Resouro Announces DTC Eligibility for Electronic Trading in the United States

Resouro Strategic Metals Inc. ([ASX: RAU](#); [TSX-V: RSM](#); [FSE: 8TX](#); [OTCQB: RSGOF](#)) ("**Resouro**" or the "**Company**") is pleased to announce that the Company's common shares are now eligible for electronic clearing and settlement in the United States through the Depository Trust Company ("**DTC**").

DTC Eligibility is expected to simplify the trading process and enhance liquidity of Resouro's shares for U.S. investors. As a subsidiary of the Depository Trust & Clearing Corporation ("**DTCC**"), DTC facilitates the electronic clearing and settlement of publicly traded securities in the United States. With this eligibility, the Company's shares can now be traded through a wider network of U.S. brokerage firms, enabling faster settlement and broader market access.

Commenting on achieving DTC eligibility for US investors, Resouro's Executive Chairman, Chris Eager, said:

"Securing DTC Eligibility marks a significant milestone for Resouro, as it streamlines trading for U.S. investors and broadens access to our shares across the U.S. market. This achievement supports our ongoing efforts to enhance liquidity, strengthen our investor base, and deliver long-term value for our shareholders. We are pleased to make it easier and more efficient for investors to participate in the Company's future growth."

DTC Eligibility represents an important development in the Company's efforts to increase visibility and accessibility within the U.S. capital markets.

This announcement has been authorized for release by the Board of Directors.

About the Company

Resouro is a Canadian incorporated mineral exploration and development company, listed on the ASX, TSXV, OTC and FSE, focused on the discovery and advancement of economic mineral projects in Brazil, including the Tiros Titanium-Rare Earths Project and the Novo Mundo Gold Project. The Tiros project has 28 mineral concessions totalling 497 km² located in the state of Minas Gerais, one of the best infrastructurally developed states of Brazil, 350 km from the state capital of Belo Horizonte. Resouro's Mineral Resource Estimate for the Tiros Project contains 165 million tonne of titanium dioxide and 5.5 million tonne of total rare earths oxides within a Measured and Indicated Resource of 1.4 billion tonne at 12% titanium dioxide and 4,000 ppm of total rare earth oxides.

DOMAIN	Category	Million Tonne	TiO ₂ %	TREO (ppm)	MREO (ppm)	REO/TREO rat

Forward-Looking Information

This news release contains certain "forward-looking information" within the meaning of applicable securities law. Forward-looking information is frequently characterized by words such as "plan", "expect", "project", "intend", "believe", "anticipate", "estimate" and other similar words, or statements that certain events or conditions "may" or "will" occur. Although we believe that the expectations reflected in the forward-looking information are reasonable, there can be no assurance that such expectations will prove to be correct. We cannot guarantee future results, performance or achievements. Consequently, there is no representation that the actual results achieved will be the same, in whole or in part, as those set out in the forward-looking information.

Forward-looking information is based on the opinions and estimates of management at the date the statements are made and are subject to a variety of risks and uncertainties and other factors that could cause actual events or results to differ materially from those anticipated in the forward-looking information. Some of the risks and other factors that could cause the results to differ materially from those expressed in the forward-looking information include, but are not limited to: general economic conditions in Canada and globally; industry conditions, including governmental regulation and environmental regulation; failure to obtain industry partner and other third party consents and approvals, if and when required; the need to obtain required approvals from regulatory authorities; stock market volatility; liabilities inherent in the mining industry; competition for, among other things, skilled personnel and supplies; incorrect assessments of the value of acquisitions; geological, technical, processing and transportation problems; changes in tax laws and incentive programs; failure to realize the anticipated benefits of acquisitions and dispositions; and the other factors. Readers are cautioned that this list of risk factors should not be construed as exhaustive.

The forward-looking information contained in this news release is expressly qualified by this cautionary statement. We undertake no duty to update any of the forward-looking information to conform such information to actual results or to changes in our expectations except as otherwise required by applicable securities legislation. Readers are cautioned not to place undue reliance on forward-looking information.

Neither the ASX, OTC, TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
