ASX: PAT

QUARTERLY ACTIVITIES REPORT 31 December 2024

Most of the Company's Quarterly Activities focussed on the acquisition of rights to exploration licences in Zambia and their immediate exploration by our Africa based chief geologist. One of the benefits of operating in Zambia is how quickly we can get on the ground and start exploring. This is in stark contrast to Canada.

During the quarter we signed Option Agreements to enter into farm-in agreements to acquire interests in the:

1. Katwaro Copper Project;
2. Jisanshi Copper Project; and
3. Kitumba Copper Project 27715.

Unfortunately, the Company was forced to amend the terms of the Kitumba Copper Project 27715, due to a ruling by ASX that the future contingent payments were too large relative to the Company's current market valuation and would trigger a Chapter 1&2 recompliance. As a consequence, we renegotiated the transaction and removed the three (3) contingent payments totalling US\$24m upon delineating a JORC Indicated & Measured Mineral Resource totalling 30m tonnes at 2.00% copper (using a 1% cut-off) and increased the free carry to 20% (from 10%).

With regards to the Company's Gorman Lithium Project, the Company is still working to understand the Sandy Lake First Nation's issues and to arrange a time to meet and hopefully settle those issues. As previously stated, all government approvals to carry out the Gorman exploration programme remain in place and we are working to receive our final First Nation approval.

Gorman is a key asset of the Company. With continued drilling and development success on our neighbour's property, Frontier Lithium (TSX.V.FL) with their PAK, Spark & Bolt lithium deposits we believe that Gorman's attractiveness grows stronger and possibly increases future interest to aggregate the mineralised corridor into one centralised mining and process facility, or for a third party to buy into a lithium rich part of Canada.

The Company also spent time negotiating the sale of the Black Hills Projects, which did not complete. We note that Iris Metals (ASX:IR1) continues to explore in the Black Hills with ground close to our acreage. We expect that their success may enhance the attractiveness of our properties. We will continue to pursue opportunities to maximise the value of our Black Hills Projects.

CORPORATE

Patriot Lithium Limited held cash reserves of approximately \$961,000 at 31 December 2024. In addition to the cash reserves of \$961,000 the Company has receivables of approximately CAD\$48k in relation to GST/HST and expects to receive co-contributions towards the Gorman exploration programme of approximately CAD\$160k.

For the purpose of Listing Rule 5.3.1, details of the Company's group exploration activities for the quarter, including any material developments or material changes in those activities, and a summary of the expenditure incurred on those activities is detailed above and below.

For the purpose of Listing Rule 5.3.2, the Company confirms that there were no mining production and development activities during the quarter by the Company or its subsidiaries.

Related Party Transactions

In accordance with ASX Listing Rules 4.7C.3 payments to related parties of the entity and their associates outlined in the Company's Appendix 5B for the quarter relate to Directors fees and rent.

Prospectus – Proposed Use of Funds

In accordance with ASX Listing Rule 5.3.4, the Company provides the following comparison of its actual expenditure on the individual items in the "use of funds" statement in its IPO Prospectus since the date of its admission on 7 December 2022, to ASX against the estimated expenditure on those items in the "use of funds" statement in the IPO Prospectus and an explanation of any material variances.

The material variances in exploration expenditure are the result of the re-allocation of resources to focus on the Gorman Lithium Project (included within new project identification and acquisition). The Company also completed an additional capital raise of \$2.5m (before costs) on 27 June 2024.
