

APPROVED PROGRAM OF WORK (“POW”) UNLOCKS DRILLING AT ANDOVER SOUTH LITHIUM PROJECT

Highlights

- **Program of Work has been approved for tenements E47/4061 & E47/4062** for the Andover South Drilling campaign
- Approved PoW’s were the final requirement in order to commence with drilling over the Andover South project area
- Management anticipate awarding of drilling and earthmoving contractors imminently
- **Drilling operations anticipated to commence within two weeks** – allowing for mobilisation of drill rigs and completion of access preparations

Raiden Resources Limited (ASX: RDN DAX: YM4) (“Raiden” or “the Company”) is pleased to announce that it has received approvals for the PoW on tenement E47/4061 & E47/4062, which is the final approval required for commencement of drilling at the Andover South Lithium Project (E47/4061 & E47/4062).

Mr Dusko Ljubojevic, Managing Director of Raiden commented: *“With the administrative matters now completed, the entire Raiden team is eager to mobilise the drill rigs to Andover South as quickly as possible. We have made excellent progress in setting up the logistics and technical planning over the past months, which will allow the team to move into an aggressive drill testing campaign of these very exciting, high-grade pegmatite targets. We will be announcing the award of drilling and earth moving contracts shortly and will follow with the commencement of site preparations.”*

Final Approval and Planning

The Company has received the approval for the PoW's in regard to the planned activities on the **E47/4061 & E47/4062 tenements**. With this approval, there are no further administrative tasks outstanding and the Company can proceed with the drilling program over the Andover South project area (E47/4061 & E47/4062). The approved PoW's allow management to initiate a comprehensive drill campaign over the entire Andover South project, where high-grade pegmatites have been mapped out over a >4km strike extent².

Management are conducting final reviews and negotiations with drilling and earth-moving contractors, and anticipate to announce the award of these contracts imminently. Site access and drilling operations are anticipated to commence within two weeks.

These risks and uncertainties include, but are not limited to: (i) those

relating to the interpretation of drill results, the geology, grade and continuity of mineral deposits and conclusions of economic evaluations, (ii) risks relating to possible variations in reserves, grade, planned mining dilution and ore loss, or recovery rates and changes in project parameters as plans continue to be refined, (iii) the potential for delays in exploration or development activities or the completion of feasibility studies, (iv) risks related to commodity price and foreign exchange rate fluctuations, (v) risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals or in the completion of development or construction activities, and (vi) other risks and uncertainties related to the Company's prospects, properties and business strategy. Investors are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof, and the Company does not undertake any obligation to revise and disseminate forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of or non-occurrence of any events.

About Raiden Resources

Raiden Resources Limited (ASX:RDN / DAX:YM4) is a dual listed lithium, base metal—gold exploration Company focused on the Andover North-South, Mt Sholl and Arrow lithium projects. The Company also holds the rights to the advanced Mt Sholl nickel-copper-cobalt-PGE and the Arrow gold projects in the Pilbara region of Western Australia. In addition, the Company holds the rights to multiple projects in the emerging and prolific Western Tethyan metallogenic belt in Eastern Europe, where it has established a significant exploration footprint in Serbia and Bulgaria.

The Directors believe the Company is well positioned to unlock value from this exploration portfolio and deliver a significant mineral discovery.
