Resource Minerals International Ltd (Formerly known as Resource Mining Corporation Limited)

Directors' report 31 December 2025

The Directors present the financial report of the consolidated entity, consisting of Resource Minerals International Ltd (formerly known as Resource Mining Corporation Limited) (ASX: RMI) ("the Company") and its controlled entities ("**Group**"), for the half-year ended 31 December 2025.

Directors

The names of the Company's Directors in office during the half-year and until the date of this report are as below. Directors were in the office for the entire period unless otherwise stated:

Asimwe Kabunga
Trevor Matthews
Noel O'Brien

Executive Chairman
Non-Executive Director
Non-Executive Technical Director

Company Secretary

Kellie Davis

Review of operations

The loss for the Group after providing for income tax and non-controlling interest amounted to \$1,006,344 (31 December 2024: \$809,184).

Saudi Arabia

On 21 August 2025, the Company announced it had exercised the RMI Option to proceed with the acquisition of AuKing Mining Limited's (ASX:AKN) ("AuKing") rights, obligations and interests in its Joint Venture ("JV") arrangements that have been established in Saudi Arabia. No consideration was payable by RMI to AuKing in respect of the exercise of the RMI Option, other than RMI's agreement to assume all AuKing's obligations under the Saudi JV and to assist the joint venture partner Barg Alsaman Mining Company ("BSMC") to secure the Shaib Marqan licence (subsequently granted) and the commencement of exploration activities at the Wadi Salamah project.

Wadi Salamah and Shaib Marqan Projects

Both projects are granted Exploration Licences ("EL") located in central Saudi Arabia. Shaib Marqan is situated around 240km south-west of Riyadh and is easily accessible via sealed roads and minor unsealed roads. The EL area is 91.8km². Wadi Salamah is located approximately 320 kilometres west-south-west of Riyadh, and 150 kilometres west of the Shaib Marqan project. The EL area is 98.7 km²

Figure 1: Project Location Map

Shaib Marqan Rock Chip Results

On 13 October 2025 the Company announced that a total of eighty-seven (87) rock chips were collected from the southern-central portion of the Shaib Marqan project. This area was targeted as the previous samples collected in 2024 and reported in January 2025, included high grade gold assay results¹.

Field inspection conducted by RMI geologists observed abundant quartz veins, stockworks and shear zones, many with visible sulphide minerals, and several small-scale ancient mine workings on quartz veins and more recent alluvial mining in the wadi systems. Strike lengths and widths of veins were variable ranging from isolated quartz “blows” to veins in shear zones extending several hundred metres. The alluvial mining of the wadis is extensive in some areas.

Sample results greater than 1.0 g/t gold (Au) are listed in Table 1². In addition to these higher grade results, a further 13 samples recorded anomalous gold grades between 0.20 g/t and 0.85 g/t Au indicating widespread gold anomalism in outcrop.

Table 1: Shaib Marqan March 2025 Rock Chip Results >1g/t Au

Sample ID	Au ppm	Description
SM149	40.35	Quartz vein, laminated, 1.5m wide
SM177	9.62	Quartz vein, Fe stain, gossanous boxwork
SM173	7.30	Quartz vein boudins in shear, Fe stain
SM124	5.72	Quartz vein, Fe stain
SM171	4.52	Schist with quartz stringers, 1m channel sample
SM139	4.18	Quartz vein - massive
SM150	4.13	Schist hanging wall and foot wall composite sample to SM149
SM148	3.30	Quartz vein, laminated, Fe stain
SM157	2.36	Quartz vein, Fe stain
SM181	2.01	Quartz stockwork veins, Fe stain, 1.5m x 1.0 m panel sample
SM172	1.76	Schist, gossanous Fe stain 1.0m channel sample
SM165	1.68	Schist, quartz veinlets, trace pyrite, 1.0m channel sample
SM125	1.52	Quartz veins in shear
SM112	1.52	Schist, chlorite sheared trace pyrite.
SM136	1.36	Schist, quartz veinlets, trace pyrite, 0.6m channel sample
SM178	1.08	Wall rock quartz stringers panel sample.
SM121	1.04	Wall rock quartz stringers panel sample.
SM111	1.02	Quartz vein in ancient working, siderite, trace oxidised sulphide

Figure 2 shows the distribution of results on a satellite image which highlights the limited area covered by the reconnaissance work compared to the overall licence area.

Sampling was not exhaustive with many outcropping veins not sampled in the time available. Further sampling will be conducted as part of the next phase of exploration.

¹ ASX announcement 13 January 2025

² ASX announcement 13 October 2025

Figure 2: Shaib Marqan rock chip gold assay result locations

The results indicate endowment of gold is widespread in the area sampled hosted in quartz veins and shear zones often with abundant quartz veinlets. Weathered sulphide minerals with cubic pyrite visible as iron oxide pseudomorphs and gossanous boxwork occur in schists often in contact with quartz veins show gold distribution is in both veins and associated host rock. During the quarter follow up exploration was performed via detailed magnetic surveys to provide data for targeting drilling.

Wadi Salamah Rock Chip Results

Rock chip samples were collected in two locations named WS South and WS Central. The WS South area provided multiple samples with elevated gold and silver grades. Figure 33 shows the locations of the two areas of sampling within the Wadi Salamah project area.

Figure 3: Wadi Salamah project area and rock chip sample locations

The WS South samples were collected along a shear zone over a strike length of over 700 metres of outcrop. The shear progresses under the sand of a wadi at the southern extent of sampling. The northern extent continues beyond the lease boundary where sampling was terminated. The shear is subvertical and has a minimum observed width of approximately 10 metres and extends to over 30 metres wide in the central and southern portion of the sampled strike length.

Most samples from WS South are from quartz veins from within the shear zone. These veins are generally flat dipping and appear as sheeted veins or a stockwork within the shear.

Parallel to the shear are some massive quartz veins several metres thick which are also mineralised with gold and silver as seen in samples WS112 and WS116,

Sample ID	Au ppm	Ag ppm	Description
WS107	10.66	40.4	Quartz vein, trace visible sulphide
WS104	7.56	19.0	Quartz vein, laminated, iron stain
WS110	5.50	18.0	Quartz vein, microcrystalline (sugary) texture, iron stain
WS112	4.27	38.9	Quartz vein massive 2m thick
WS103	3.09	15.9	Quartz vein, laminated
WS116	2.73	37.3	Quartz vein massive 1.5 metres thick
WS106	2.30	5.1	Quartz vein trace visible sulphide
WS108	1.83	1.7	Quartz vein trace visible sulphide
WS105	1.78	1.8	Quartz vein, iron stain

Figure 4: Wadi Salamah South rock chip sample gold and silver results in shear zone sampled over 700 metres strike length

Magnetic Survey to identify high-priority drill targets

On 6 November 2025 the Company commenced a ground magnetic survey at its Shaib Marqan gold project and its Wadi Salamah gold–silver project. The program is designed to provide detailed structural and lithological data to refine drill-target definition for upcoming exploration campaigns. The work is being conducted in collaboration with CNNC Geological Science and Technology Co., Ltd, part of the China National Nuclear Corporation (CNNC).

The survey represents the first detailed exploration phase following RMI's recent confirmation of high-grade gold and silver mineralisation from rock-chip sampling across both projects³. Collected survey data will be integrated with existing geological information to map subsurface structures and target mineralised zones for detailed mapping and future drilling.

Photo 1: Field team conducting ground magnetic survey using high-resolution magnetometer equipment (Wadi Salamah project)

By 10 December 2025, field crews had completed all magnetic survey lines in the Wadi Salamah project, achieving a total of 1,010 kilometres of coverage, and have commenced data processing and analysis. CNNC technical teams are preparing the combined raw and processed datasets for delivery in the coming weeks.

With the Wadi Salamah ground survey field work completed, field teams mobilised to conduct ground survey work in the Shaib Marqan project. This marks the next stage of the systematic exploration program. The magnetic survey is designed to define structural controls, lithological boundaries, and potential mineralised corridors, supporting high priority drill target generation across both projects. This work is being integrated with earlier geological mapping and rock chip sampling that confirmed strong gold and gold-silver mineralisation across the project areas.

The results from the Wadi Salamah and Shaib Marqan ground survey programs will be integrated with existing datasets to refine structural interpretations and guide drill target definition for programs planned for early 2026.

³ ASX announcement 13 October 2025

Photo 2: Ground survey teams in the field at Wadi Salamah

Tanzania

Mpanda Project

During the six months to December 2025, the Company progressed the drone magnetic survey over selected areas of the Mpanda copper gold Project. The Company conducting the survey has recently mobilised to site and will complete the programme in January 2026 with results announced once data interpretation and analysis is completed. This information combined with previous rock chip and some shallow drilling exploration results will be used to refine high-priority targets for upcoming mapping and drilling.

The Company undertook limited exploration activities on the Tanzanian nickel projects due to the current nickel market conditions.

Finland

With improvements in the lithium market and lithium prices, at the end of 2025 the Company commenced a shallow drilling programme at the granted Köyhäjoki exploration permit. The programme is targeting 123 holes for 720 metres drilled, although weather conditions have caused material delays to the work program. Further information to be announced in the March 2026 quarter.

Corporate

At the General Meeting held on 30 July 2025, a special resolution was passed by Shareholders to change the name of the Company from Resource Mining Corporation Limited to Resource Minerals International Ltd, with this process completed on 7 August 2025⁴.

On 31 July 2025, the Company entered into a funding agreement with RiverFort Global Capital Ltd ("RiverFort") for the provision of funding of up to A\$5 million by the issue of convertible securities ("Agreement"). The first drawdown under the

⁴ ASX announcement 7 August 2025

Resource Minerals International Ltd (Formerly known as Resource Mining Corporation Limited)
Directors' report
31 December 2025

Agreement of A\$1.3 million (before fees) was drawn on 31 July 2025, and 1.3 million convertible notes and 10,833,333 unlisted options exercisable at \$0.03 each and expiring on 31 July 2027, were issued to RiverFort on 1 August 2025.

Prior to the end of the half-year ended 31 December 2025, the Company redeemed the remaining convertible securities on issue to RiverFort to become debt free. The Agreement with RiverFort remains available for future funding requirements.

In December 2025, the Company completed a successful \$1 million placement to existing shareholders and new sophisticated investors at \$0.025 per share ("Placement"). Funds raised from the Placement were used towards:

- Exploration campaign at the Saudi Arabian projects,
- Repurchase of the outstanding RiverFort convertible securities,
- Geophysics and further exploration at the Mpanda Copper-Gold project in Tanzania,
- Exploration drilling at the Finland lithium project, and
- General working capital and Placement costs⁵.

Change in capital structure

On 7 August 2025 the Company issued 26,190,476 Related Party Placement Shares at \$0.021 per share and 6,717,460 shares in lieu of Director fees at a deemed price of \$0.021 per share, as approved by shareholders at the General Meeting held on 30 July 2025.

The Company made a first drawdown under the RiverFort Funding Agreement on 31 July 2025 for \$1.3 million. On 1 August 2025 the Company issued 1,300,000 convertible securities convertible at \$0.021 and expiring 31 July 2026, and 10,833,333 unlisted options exercisable at \$0.03 each and expiring on 31 July 2027, pursuant to the Agreement. Subsequently on 14 October 2025 the Company issued 13,857,143 fully paid ordinary shares to RiverFort on conversion of 200,000 convertible notes at a conversion price of \$0.021 per share. On 11 December 2025 the Company issued 28,571,429 fully paid ordinary shares to RiverFort on conversion of 600,000 convertible securities at a conversion price of \$0.021 per share. Prior to the end of the half-year ended 31 December 2025, the Company redeemed the remaining 500,000 convertible securities on issue to RiverFort.

On 23 December 2025 the Company issued 40,000,000 fully paid ordinary shares at \$0.025 per share as part of a Placement, and 2,320,000 fully paid ordinary shares at \$0.025 per share in satisfaction of a portion of the consulting fees on the Placement.

Matters subsequent to the end of the financial half-year

No matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is included in this half-year financial report.

Exploration Results

Where the Company references Exploration results and targets previously announced, it confirms that it is not aware of any new information or data that materially affects the information included in those announcements and all material assumptions and technical parameters underpinning the resource estimates with those announcements continue to apply and have not materially changed.

DECLARATION OF INDEPENDENCE BY DAVE ANDREWS TO THE DIRECTORS OF RESOURCE MINERALS INTERNATIONAL LTD

As lead auditor for the review of Resource Minerals International Ltd for the half-year ended 31 December 2025. I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
2. No contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of Resource Minerals International Ltd and the entities it controlled during the period.

Resource Minerals International Ltd (Formerly known as Resource Mining Corporation Limited)
Notes to the consolidated financial statements
31 December 2025

Note 1. Statement of material accounting policies

Basis of Preparation

This half-year financial report for the six months ended 31 December 2025 has been prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001 and was authorised for issue in accordance with a resolution of the directors on 13 March 2026.

These half-year financial reports do not include all the notes of the type normally included in annual financial reports and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Company as the full financial reports.

The half-year financial report should be read in conjunction with the annual financial report for the year ended 30 June 2025 and any public announcements made by Resource Minerals International Ltd (formerly known as Resource Mining Corporation Limited) during the half-year reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001. For the purpose of preparing the half-year financial statements, the half-year has been treated as a discrete reporting period.

The financial report is presented in Australian dollars, which is the Company's functional and presentation currency.

Resource Minerals International Ltd (formerly known as Resource Mining Corporation Limited) is a for-profit entity for the purpose of preparing the half-year financial statements.

Statement of Compliance

These half-year financial statements comply with Australian Accounting Standards and International Financial Reporting Standards (IFRS).

Adoption of new and revised standards

Early adoption of accounting standards

The Group has not elected to apply any pronouncements before their operative date in the annual reporting year beginning 1 July 2025.

New and amended standards not yet adopted by the Group

There are no material new or amended standards not yet adopted by the Group.

Resource Minerals International Ltd (Formerly known as Resource Mining Corporation Limited)
Notes to the consolidated financial statements
31 December 2025

Note 1. Statement of material accounting policies (continued)

Going Concern

The financial report has been prepared on a going concern basis, which assumes continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the half year ended 31 December 2025 the Group recorded a loss of \$1,006,344 (31 December 2024 loss \$809,184) and had net cash outflows from operating and investing activities of \$1,666,891 (31 December 2024 \$412,229). At 31 December 2025, the Group had a cash balance of \$557,681 (31 December 2024 \$214,975).

The ability of the Group to continue as a going concern is dependent on the realisation of value of the Group's projects and the future successful raising of funding through equity or other available forms of funding. These conditions indicate a material uncertainty that may cast a significant doubt about the Group's ability to continue as a going concern.

For the Group to be able to continue to carry out its exploration activity and to have sufficient working capital, it is dependent on the financial support from its shareholders to fund its working capital requirements and/or successfully raise capital. The Directors are satisfied they will be able to raise additional working capital as required and thus it is appropriate to prepare the financial statements on a going concern basis. In arriving at this position, the Directors have considered the following matters:

- The Group has current unused financing facilities of \$5 million available, via a funding agreement with RiverFort Global Capital Ltd which expires on 31 July 2028;
- Trade creditors and accrued expenditure at 31 December 2025 was \$499,023 (31 December 2024 \$1,180,228). The company expects it will be able to manage all trade creditors, accrued expenditure and other creditors on agreed terms of settlement;
- The Company expects to raise capital in the short term through additional capital; and
- There is an ability to reduce expenditure where required, the Directors would undertake steps to scale down its operations and reduce its discretionary expenditure in order to curtail cash outflows.

The Directors have assessed the cash flow requirements for the 12 months period from the date of approval of the financial statements and its impact on the Group and believe that by adopting the above course of action, there will be sufficient funds to meet the Group's working capital requirements.

Should the Group not be able to continue as a going concern, it may be required to realise its assets and discharge its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. The financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or liabilities that might be necessary should the Group not continue as a going concern.

The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the Group.

The following Accounting Standards and Interpretations are most relevant to the Group:

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transactions costs. They are subsequently measured at amortised cost using the effective interest method.

Resource Minerals International Ltd (Formerly known as Resource Mining Corporation Limited)

	10,321,829	9,404,667

Resource Minerals International Ltd (Formerly known as Resource Mining Corporation Limited)
Notes to the consolidated financial statements
31 December 2025

Note 4. Non-current assets - exploration and evaluation (continued)

On 21 August 2025, the Company announced it had exercised the RMI Option to proceed with the acquisition of AuKing Mining Limited's (ASX:AKN) ("AuKing") rights, obligations and interests in its Joint Venture ("JV") arrangements that have been established in Saudi Arabia. No consideration was payable by RMI to AuKing in respect of the exercise of the RMI Option, other than RMI's agreement to assume all AuKing's obligations under the Saudi JV and to assist the joint venture partner Barg Alsaman Mining Company ("BSMC") to secure the Shaib Marqan licence, which was granted during the half year ended 31 December 2025, and the commencement of exploration activities at the Wadi Salamah project.

Exploration and evaluation costs are carried forward where right of tenure of the area of interest is current and they are expected to be recouped through sale or successful development and exploitation of the area of interest, or, where exploration and evaluation activities in the area of interest have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Note 5. Current liabilities - trade and other payables

	Consolidated	
	31 Dec 2025	30 Jun 2025
	\$	\$
Trade payables	396,408	430,330
Related party liabilities	52,894	498,355
Other payables and accruals	49,721	74,167
	<u>499,023</u>	<u>1,002,852</u>

Note 6. Current liabilities - non-interest bearing liabilities

	Consolidated	
	31 Dec 2025	30 Jun 2025
	\$	\$
Unsecured loans – Leticia Kabunga (A)	13,801	13,801
Unsecured loans - Mashapo Minerals Ltd (B)	66,026	66,026
Unsecured loans - Rohan Patnaik (C)	7,238	7,370
	<u>87,065</u>	<u>87,197</u>

A) Unsecured loans due to Leticia Kabunga

The unsecured loan is an A\$13,801 facility provided by Leticia Kabunga (the 1% shareholder of subsidiary Eastern Nickel Tanzania Limited). This loan is unsecured, interest free with no set repayment date.

B) Unsecured loans due to Mashapo Minerals Ltd.

The unsecured loan is a A\$66,026 facility provided by Mashapo Minerals Ltd. This loan is unsecured, interest free with no set repayment date. The loan facility was inherited from the 75% acquisition of Vancouver Mineral Resources Limited on 4 February 2024 as part of the agreement for being issued 75% shareholding in the Company.

Resource Mining Corporation Limited
Notes to the consolidated financial statements
31 December 2025

Note 6. Current liabilities - non-interest bearing liabilities (continued)

C) Unsecured loans due to Rohan Patnaik

The unsecured loan is a A\$7,238 facility provided by Rohan Patnaik (former shareholder of Element 92 Pte Limited, a Singaporean subsidiary acquired from Ropa Investments (Gibraltar) Limited). This loan is unsecured, interest free with no set repayment date. The loan facility was inherited on acquisition of Element 92 and relates to company secretary expenses previously funded by Mr Patnaik.

Note 7. Equity - issued capital

	Six months ended		Year ended	
	31 Dec 2025	31 Dec 2025	30 Jun 2025	30 Jun 2025
	Shares	\$	Shares	\$
Issued capital	852,109,864	89,538,076	734,453,356	86,978,044

Note 8. Equity - reserves

	Consolidated	
	31 Dec 2025	30 Jun 2025
	\$	\$
Foreign currency reserve	(30,555)	(71,790)
Capital contributions reserve	88,934	88,933
Share-based payments reserve	107,801	27,133
	166,180	44,276

Foreign currency reserve

The reserve is used to recognise exchange differences arising from the translation of the financial statements of foreign operations to Australian dollars. It is also used to recognise gains and losses on hedges of the net investments in foreign operations.

A summary of the foreign currency reserve is below:

	Consolidated	
	31 Dec 2025	30 Jun 2025
	\$	\$
Foreign currency reserve		
Balance at the beginning of the period	(71,790)	(206,184)
Currency translation differences arising during the period	41,235	134,394
Balance at the closing of the period	(30,555)	(71,790)

Share-based payments reserve

The reserve is used to recognise the value of equity benefits provided to employees and directors as part of their remuneration, and other parties as part of their compensation for services.

A summary of the share-based payment reserve is below:

Resource Minerals International Ltd (Formerly known as Resource Mining Corporation Limited)
Notes to the consolidated financial statements
31 December 2025

Note 8. Equity - reserves (continued)

	Consolidated	
	31 Dec 2025	30 Jun 2025
	\$	\$
Share based payments reserve		
Balance at the beginning of the period	27,134	4,460,675
Performance rights expensed	-	239,828
Issue of options - RiverFort	80,669	27,133
Expired performance rights	-	(4,700,502)
	<u>107,803</u>	<u>27,134</u>
Balance at the closing of the period		

During the interim period, the Company made a drawdown on financing from RiverFort. As part of the drawdown, 10,833,333 options were issued to RiverFort for the value of A\$80,669.

Performance rights

During the interim period, nil performance rights were on issue. In the prior period on 31 December 2024 35,000,000 performance rights expired.

Capital contribution reserve

The capital contributions reserve is used to record the fair value adjustments of loans from shareholders who have provided the Company interest free loans and advances.

Note 9. Share-based payments

Total costs and share issue costs arising from share-based payment transactions recognised during the half year were as follows:

	Consolidated	
	31 Dec 2025	31 Dec 2024
	\$	\$
Recognised share-based payments costs		
Issue of options - RiverFort	80,669	27,133
Performance rights expensed	-	239,826
	<u>80,669</u>	<u>266,959</u>
Total expense and issue costs arising from share-based payment transactions		

Performance rights

During the interim period, there were nil performance rights expensed (31 December 2024: \$239,826).

Note 10. Commitments

Mineral Tenement Commitments

Tanzania

In order to maintain current rights of tenure to mining tenements, the Group has exploration and evaluation expenditure obligations up until the expiry of those licences. The following stated obligations are not provided for in the financial statements and represent a commitment of the Group for Tanzania:

Resource Minerals International Ltd (Formerly known as Resource Mining Corporation Limited)

Resource Minerals International Ltd (Formerly known as Resource Mining Corporation Limited)

Directors' declaration

31 December 2025

1. In the opinion of the directors:

a) The financial statements and notes of the Company for the half-year ended 31 December 2025 are in accordance with the Corporations Act 2001, including:

i) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and

ii) giving a true and fair view of the Company's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and

b) there are reasonable grounds to conclude that at the time of the directors' declaration, the entity will be able to pay its debts as and when they fall due.

2. This declaration has been made after receiving the declarations required to be made to the directors in accordance with Section 303(5)(a) of the Corporations Act 2001 for the half-year ended 31 December 2025.

This declaration is signed in accordance with a resolution of the Board of Directors.

Asimwe Kabunga
Executive Chairman

13 March 2026

INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of Resource Minerals International Ltd

Report on the Half-Year Financial Report

Conclusion

We have reviewed the half-year financial report of Resource Minerals International Ltd (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 31 December 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, material accounting policy information and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001* including:

- i. Giving a true and fair view of the Group's financial position as at 31 December 2025 and of its financial performance for the half-year ended on that date; and
- ii. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be the same terms if given to the directors as at the time of this auditor's review report.

Material uncertainty relating to going concern

We draw attention to Note 1 in the financial report which describes the events and/or conditions which give rise to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern and therefore the Group may be unable to realise its assets and discharge its liabilities in the normal course of business. Our conclusion is not modified in respect of this matter.

Responsibility of the directors for the financial report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is true and fair and is free from material misstatement, whether due to fraud or error.

Auditor's responsibility for the review of the financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting and the Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

BDO Audit Pty Ltd

Dave Andrews

Director

Perth, 13 March 2026
