Disclaimer and Forward-Looking Statements

COMPETENT PERSON’S STATEMENTS

Exploration results referred to in this presentation have been previously reported by Titan in ASX announcements. Titan confirms that it is not aware of any new information or data that materially affects the information included in that announcement. The Competent Person for the presentation was Melanie Leighton. The Company confirms that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original market announcements.

The information in the presentation that relates to the Estimation and Reporting of the Dynasty Mineral Resources has been compiled and reviewed by Ms Elizabeth Haren of Haren Consulting Pty Ltd who is an independent consultant to Titan Minerals Limited and is a current Member and Chartered Professional of the Australasian Institute of Mining and Metallurgy and Member of the Australian Institute of Geoscientists. Ms Haren has sufficient experience, which is relevant to the style of mineralisation and type of deposit under consideration and to the activities undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (The JORC Code). Ms Haren consents to the inclusion in this report of the matters based on her information in the form and context in which it appears.

Dynasty Project	Indicated					Inferred					Total				
	Tonnes (M)	Grade (g/t)		Contained Metal (Moz)		Tonnes (M)	Grade (g/t)		Contained Metal (Moz)		Tonnes (M)	Grade (g/t)		Contained Metal (Moz)

Notes:
1.Reported ≥ 0.5 g/t Au. 2.Some rounding errors may be present. 3.Tables are rounded as the final steps. Totals are not calculated after rounding. 4.M – million. Oz- ounce. g/t – grams per tonne.

COPPER EQUIVALENT (CU EQ) VALUES – REQUIREMENTS UNDER THE JORC CODE

Assumed commodity prices for the calculation of Copper Equivalent (Cu Eq) is Cu US\$3.00/lb, Au US\$1,700/oz, Mo US\$14/lb and Ag US\$20/oz. Recoveries are assumed from similar deposits: Cu = 85%, Au = 65%, Ag = 65%, Mo = 80%. Cu Eq (%) was calculated using the following formula: ((Cu% x Cu price 1% per tonne x Cu recovery) + (Au(g/t) x Au price per g/t x Au recovery) + (Mo ppm x Mo price per g/t x Mo recovery) + Ag ppm x Ag price per g/t x Ag recovery)) / (Cu price 1% per tonne x Cu recovery). Cu Eq (%) = Cu (%) + (0.54 x Au (g/t)) + (0.00037 x Mo (ppm)) + (0.0063 x Ag (ppm)). TTM confirms that it is the Company’s opinion that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

SUMMARY INFORMATION

This document contains a summary of information about Titan and its activities that is current as at the date of this document. The information in this document is general in nature and does not purport to be complete or to contain all the information which a prospective investor may require in evaluating a possible investment in Titan or that would be required in a prospectus or a product disclosure statement prepared in accordance with the Corporations Act 2001 (Cth) (Corporations Act).

NOT AN OFFER OF SECURITIES

This presentation has been prepared by Titan Minerals Limited (“Titan” or the “Company”) and is provided for informational purposes only. This presentation does not constitute or contain an offer, invitation, solicitation or recommendation with respect to the purchase or sale of any securities of Titan. This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in any jurisdiction (in particular, the United States), or a securities recommendation. This presentation is not a prospectus, product disclosure statement or other offering document under Australian law or any other law and will not be lodged with the Australian Securities and Investments Commission.

NOT FINANCIAL PRODUCT ADVICE

This presentation does not constitute financial product advice and does not consider any investor’s personal investment objectives, taxation situation, financial situation or needs. This presentation consists purely of factual information and does not involve or imply a recommendation of a statement of opinion in respect of whether to buy, sell or hold a financial product. An investment in Titan or Core is considered to be speculative in nature. Before making any investment decision in connection with any acquisition of securities, investors should consult their own legal, tax and/or financial advisers in relation to the information in, and action taken on the basis of, this presentation.

NO LIABILITY

To the extent permitted by law, Titan makes no guarantee representation or warranty express or implied as to the accuracy, reliability, correctness, completeness or adequacy of any statements, estimates, options, conclusions or other information contained in this presentation. To the maximum extent permitted by law, Titan and each of its affiliates and its directors, officers, employees, associates, advisers and agents expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of or reliance on information contained in this presentation including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions, forecasts, reports or other matters, express or implied, contained in, arising out of or derived from, or for omissions from, this presentation including, without limitation, any financial information, any estimates or projections and any other financial information derived therefrom. Statements in this presentation are made only as of the date of this presentation unless otherwise stated and the information in this presentation remains subject to change without notice. To the extent permitted by law, no responsibility or liability is assumed by Titan or any of its affiliates and its directors, officers, employees, associates, advisers and agents for updating any information in this presentation or to inform any recipient of any new or more accurate information or any errors or mis-descriptions of which Titan and any of its affiliates or advisers may become aware.

FORWARD LOOKING STATEMENTS

Certain information in this document refers to the intentions of Titan, but these are not intended to be forecasts, forward looking statements or statements about the future matters for the purposes of the Corporations Act or any other applicable law. The occurrence of the events in the future are subject to risk, uncertainties and other actions that may cause Titan’s actual results, performance or achievements to differ from those referred to in this document. Accordingly, Titan and its affiliates and their directors, officers, employees and agents do not give any assurance or guarantee that the occurrence of these events referred to in the document will actually occur as contemplated.

Statements contained in this document, including but not limited to those regarding the possible or assumed future costs, performance, dividends, returns, revenue, exchange rates, potential growth of Titan, industry growth or other projections and any estimated company earnings are or may be forward looking statements. Forward-looking statements can generally be identified by the use of words such as ‘project’, ‘foresee’, ‘plan’, ‘expect’, ‘aim’, ‘intend’, ‘anticipate’, ‘believe’, ‘estimate’, ‘may’, ‘should’, ‘will’ or similar expressions. These statements relate to future events and expectations and as such involve known and unknown risks and significant uncertainties, many of which are outside the control of Titan. Actual results, performance, actions and developments of Titan may differ materially from those expressed or implied by the forward-looking statements in this document.

Such forward-looking statements speak only as of the date of this document. There can be no assurance that actual outcomes will not differ materially from these statements. To the maximum extent permitted by law, Titan and any of its affiliates and their directors, officers, employees, agents, associates and advisers: disclaim any obligations or undertaking to release any updates or revisions to the information to reflect any change in expectations or assumptions; do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).

ACCEPTANCE

By attending an investor presentation or briefing, or accepting, accessing or reviewing this document you acknowledge and agree to the “Disclaimer” as set out above.

AUTHORISATION

Released with the authority of the board of Titan Minerals Ltd.

Titan Investment Proposition

Unlocking the value of world class gold and copper assets

Large Scale Resource at Dynasty-
3.1 Moz Gold & 22 Moz Silver

Ecuador- An emerging Tier 1 mining jurisdiction

Strong Management & Technical Capability

World-Class Gold-Copper Projects-
meaningful exposure to large-scale gold and copper

Significant Potential for Rapid Resource Growth & New Discovery

Social License to Operate- strong community engagement and support

Potential Tier 1 Projects- Resource Growth and Exploration Upside

Corporate Snapshot

MELANIE LEIGHTON
CHIEF EXECUTIVE OFFICER
Geologist & Business Master

20 years' experience in mining, with considerable experience in Latin America. Held senior and executive management roles with Hot Chili Ltd and Harmony Gold. Non-Executive director for ASX listed companies GBR and IND.

PETER COOK
NON- EXEC CHAIRMAN
Geologist & Mineral Economist

+35 years' experience in exploration, mining and corporate management. Founded and served as Managing Director/ Chairman for many successful mining and exploration companies.

MATTHEW CARR
EXECUTIVE DIRECTOR
Entrepreneur & Project Developer

Experienced company director, founder of Urban Capital Group, a private equity firm with a focus on property backed investment and security.

BARRY BOURNE
NON-EXEC DIRECTOR
Geologist and Geophysicist

Principal Consultant at Terra Resources, specialising in exploration targeting. Previously held senior and management roles with Barrick Gold and Homestake Gold.

Shareholders

Titan Management Team

PABLO MORELLI
EXPLORATION MANAGER

Geologist with +15 years' experience in epithermal and porphyry systems. Recently worked on the Cerro Casale and Caspiche copper-gold projects in Chile, a JV between Newmont & Barrick Gold. Previously held roles with Barrick, Newmont, Kinross and Rio Tinto working in northern and central Chile, and Mexico.

CECILIA PEÑAHERRERA
CSR MANAGER

25 years' experience in community relations, land negotiation and acquisition, population resettlement, establishment of community development plans, compensation policies, management of social conflicts, which has allowed her to generate important strategic alliances with communities, authorities and local governments.

FERNANDO INCA
OPERATIONS MANAGER

Civil engineer with 14 years' experience in project management, public procurement, geotechnical engineering. He has worked in public and private companies in design, construction and supervision of hydroelectric projects, metal structures and tunnels in South America.

KATHY SKEAD
DATABASE MANAGER

Experienced GIS Specialist and Spatial Data Scientist with a demonstrated history of working in the geoscience industry. Master of Applied Science in Spatial Analysis for Public Health from Johns Hopkins University.

JOHANNA YUNGA
ENVIRONMENTAL MANAGER

Chemical engineer, with a master's degree in environmental management and a specialization in mining safety. Experience in the application of environmental regulations for Mining Operations.

Key Consultants

MIKE SKEAD
CHIEF TECHNICAL ADVISOR
Ex. Gold Corp, Randgold,
Newmont

FREDDY VILLAO
LEGAL COUNSEL &
GOVERNMENT AFFAIRS
ADVISOR

Ecuadorian Government Supportive of Mining

Emerging Tier 1 mining jurisdiction

Government supports responsible mining, considered critical to Ecuador's economic revitalization

New president elected 15 Oct 2023 who has vowed "to return peace to the country, to give education to the youth, to provide employment to the many people who are seeking it"

Mining Investment Attractiveness Index improved from 45 (2015) to 69 (2022)¹

Lowest effective tax rates, low inflation, US economy and fastest permitting in Latam

Mining and exploration **contributing significantly to taxes, employment, infrastructure and communities**, currently 1% GDP, targeting 10-12%

Several major projects advancing through development and into production, with **2 major mines now in full production**

1. Fraser Institute Annual Survey of Mining Companies 2022

Recent government agreements in support of mining

Mining Investment Growing Momentum

Investment in new jurisdictions to meet future metals supply

Foreign investment in Ecuador over recent years

The Projects

Large-scale, well located, gold-copper projects in Tier 1 jurisdiction

Dynasty Gold Project (100%, 139km²)

- Substantial Mineral Resource of **3.12Moz gold and 22Moz silver** established
- Large epithermal gold district, opportunity to substantially grow resources

Linderos Project (100%, 143km²)

- Porphyry copper and epithermal gold-silver systems confirmed by drilling

Copper Duke Project (100%, 131km²)

- Evidence for epithermal gold and large-scale porphyry copper systems in geophysics, surface mapping and geochemistry

Copper Field Project (100%, 65km²)

- Early-stage, evidence for precious and base metal epithermal systems

Dynasty Gold Project

Substantial resource with potential to rapidly grow

- 9km epithermal vein corridor hosting substantial resource of **3.12 Moz gold and 22 Moz silver**
- High-grade component of **17.3Mt @ 3.77 g/t Au, 24.0g/t Ag 2.09 Moz gold and 13.33 Moz silver**
- **More than half Mineral Resources (1.67Moz) contained within top 100 metres**
- Preliminary optimisation studies indicate **robust economics at 0.5 g/t Au cut-off**
- Significant potential to **grow resources and upgrade classification** through moderate drilling and geological workstreams

Oblique view looking north displaying Mineral Resource blocks coloured by gold

Dynasty Epithermal Footprint Expanded

Resource growth drilling underway

- Surface mapping and geochemistry has **expanded epithermal gold mineralisation footprint** well beyond currently defined resources
- Soil geochemistry has **highlighted new high priority areas** exhibiting large-scale coincident gold- silver- arsenic- antimony anomalies
- Presence of elevated antimony suggest **strong depth potential**, implying mineralisation at surface is at a high level in the mineral system
- Papayal and Trapichillo prospects exhibit **extremely high gold and silver grades**, albeit low tonnes, due to sparse drilling
- Excellent opportunity to grow **high grade, high margin gold** resources

Cerro Verde Interpreted Geology, Rock Chips, Resource Wireframes and Expanded Epithermal Footprint

Dynasty Depth Extensions Confirmed

Depth extensions open along 9km epithermal system

- Majority of Dynasty vein system **drilled to less than 200m**
- Substantial depth extensions to epithermal gold system confirmed** at Brecha-Comanche, Cerro Verde prospect
- Brecha-Comanche mineralisation defined by drilling to **+350m below surface, and still remains open**
- Potential to add substantial resources** by targeting and delineating depth extensions across 9-kilometre vein system

Brecha-Comanche Cross Section with Interpreted Epithermal Vein Mineralisation

Linderos Project

Pipeline of compelling porphyry and epithermal targets

- **Substantial porphyry copper system confirmed** by drilling from surface at Copper Ridge prospect
- **High grade epithermal gold system confirmed** by drilling from shallow depths at Meseta Gold prospect
- Exploration focus on defining further high grade copper porphyry and epithermal gold mineralisation
- Soil geochemistry indicates presence of multiple **porphyry copper and epithermal gold** systems across the project
- **Pipeline of high conviction targets** to feature in forthcoming exploration work programs

Linderos Project Overview showing magnetics, soil geochemistry (molybdenum) and targets

Linderos Project

2km chargeability halo highlights large-scale porphyry footprint

- **Substantial porphyry copper system confirmed** by drilling from surface to 500m at Copper Ridge, **mineralisation remains open in all directions**
- Significant results include **308m @ 0.4% Cu Eq from 54m**, with a higher-grade intercept of **76m @ 0.5% Cu Eq from 132m**
- **High grade epithermal gold system confirmed** by drilling from shallow depths at Meseta Gold, **mineralisation remains open.**
- Significant results include:
 - **7.22m grading 13.77 g/t Au, 12.90 g/t Ag from 66m**
 - **4.88m grading 12.87 g/t Au, 6.04 g/t Ag from 41m**
- **Large-scale 2km 3D IP chargeability anomaly** indicates larger porphyry system than recognised by drilling to date

Copper Ridge & Meseta Plan View of 3D IP Chargeability, Drilling & Trenching (Cu ppm)

Copper Duke Project

Tier 1 porphyry copper potential supported by multiple datasets

- **7km porphyry alteration footprint** highlighted by magnetics, soil geochemistry (coincident gold-copper-molybdenum), trenching and surface mapping
- Corridor hosting multiple clusters of intrusive centres identified in geophysics
- Diorite and quartz diorite intrusive phases mapped at surface with abundant stockwork and sheeted veins
- Strong copper oxide and iron oxide mineralisation from surface
- Multi-phase outcropping targets:
 - ❑ Porphyry copper-gold mineralization
 - ❑ Breccia copper mineralisation
 - ❑ Epithermal gold / quartz-magnetite vein system

Copper Duke Project

Porphyry signature akin to Tier 1 porphyry deposits

Plan View of El Huato and Lumapamaba prospects displaying soil and trench samples (Cu ppm)

- **Wide intervals of copper and gold from surface** highlighted in trenching at El Huato and Lumapamaba:
 - 20m @ 0.21% Cu, 0.90 g/t Au
 - 28m @ 0.40% Cu, 0.28 g/t Au
 - 20m @ 0.10% Cu, 0.72 g/t Au
- Fractionated quartz diorite intrusive phase with **distinct porphyry copper signature** highlighted by geochemistry
- Quartz diorite derived from **high pressure hydrous melt** ie. magma type required for large long-lived porphyry copper deposits
- Age dating confirms mineralisation as Palaeocene- the same age as **giant copper porphyry deposits** in Peru
- **Only 4 shallow holes ever drilled!**

Titan- A New Era in Exploration & Development

Long term partnerships developed with key stakeholders

1

ENVIRONMENTAL RESPECT

Responsible exploration ensuring minimal disturbance to native vegetation and natural landscape

2

COMMUNITY BENEFIT

Working to benefit local communities, skills training, economic opportunities, local partnerships and community initiatives

3

BIG IDEAS

Exploring blue-sky opportunities in fertile systems for game changing discoveries and sustainable projects

4

RESPONSIBLE STEWARDSHIP

Commitment to integrity and best practice, to safety, scientific excellence and responsible planning and management of resources

Responsible Exploration

Commitment to transparency, education, employment and inclusion

- Community involvement and consultation at each step, to define development projects for win-win outcomes
- Titan employs locally whenever possible, many geologists and field technicians hired from local communities
- Significant improvement in land access across all projects thanks to dedicated efforts of CSR team

Titan & The Communities

Improving the quality of life for communities in which we operate- now and for the future!

Repowering of water treatment plants and maintenance of septic tanks

Donation of grains to local farmers

Medicines and vitamins supplied for children with chronic malnutrition

Materials provided for maintenance of churches, and Community Centres

Pro- mineral exploration and mining rally, local community showing support for Titan Minerals

Communities previously opposed to mining are changing their attitude, after seeing the benefits generated by Titan's presence, through the generation of jobs and community development initiatives.

Next Steps

Development ready gold project with resources set to rapidly grow

- **Determine ultimate size of Dynasty Epithermal Gold System-** lateral and vertical extensions to be tested over 9km of strike
- **Resource growth drilling at Dynasty -** Q3-Q4 2023
- **Dynasty Resource Upgrade-** Q1 2024
- **Dynasty Feasibility studies to commence-** Q1 2024
- **Continue advancing low cost, high value add exploration activities across all projects**
- **Secure the right partner** for exploring and developing large-scale porphyry projects to unveil their true potential
