01bis	AV-01	AV-01bis
From	108.45m	105.75m		
Thickness	3m	3m	1.5m	1.8m
Rutile	10.2%	13.0%	15.7%	18.8%
Zircon	6.1%	8.0%	9.8%	11.9%
TREO	0.72%	0.89%	1.15%	1.29%

- 13 channel samples, three bulk samples and the first three drill holes from Zone 1 Target Area all show outstanding high-grades of titanium (rutile and ilmenite) and zircon with rare earth element and silica upside
- Osmond is uniquely positioned to leverage the possibility to develop three economic minerals
- Focus remains on high-grade area of ~10.67km² in Zone 1 (Target Area) expected to drive compelling Scoping Study metrics
- Preliminary metallurgical test work program on bulk samples from Zone 1 substantially completed with initial results anticipated shortly
- Mineral Resource Estimate targeted for completion on Target Area as a priority to enable mine planning
- Scoping Study targeted for 2H, CY26 focusing on Target Area
- Downstream product initiatives in train to take advantage of potential grade and scale
- Spanish centric and EU funding, partner and product strategies progressing.

Spain - Iberian One Projects

The Company continues to consider options with respect to progressing its Iberian One Project noting the immediate focus is on the flagship Orión EU Critical Minerals Project.

Australian Projects

The Company surrendered the Yumbarra Project permit (EL6417).

Corporate

- Post period-end, the Company completed a strongly supported A\$6.6m placement. Pro forma cash at bank as at 31 December 2025, inclusive of the placement, was over A\$8.5m.
- Osmond held its Annual General Meeting (AGM) of shareholders on 26 November 2025, with all resolutions passed.

Orion EU Critical Minerals Project (Spain)

Overview

The Orión EU Critical Minerals Project (**Orión** or **the Project**) is located in Jaén Province, Andalucía, Southern Spain (refer Figure 1 below). The Project includes 756 Spanish mining units (cuadrículas mineras) covering an area of 228 km².

It is a siliciclastic geological system with various layers rich in critical minerals including rutile and ilmenite (titanium), zircon, hafnium, and monazite (rare earth elements). The Project area was explored for thorium and uranium in the 1950s and 1960s and includes a historic galena mine.

Extensive geological mapping activities have been completed across the three target zones of the Orión permit. The activities have identified multiple Ti-Zr-REE rich layers across a wide area of the Project (refer ASX announcements dated 6 September 2024, 19 November 2024, 28 January 2025, 7 April 2025 and 19 June 2025).

Drilling Program

During the half year, the Company completed nine drill holes (refer Figure 2 and Table 2 below). Table 1 below shows a summary of assay results from the initial two holes and key economic minerals / oxides (refer ASX release of 18 November 2025 and 24 November 2025).

Additional assay results from the relatively lower grade Zone 3 are expected in the current quarter. The Company's drilling program is expected to recommence shortly with a focus on the Target Area shown in Figure 3 below.

Project Execution

The Company's main focus has been on advancing the Project to Scoping Study completion as quickly as possible. To facilitate this the Company has progressed key milestone activities, including:

1. Complete resource drilling in the Target Area (refer to Figure 1 and 2) (1H, CY26)
2. Delineate a maiden JORC Code compliant Mineral Resource Estimate (1H, CY26)
3. Complete current Scoping Study metallurgical test works (1H CY26). Results and flow sheet design from bulk sample testing is substantially completed with initial results anticipated in the coming weeks (Q1, CY26)
4. Complete mine planning, process plant, utilities and logistics strategies (1H, CY26)
5. Complete Scoping Study for the Target Area (2H, CY26).

Completion of the Scoping Study is likely to be a critical juncture for the Company as it is expected to demonstrate a very compelling EU based rutile, ilmenite, zircon and rare earth project.

The Scoping Study will further the Company's aspiration to be the only company extracting titanium, zirconium (and hafnium), and rare earth elements in the EU.

Metallurgical Test Work Program

Preliminary metallurgical test work program on bulk samples from Zone 1 were substantially completed with initial key Scoping Study level metallurgical results and preliminary flow sheet design to be released in the current quarter.

Further, the Company will initiate the second round of metallurgical test works in March 2026 aimed at developing a Feasibility Study level flow sheet.

Product, Partners and Government Strategy

To compliment project execution activities, the Company progressed various downstream product related initiatives to take advantage of the potential grade and scale of the Project. The activities can be summarised as:

1. Progress of downstream product related initiatives with respect to titanium (rutile and ilmenite), zircon, rare earths and silica metal with a focus on EU and North American markets; and
2. Advanced discussions with Spanish centric and EU funding, project and product partners.

Corporate Activities

Placement

Post period-end, the Company completed a strongly supported A\$6.6m placement. Pro forma cash at bank as at 31 December 2025, inclusive of the placement, was over A\$8.5m.

The placement was Company led and cornerstoned by two existing institutional shareholders.

Placement details:

- a total of 11M Placement Shares issued at A\$0.60 per share representing a 16.7% discount to the Company's last traded price on 7 January 2026 and an 18.2% discount to the 5-day VWAP;
- the 5.5M Placement Options are exercisable at A\$1.20 on or before 31 December 2027;
- the Placement was issued under the Company's placement capacity pursuant to ASX Listing Rule 7.1 (11,000,000 securities) and 7.1A (5,500,000 securities); and
- settlement of the Placement took place on Thursday 22 January 2026.

The funds raised by the issue of the Placement Shares will be used to progress the Orión EU Critical Minerals Project and the Company's aspiration to become the first EU miner of three strategically important minerals: 1. Titanium (rutile), 2. Zircon (and Hafnium), and 3. Rare Earths (monazite); and to pay for the costs of the offer.

Annual General Meeting

Osmond held its Annual General Meeting (AGM) of shareholders on 26 November 2025, with all resolutions passed.

Note 1. Material accounting policy information

These general purpose financial statements for the interim half-year reporting period ended 31 December 2025 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2025 and any public announcements made by the Company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The material accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Company has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The adoption of these new or amended Accounting Standards and Interpretations has neither a significant impact in the results for the period, nor in the financial position of the Consolidated entity.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Going concern

The financial report has been prepared on the going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

As disclosed in the financial report, the consolidated entity incurred a loss of \$6,752,747 and had net cash outflows from operating and investing activities of \$2,636,825 for the half-year ended 31 December 2025.

The Directors believe that it is reasonably foreseeable that the consolidated entity will continue as a going concern and that it is appropriate to adopt the going concern basis in the preparation of the financial report after consideration of the following factors:

- At 31 December 2025, the consolidated entity had cash and cash equivalents of \$2,367,491;
- As disclosed in Note 6 *Events after the reporting period*, the Company raised \$6,600,000 (before share issue costs) on 22 January 2026, from the issue of shares; and
- The Company has prepared cash flow forecast covering a period of 12 months after the signing of this interim financial report which shows that the consolidated entity will be able to pay its commitments when fall due. This cash flow forecast includes cash outflows towards project expenditure, which can be deferred wholly or in part if insufficient capital is raised to fund activity.

Note 2. Operating segments

Identification of reportable operating segments

The consolidated entity is organised into two operating segments based on differences in the geographical locations of the exploration activities: Spain and Australia. These operating segments are based on the internal reports that are reviewed and used by the Board of Directors (who are identified as the Chief Operating Decision Makers ('CODM')) in assessing performance and in determining the allocation of resources. There is no aggregation of operating segments.

INDEPENDENT AUDITOR'S REVIEW REPORT To the Members of Osmond Resources Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Osmond Resources Limited ('the Company'), and its subsidiaries (together referred as to 'the Consolidated entity'), which comprises the statement of financial position as at 31 December 2025, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Consolidated entity is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the Consolidated entity's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* ('ASRE 2410'). Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Consolidated entity in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibility for the Half-Year Financial Report

The directors of Osmond Resources Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Consolidated entity's financial position as at 31 December 2025 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
